nished by the interurban railway. The vote was overwhelmingly in favor of the proposition, and on December 22 the current was turned on. The streets were filled with men and women, in appreciation of the event.

The town administration in 1924 was composed as follows: M. L. Hire, mayor; L. G. Suiter, John Scott, Dr. Geo. Cusick, Theo. Dubois and E. L. Slaughter, councilmen; B. L. Morgan and R. A. Strong, assessor.

Public spirited women formed an organization for beautifying the levee, which was naturally fine, but was greatly neglected for many years, and they also took proper care of the cemetery. The men followed the good example and combined for the introduction of several public improvements, and considerable welfare work was done.

In the heydays of its existence, Princeton had a number of societies, which did much good in promoting social and elevating life. Among them was a music band, a glee club and several literary and dramatical organizations. Several attempts to establish a local newspaper, as a means of promoting the interests of the community had failed. L. R. Walker published the Princeton Reporter in 1900, and Frank Hamann the Princeton Herald in 1905, but neither of these enterprises was of a long duration.

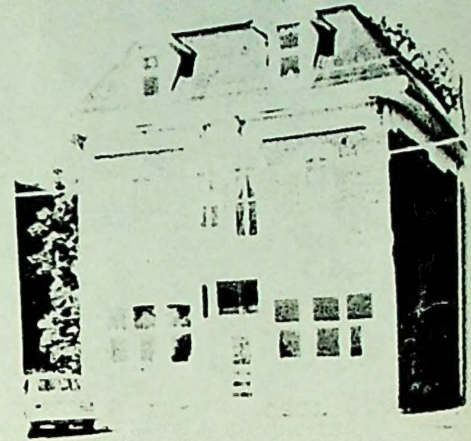

The first lodge of a fraternal order was Swan lodge, No. 234, of the Independent Order of Odd Fellows, which was instituted

April 3, 1872, with the following officers: O. W. Hogan, N.G.; J. W. Forsyth, V.G.; W. F. Culbertson, R. S.; Benj. Metzgar P.S., and Sam Williams, Treas. By a destructive fire in the L. P. Chamberlin block on January 6, 1879, the lodge suffered a loss of \$500. Echo lodge, No. 104 of the degree of Rebekah, was connected with the lodge. Andrews lodge, No. 69, of the Ancient Order of the United Workmen, so named for Mayor George Andrews, who had been instrumental in its organization was established May 26, 1876. The first master workman was D. W. Ulam, and the other offices were held by C. L. Maxwell, D. W. Hanks, Wm. Darbin M. Matthews, C. W. Knott, H. C. Chapman, Frank Shaw, and William Moss. Home Guards lodge, No. 14 was instituted February 1, 1908, by Jerry Green, supreme secretary of the Home Guards of the World, assisted by C. F. and Mrs. Anna Meyer. Princeton camp of the Woodmen of World was established August 10, 1906, but its charter was transferred to Argo in LeClaire township where most of its members resided."

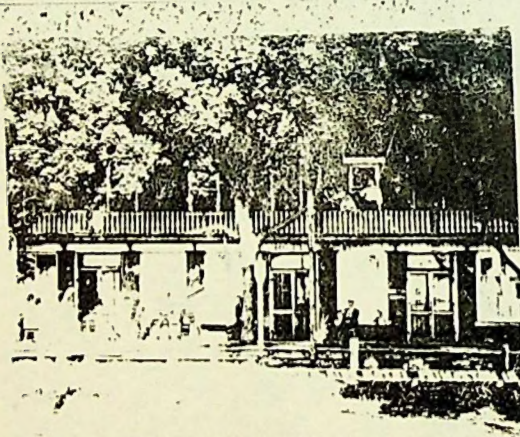

Today, Princeton is a growing town with a projected population of 1,000 people by 1990. The school system is now part of the North Scott Community School District. Princeton has an elementary school on Lost Grove Road. Upper grade and higher school pupils attend North Scott High School at Eldridge.

Princeton has good hunting and fishing, particularly in the area surrounding the Wap-

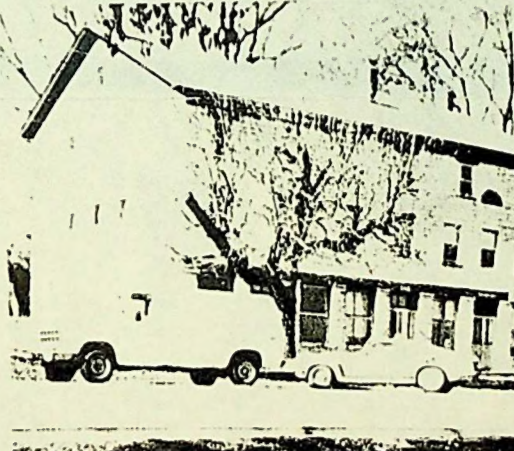

sinicon River. It is considered one of the best birding areas of Iowa. The town has ly all the conveniences needed for comfortable living, including library facilities. There are numerous parks, recreational areas and a nearby golf course. At Water Tower Park visitors usually comment first on the spectacular view of the river before enjoying the park facilities. The annual weekend homecoming celebration, Princeton Days, is always well attended. Submitted by Dorothy Lage

side glass panels and double rear doors. The body was built in Des

The second was a 1918 Oldsmobile eight. Nelson Finley McGinnis
drove the Olds chassis from Lansing, Michigan by Lincoln Highway (#30)
to Princeton, Iowa--sat on the gas tank. Rudolph Blocker (carpenter
and mechanic) removed the curved body from Olds chassis to lengthen
out Olds chassis. ^{WITH 6x6 ON THE FRAME.} ~~From oak timbers he made~~ drive shaft, brake rods,

a heart attack and was the first to ride in the new black Olds Hearse.

The interior was gray embossed leather in the front and gray mohair in the rear compartment. The car was bought through the Fluckinger Motor Co. in Davenport, Iowa. Finley Preston McGinnis and his sister Ruth went by train to Piqua, Ohio to drive this car to Bettendorf as orders specified. Arriving at the factory in Piqua we were informed that the car had been driven to the Studebaker factory in South Bend, Ind. It being a week end, Ruth had to return to Bettendorf by train as she was a teacher in the Bettendorf School and had to be on duty Monday a.m. Finley P. McGinnis had to stay over in South Bend until factory opened Monday am. The car was parked in an open 'cinder' lot and was so dirty you could hardly tell the color. Further investigation showed no oil on the oil stick. Finley was so irritated he would not except car until it was washed, greased, and oil changed and tested and proved ok. It did serve well.

The next was an Eureka-Cadillac, two-way side servicing Limosine, Model 1919, with no door in rear. The spare tire was carried on rear of car. The interior was of blue mohair and exterior was dark blue. This car was used in Dewitt, Iowa.

Number four coach was a Henney-Packard 120. It was a three-way side servicing Limosine, L-Head-line eight, Model 1936. The exterior was maroon with burgandy mohair interior. This auto was sold to Jensen Funeral Home in Kimballton, Iowa in 1948.

The fifth was a Henney-Packard, three-way side servicing Landau. L-Head-Eight in line--Model 1948--from Freeport, Ill. The exterior was maroon with the burgandy mohair interior. Landau. This Model 1953 was air conditioned and was maroon with the finest interior of two-tone burgandy and gray nylon.

The seventh was a Eureka-Cadillac, three-way side servicing Landau. Model 1958 was very similar to the 1953 with the maroon exterior and two tone interior. It was also air conditioned. This coach was traded to the Foster Eureka Co. in Sterling, Ill. in 1964.

Model 1964 was an Eureka-Cadillac, three-way side servicing Landau, air conditioned, and was maroon exterior with the finest interior of burgandy and gray nylon.

The first 7-passenger tonning car was a Cadillac--about a 1917 model. It was dark green and had yellow spoke-wheels. It was purchased, used, about 1925. This car was used on a few funerals but soon traded on a Cadillac Limosine. This limosine was a 7-passenger, 1915 model. It was dark green with dark green velvet interior. This was the first 'family' limosine used by McGinnis Funeral Home. It was bought (used) about 1925.

The next was a Studebaker- President six, eight-passenger sedan, Model 1927. It was black with disk wheels and had gray whip cord interior. The next was a Studebaker-President exactly like the one previously described.

The fourth was a Packard, 8-passenger sedan, model 1931. The exterior was maroon and the interior was a light brown broadcloth and had a brown curley rug in rear. The wheels had 'six wire' and there was a 'folding' trunk rack on the rear. This car was bought from the Packard garage in Chicago, Ill.--A beautiful car with chrome-mesh grill in front.

The next was a Packard eight-passenger Formal Limosine, model 1939. It was a beautiful car --dark blue exterior with gray broadcloth on rear seats and black leather on the front. This limosine was purchased from the Packard Garage in Chicago, Ill. and was later

traded for the Dodge eight passenger, model 1950, at Peters Motor Co., DeWitt, Iowa.

Number six was the Dodge-Coronet, eight passenger, six cylinder--model 1950. The exterior was maroon with gray whip-cord interior. The 1939 blue Packard was traded in on it at Peters Motor in DeWitt, Iowa. *Bob Peters sold car to a preacher who had plenty of trouble with it, he pulled a trailer with it. Bob was in church talking the story.*

The seventh was a 1950 Dodge-Coronet, eight passenger, six cylinder. This limosine was exactly like number six, previously described.

The eighth was a Cadillac 75, eight passenger sedan, model 1952. It was maroon exterior with gray broadcloth interior and was air conditioned. *By Finley* This car was bought from Langwith Motor Co. in Davenport, Iowa in 1953 and was like-new. General Dwight D. Eisenhower rode in this car in the 'campaign' Parade in Davenport in 1952. It was later traded to Harry Grossle, Freeport, Ill. on a 1957 Cadillac 75, Formal Limosine in 1959 and then sold to Handenshield Funeral Home in Dubuque, Iowa.

Number nine was the Cadillac 75, eight passenger Sedan, model 1950. It was maroon exterior with light brown broadcloth interior and was air conditioned. *By Finley* This car was purchased from the Sumption-Cadillac in Moline, Ill. in 1953. Traded the 1949 Rocket Oldsmobile, *on 1950 Cadillac* and 1950 Cadillac to Harry Grossle in Freeport, Ill. on the 1959 Cadillac 75 Formal Limosine in 1961.

The next was a Cadillac 75 eight passenger, Formal Limosine, model 1957. It was maroon exterior with gray broadcloth in rear and black leather in front of the interior and was air conditioned. This was the best that Cadillac made. Was bought from Harry Grossle in Freeport, Ill. in 1959.

The eleventh was a Cadillac 75, eight passenger Formal limosine, model 1959. The interior had gray broadcloth in rear part and beige

Was purchased from Harry Grossle, Freeport, Ill. in 1961.
Loaded Family and Pres. Church LeChlain Hibbard, Newt, soon traded.

The next ambulance was a black, eight passenger sedan, 1940 Dodge Dodge which was purchased in 1945 and converted to an ambulance. Finley McGinnis traded the 1937 President-eight, two door, Studebaker sedan which he had aquired in taking over the McGinnis Funeral Home in DeWitt, Iowa. in 1945, to the James E. Baxter Motor Co., Davenport, Iowa. This car was later traded at Langwith Motor Co., Davenport, Iowa for a Cadillac 75, eight passenger sedan, maroon, Model 1952. This transaction took place in 1953.

In 1941 a seven passenger, formal limosine Packard (Maroon 1937) was bought at the Packard Garage in Chicago, Ill. This car was converted to Ambulance in the body shop in Chicago. A Chicago woman

had had a 'custom built' Rolls-Royce body mounted on the Packard ~~Chassis~~ shortly before she died. The Rolls-Royce had a gold plated windshield. This was the third car we had purchased from the Packard Garage in Chicago.

The next ambulance was the International Travelall B100. It was a 1960 model--color, maroon^{ish} three doors. There was no door on the left rear side but had double doors in the rear. This car was traded at International on a ~~C100~~ C100 in 1963. The 1963 model was a maroon, with four doors plus the double doors in the rear. Both above mentioned Internationals were purchased^{by} from International Motor Co., Davenport.

P.H. McGinnis' business was the forerunner of McGinnis Chambers and Sass Funeral Home.

... and Southern Districts of

The first car used by Finley Preston McGinnis was a Model T Ford roadster. This was a black, 1917 Model, with a California glass enclosed top. It had an inside starter and a hand lever and foot peddle--you pushed on the peddle and pulled on the lever at the same time. It worked good. It also had a front crank. Finley was ten years old when his father, Preston Hailey McGinnis, came home to Princeton from Davenport, where he had purchased the new Model T. Fifteen minutes after his father had put the Ford in the garage a neighbor, Mrs. Lizzie Wilson, called to inform Mr. McGinnis that Finley had gone up the road in the new Ford. Finley drove it almost exclusively from then on. Although he was only ten years old no license was required. This Ford had about every accessory available installed on it. This Model T was later traded in for an International truck.

The second was a Model A, Model 1928. It was a two-tone (Arabian Sand and Dessert Gray) four-door Sedan with light brown interior. It was purchased new from Wright Brothers Garage in McCausland, Iowa. The order was placed before knowing what the car would look like. This Model was later traded to Lytle Motor Co., Davenport for a Plymouth.

The Plymouth was a 1933, black, four-door Sedan. This car was later traded to William Helm Motor Co., Davenport, for a 1935 Oldsmobile.

The Oldsmobile was a 1935, maroon, two-door Sedan--six cylinder. This car was also used for an Ambulance.

The '35' Olds. was later traded to Vincent J. Neu Motor Co., Davenport on a 1940 Oldsmobile. It was a maroon, two-door Sedan. This model was later sold to Louise McCluskey of 823 Grant St., Bettendorf.

Finley's fifth car was a 1940, maroon, two-door Sedan, Oldsmobile--six cylinder. This car was purchased new from Vincent J.

Neu Motor Co., Davenport, Iowa. This car was used for ambulance as well as passenger. This car was the first air-conditioned car in this area. The Oldsmobile representative wanted to take the car to Detroit, Mich. for inspection but he did not make good enough offer. This Olds. was later traded to Vincent J. Neu Motor Co. for a 1949 two-door sedan, maroon in color.

The sixth car was a 19 black Chevrolet coupe, purchased from a boy going into the Army while Finley P. McGinnis was in the U.S. Air Corp., Selman Field, Monroe, La. It had large balloon tires. was only owned a short time when Finley had to move over-seas. He sold it to Lt. Goldfarb at Selman Field, Monroe, La.

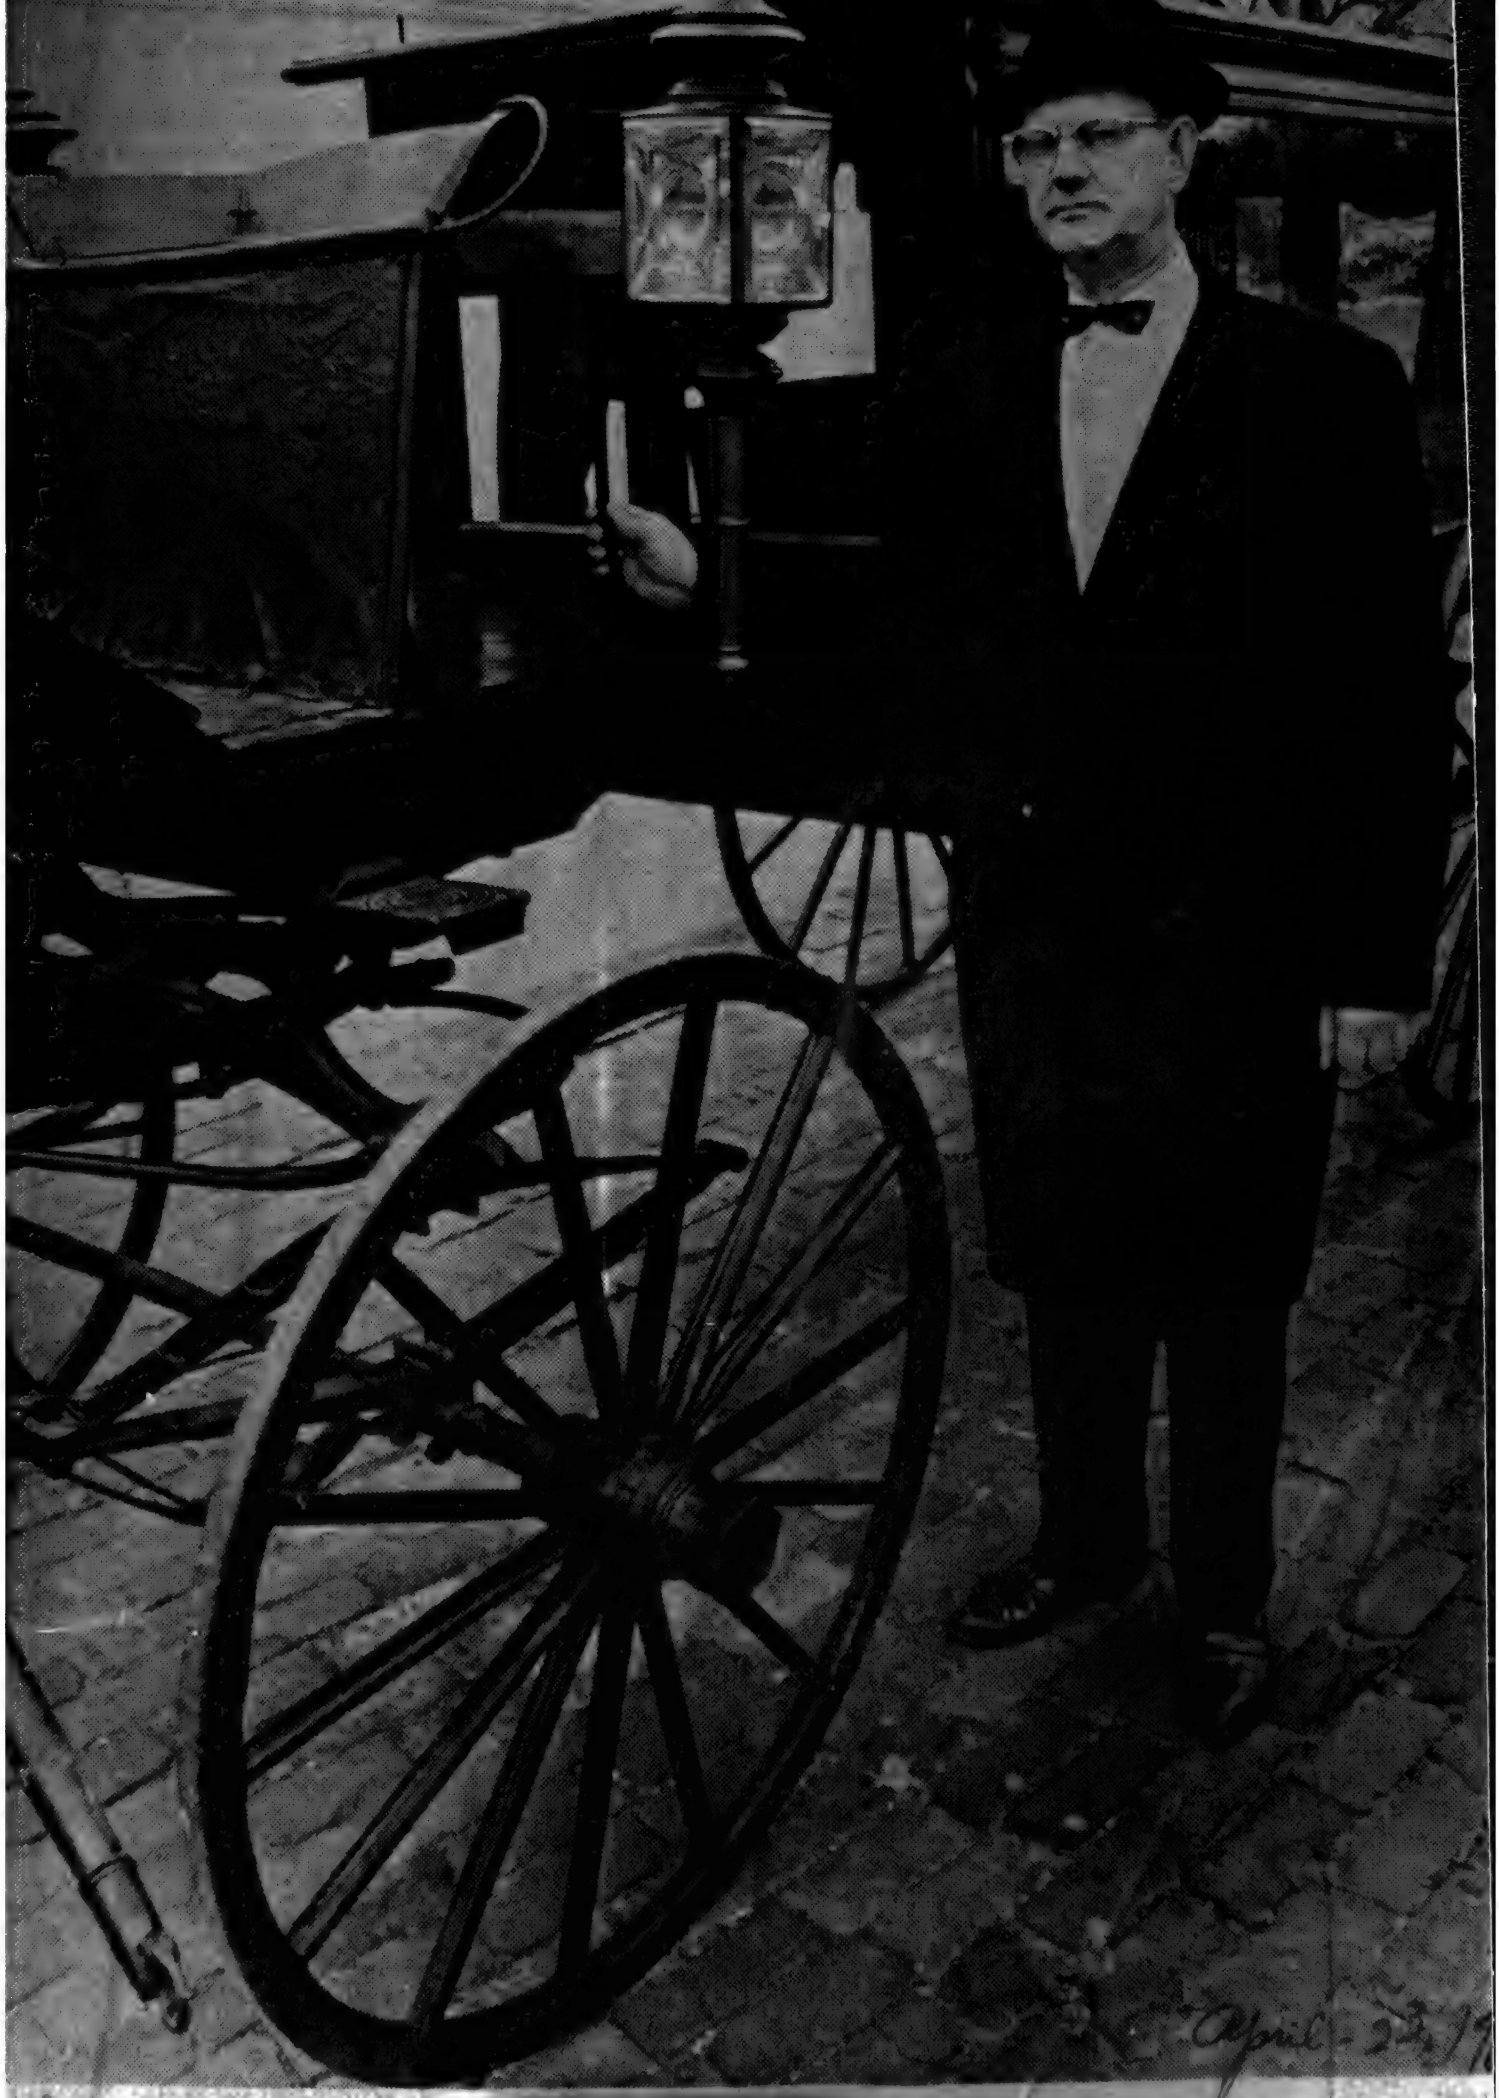

Number seven was a 1949 maroon, two-door Oldsmobile sedan--first Rocket eight-cylinder motor. It was purchased new from Vincent J. Neu Motor Co., Davenport. It was later traded to Sumption-Cadillac Co., Moline, Ill. on a 1950 maroon, eight-passenger Cadillac sedan.

Car number eight was a Plymouth Station wagon--a 1951 maroon two-door. It was purchased new from Peters Motor Co., DeWitt, Iowa (six cylinder). First time it was used for flowers Lottie said she did not like it and would have to wear slacks if she was to get flowers out of it. It was traded back to Peters Motor on a 1951 four-door Dodge station wagon--maroon with brown vinyl interior.

The ninth was a Dodge-Coronet station wagon. It was a 1951 maroon, four-door purchased new from Peters Motor Co., DeWitt. This car was later traded to Strieter Motor Co., Davenport for a 1957 white Mercury Colony Park station wagon. In 1963 it was sold to Clarence Garrison.

Number ten was a Dodge Sierra Custom MD3-11, four door, three seat, Station wagon. It was a 1959 coral with black and white vinyl interior. This car was air-conditioned and had a D500 motor. The car was purchased new from Peters Motor Co., DeWitt and later traded to Vincent J. Neu Motor Co., Davenport for a 1964 Oldsmobile-Fiesta, three

seat, 88 Station wagon. Maroon exterior with Regal Mist vinyl interior--air conditioned.

T The first truck purchased for the Funeral Home was a 1926 three-quarter ton, four-cylinder International. It was black with red wheels. It was a 'used' truck, purchased in 1928 from International Garage in Davenport. There was a nichol plated rail around about eight foot truck box; a nice enclosed cab with leather upholstering. This truck was traded for the 1917 black Model T Roadster--was allowed \$50.00 on trade. Finley P. McGinnis has always regretted not having kept this car as it was his frist automobile.

The second was a three-quarter ton, six-cylinder, 'telephone Co. gray', 1936 Dodge. This truck was bought from Cy A. Peck Casket Co., Davenport, Iowa in 1937. It had high built box, eight foot long, with wing out top on each side. There was room for a vault in the box and three caskets across the top. Very fine enclosed cab with nice leather upholstering. This truck was later sold to Howard E. Canfield at the Bridge Foundry Co., 818 27th St., Bettendorf, Iowa.

It was Model 1928 and was an eight passenger with six wire wheels. Number 13 was a Studebaker Dictator, six passenger sedan. It was model 1933, black in color, and new. 14 was a Studebaker Dictator, six passenger sedan model 1935--black and new. Mr. Preston Hailey McGinnis died March 16, 1939 and left this Studebaker to his daughter, Lottie McGinnis Earnst of Bettendorf, Iowa. This was later traded in for a 1941 two-tone green Oldsmobile.

The first automobile hearse Preston Hailey McGinnis owned was a 1913. It had hard rubber tires, chain drive, a carved body with glass side panels and double rear doors. The body was built in Des Moines. (black) John F. Wilson was the driver of this car for years.

The second was a 1918 Oldsmobile eight. Nelson Finley McGinnis drove the Olds chassis from Lansing, Michigan by Lincoln Highway #30 to Princeton, Iowa--sitting on the gas tank. Rudolph Blocker (carpenter and mechanic) removed the carved body from the 1913 Gay chassis to lengthen out the Olds chassis. With 6x6 oak timbers on the frame he lengthened drive shaft, brake rods, etc.. Shortly after the car had been completed Rudolph had a heart attack and was the 1st to ride in the new black Olds hearse.

PROJECT #50 - PERSONNEL OF THE C.W.A.OFFICE

The administration office of the CWA in Scott County handled all business under the CWA except the writing of payrolls and the disbursing of checks. Included in the administration work were the writing of all projects, the general control, the purchasing of all materials. In the administration office were:

The Purchasing Agent

The Injury Clerk

Three clerks, men

Two clerks, women

Messenger

One Stenographer

In charge of the Administration Office was Mr. B. D. Crozier, whose services were contributed by the Civic Planning Committee.

In the Disbursing Office, where all payrolls were supervised and all checks made out and audited, were:

Two Payroll Supervisors

One Stenographer

Eleven Clerks and typists.

In charge of the Disbursing Office was Mr. George Hamann. This office wrote 41,996 checks, amounting to \$577,224.77, payable to approximately 3800 men on 1098 payrolls.

PROJECT #35 - PRINCETON : GRADE BALL PARK

The only convenient and available spot for a ball park in Princeton, and the spot which had been in use for that purpose for sometime, was, unfortunately, far from level, and very bumpy. This project consisted of preparing the field so as to make it more useful for its purpose, that is in doing a considerable amount of grading. A large mound of soil was cut down and carried in wheelbarrows to a low spot where it made a considerable fill, and field was generally leveled. The net result is a much improved ball park, and the town, incidentally, has already taken a greater interest that it had before, because of the improvement.

PROJECT #36 - PRINCETON : CLEAR, GRADE, AND
DRAIN STREETS

At the east end of the town of Princeton, there is a small gravel pit owned by Scott County. Out of it was taken enough gravel to surface several streets in this town. While Princeton is not a large community, certain of its streets are fairly heavily traveled, and therefore, need a hard surface. This project changed mud roads, subject to weather conditions, into streets usable at all times.

PROJECT #36 2-1-34

PROJECT #36 2-1-34

PROJECT #223 - PRINCETON: GRADE BALL PARK

STREET IMPROVEMENT

This project was the extension of Projects #35 and #36. The work consisted of further grading to level the town Baseball Park, erecting bleachers, and generally putting the field into condition.

The road surfacing was continued, and the condition of several streets was greatly improved.

PROJECT #128 - PRINCETON : IMPROVE CITY HALL

The city hall in Princeton was in serious need of repair, and particularly of repainting. This project included the making of minor repairs and painting the building both inside and out. The work not only greatly improved the appearance of the hall, but also served to check weathering and to prevent the necessity of making much greater repairs in the future.

TO THE TEACHER

This folder contains all the reports necessary regarding the deportment, attendance and progress of the pupil. At the close of each period, fill the blanks neatly and accurately. Send the folder to parents regularly and see that it is returned promptly, bearing the proper signature.

Make all entries with pen and ink, carefully avoiding all erasures. The manner in which these reports are made will indicate the general character of your work.

The period markings should be the average of the pupil's class work and such oral or written examination tests as you may have. Be just in your markings.

TO THE PARENTS OR GUARDIAN

That the objects for which our Schools were established may be realized, the teacher and parent must co-operate with each other in securing the interest, regular attendance, excellent deportment and the proper effort of the pupil. The necessary results are rarely secured if this co-operation does not exist.

These reports should be carefully considered, as they show a complete summary of the pupil's work. Should you at any time observe anything of an unsatisfactory character in these reports or elsewhere, please call upon and consult with the teacher at once. You will thus aid in removing all cause of every difficulty, and the pupil's welfare will be promoted.

TO THE TEACHER

This folder contains all the reports necessary regarding the deportment, attendance and progress of the pupil. At the close of each period, fill the blanks neatly and accurately. Send the folder to parents regularly and see that it is returned promptly, bearing the proper signature.

Make all entries with pen and ink, carefully avoiding all erasures. The manner in which these reports are made will indicate the general character of your work.

The period markings should be the average of the pupil's class work and such oral or written examination tests as you may have. Be just in your markings.

TO THE PARENTS OR GUARDIAN

That the objects for which our Schools were established may be realized, the teacher and parent must co-operate with each other in securing the interest, regular attendance, excellent deportment and the proper effort of the pupil. The necessary results are rarely secured if this co-operation does not exist.

These reports should be carefully considered, as they show a complete summary of the pupil's work. Should you at any time observe anything of an unsatisfactory character in these reports or elsewhere, please call upon and consult with the teacher at once. You will thus aid in removing all cause of every difficulty, and the pupil's welfare will be promoted.

FOR HOMECOMING

Is there anything more important now than home-coming? There shouldn't be, and as far as the high school body is concerned, I believe every student is wrapped up in it as much as the gym is going to be in decorations and the atmosphere of a happy time on the 24th.

In case you didn't all know, these are the things that are going to constitute the program.

The first thing on the list is the ceremony honoring the Queen, Arline Rinebold. She will be escorted to her throne by the Pep Club and crowned by the B.B. Captain Roland Moore.

The Pep Club is going to be out to show everyone just how much spirit is going to back up our teams this year. They have new outfits in green and white. And they are under the leadership of two girls who have already shown their capability of undertaking their jobs, Hilda and Ethel. They will give drills between games to honor the alumni and Calamus.

The climax of the evening will come in the half of the boy's game, when the drawing will be made for the turkey. It will be a big one, weighing between 15 and 18 pounds. In order for everyone to hear the number drawn, Mr. Long has chosen Babe Vance to be the drawer, and he'll see to it that everyone hears the decision.

A crowd of 300 or more is expected, so let's all do our part and see that the gym is well filled.

For alumni only: This event is being put on to stimulate your interest in an Alumni Club. You are going to be our honored guests, and will be given a souvenir when you register at the door. Miss Fulton and Miss Miller are in charge. Mrs. Hulet will serve pie and coffee to you as a Homecoming treat.

Last but not least, to every high school student, remember what Mr. Kurth said about our conduct toward the alumni and before our homecoming crowd.

A Bit of the Old Spirit

We have twenty-one games scheduled for the boys this season and have a few new competitors. Let's treat them as our guests rather than our enemies. If we treat them as our guests, we may be able to schedule them again next season. To make this a real homecoming, what do you say that you come and show your spirit for the teams of Le Claire High and cheer them?

We are pretty proud of the new shirts so let's help out the boys and be present this night. The first team of the boys have new trunks also.

SNOOPY SISTERS

After stretching our noses all over town we found out the following odd facts:

A light was seen burning in the upstairs of the Kurth home early one morning. Is it possible they sleep with the light on?

Mr. Gross has a mania for pulling down shades. Is it force of habit?

It seems the juniors are rather lazy. Mrs. Juliet had to make almost all the posters for the play.

Mr. Long saves old things for rugs. Who makes them, Mr. Long, you, your wife, or the Olson Rug Company?

Miss Nelson thinks that Pep Club really argues.

The gale from the north brings tidings about a graduate of L.C.H.S. Eud Heldt is at the Great Lakes! In training school he reports, "Truthfully, I don't think there's anything better." He expects to be transferred to Panama or Hawaii in about 8 weeks.

And not much snooping tells us that a storm or something is brewing in the Psychology class, among the members.

Now we put our noses to the grindstone and snop around till next time.

LAST MINUTE FLASH! What latest fashion book is it that you take, Ethel?

Mr. Maffit: What is your favorite hymn, daughter?

Ethel: The one you chased out of the yard last night.

SENIOR NEWS

Typical quotations:

Mr. Kurth: "Mrs Kurth and I have a terrible time with our twenty-one kids."

Aaron: "I think Einstein is a very smart man. Wonder if I'll ever catch up with him."

Leo: "I think I'll be a bachelor and fool them all."

Harvey: "I don't know if I'm Romeo or not, but I've found my Juliet."

Cecil: "I'm not choosy. Anything I get to eat is okay by me."

Roland: "No wonder Norma can get a good-looking boy-friend, she's pretty good-looking herself."

Eugene: "I intend to be a great artist some day. I know I can make it."

Ila: "If you think our class is dignified, just try toning them down in class meeting."

Arline: "Being queen is sure a tough job. I hear they're going to crown me."

Mary L.: "I'm forever shooting baskets."

Ruth J.: "Gosh, Ed, I wish you weren't so tall."

Dorothy: "I wouldn't mind being secretary to a tall, handsome man."

Alberta: "I wish that boyfriend of mine would shave smoother. He makes my chin all rough."

Georgetta: "I like to giggle! So what?"

Verneil: "It's darned tough having a brother in school to carry tales home."

Evelyn: "I like older men."

Faith: "Tee hee!"

Ruth O.: "Tee hee! Isn't that an awful habit? I caught it from Faith."

Frances: "I may not be at the top of the class, but I have my own ideas."

Wilma: "Every time Casey kisses me the shivers go up and down my back. Can this be love?"

Julia: "Hi, honey, how's tricks? Everything's okay with me."

Mary J.: "This blushing is certainly embarrassing business. My face gets so red!"

Bounce: "Woof, woof, never again will I eat dead fish. It destroys my canine appeal."

Say what's this I hear about Norma going in for bargains? (With a little of Priscilla's help)

Around the Sophomores' Thanksgiving Table. With the president seated at the head, and the sponsor at the foot. The president speaks--

FRESHMEN

Not that Freshmen don't ask enough questions, but why--

Does Melba like Cecil N. so well.
Does Jack try to show off.

Does Barbara like Babe so well.

Does Edward wink at Miss Nelson.

Does Florence think she's so smart.

Does Herman act so bashful.

Does Maxine like Frankenstein.

Does Mr. Kurth know just the right thing to say just then.

Does Miss Nelson go to Galesburg every week-end.

JUNIORS

Ask E M and L B how they enjoyed their ride home Monday night after practice..

We missed I E from the group Monday night. Could she have been nurse-maid? Who was the redhead W S had? Could it have been A B?

What Junior girl always proceeds to ask questions with Hey.

We Juniors are more than pleased with the success our play was last Friday. As everyone probably knows we are sorry that it is over, for we had loads of fun at the practices.---Or was it after? But now with a sigh and a groan we will settle down once more to studies.

We wonder Y

Irene and a certain blond ran out of gas the other night?

Betty could not come to practice one night.

Louie thinks the Pep Club will be good this year.

NOTICE: To those that didn't know that wearing shirt tails out isn't the style any more.

NOTICE: That was just a rumor. A smart girl looked it up and it still is in style.

- - - -

Here's to the teachers,
Long may they live,
Even as long as
The lessons they give.

Science is wonderful. It couldn't pry open the pullman windows, so it air-conditioned the cars.

Mr. Gross: When did the revival of learning start?

Cecil S: Just before exams.

Swede: Have you seen any change in me?

Charles: No, why?

Swede: I just swallowed fifteen cents.

Kate V: I see you cup of tea on a chair. That's a peculiar place to put it.

Frances S: Not at all it's so weak I put it there to rest.

The origin of O.K.

More than a century ago the best tobacco and the best rum came from Aux Cayes (pronounced O K), and the best of anything was designated as Aux Cayes, or O.K. This meaning of the phrase is still retained. In the Jackson campaign every lie that could be invented was used to blacken the general's character and all state-ments endorsing him were called O.K. using the general's customary indorse-ment of papers as "oll kerrect." The Democrats took up this statement and put the mystic letters upon their banners. The meaning "all correct" stuck to the letters, and since then they have been used in the two mean-ings of "the best" and "all right."

Usher: How far down do you want to sit, Madam?

Fat Lady: Why, as far down as the seat goes, of course.

EXPLANATION OF MARKINGS:

- A—Very Good Work
- B—Good Work
- C—Average Work
- D—Below Average
- E—Passing
- F—Failing

The letter "S" placed after a mark indicates that the grade given is satisfactory for this particular student, as not every pupil is able to earn the highest marks. However, if the mark is followed by a "U", it is understood that the work is not as good as this student can do, and greater effort or more time should be spent on that subject.

Subdivisions, habits, and attitudes are marked as follows:

- S—Satisfactory
- U—Unsatisfactory
- I—Improving

TO THE PARENT:

This report is sent to you every six weeks to acquaint you with your child's progress in school.

Special attention is called to the effects of irregular attendance. A serious interruption to progress and a lack of interest in school work are often the result.

Please notice each marking carefully. You should be concerned not only with scholastic grades, but also reports on personality and character. Young people who improve in these respects are establishing the solid foundations for happy, useful lives.

If you have any doubts, uncertainties or misunderstandings concerning this report, we urge you to confer with the teacher in the interests of your child. The schools are your and our responsibility. They will become better schools only if your confidence and cooperation are coordinated with our efforts to provide superior education.

Plan to visit your school this year.

HARRY W. BANZE,
County Superintendent.

Myths About Our Flag

Mon June 14 1960

Peggy Volrath, Princeton, displays three early American flags. She holds one with stripes and a Union Jack in the place of the stars. Colonists designed it to show their independence of Britain. Flag at left contains 15 stars in rectangular arrangement. Flag at right has stars arranged in circular design and is first official American flag.

There are countless myths about the origin of the American flag, including the obvious fable about Betsy Ross, but Don Herold, Davenport Public Museum director, hopes to dispel a few of them.

Herold, who has made an intensive study of the history and origin of the flag, will discuss the true historical facts in the museum lecture hall at 7:30 tonight.

Today is Flag Day and the meeting will be open to the public. Herold will give a history of the flag's origin and illustrate his talk with slides.

Also on display will reproductions of 16 flags, including the British, Scotch and Dutch which played a role in the development of the American flag. There are also Viking, Spanish and French flags in the group, as well as a copy of the flag that inspired "The Star Spangled Banner."

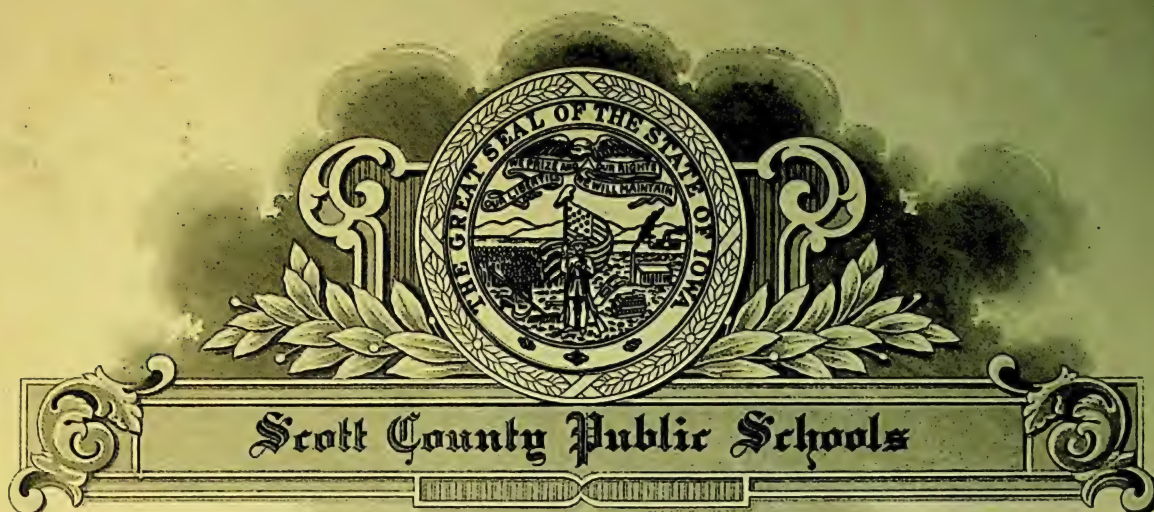

The announcement that Betsy Ross had made the flag was not made until 100 years after her death by a relative who changed his version of the story several times. Historians have found she could not possibly have met with Gen. George Washington to discuss the new flag at the times claimed, Herold said.

Herold said it was 1912 before the United States got an official flag. Prior to that time so-called "American flags" could be of almost any design, size and shape.

The first flag had the stars arranged in a circular design, and was designed by a government employe for the Navy. The man was never paid for his work because it was claimed he had made the design on government time.

"The true story of the flag is much more exciting than the myths that have grown up about it," Herold declared.

Ready for the Last Trip!

Progress marches on!

The last interurban car between Davenport and Clinton will make a farewell run tonight ending almost 35 years of interurban service out of Davenport. Interurban service to Muscatine was abandoned some time ago and starting Monday sleek new steamline busses will furnish all of the inter-city service of the C. D. & M. Railway Co. between Davenport and Clinton and Muscatine.

When first introduced the interurban cars, which now join streetcars and old Dobbins, in the transportation graveyard, were hailed as a new link between city and rural areas.

Princeton, Ia., Bidding for U. N. Site, Still Hopeful but
Rather Skeptical of Success

by "Bill" Wundram, Jr.

"There's bad news from Princeton tonight," Gabriel Heater moaned over the airwaves.

"Premier Molotov left the United Nations council chamber in a huff this afternoon, declaring he would not return to those bluffs overlooking the Mississippi river unless his ultimatum of earlier in the day was followed by the general assembly."

"The Russian delegate, accompanied by two secretaries departed from the chamber at 2:19 p. m. A chauffeur said they head towards Bettendorf, headquarters of the Soviet delegation."

Sure, it sounds like an impossibility that you would ever hear Gabriel Heater lament such news as the above coming from the tiny town of Princeton, Ia.

And you laugh to think of Arabian shieks, in their robes and sandals, ever strolling thru Grant's basement looking for a sand pail to send home to their little boys.

It sounds like a great big joke.

But that's what would occur should the United Nations accept the bid of Princeton to locate their permanent site in the river town above Davenport of 2,000 residents.

CHANCES SLIM

Skeptics say the chances are slim - in fact almost unthinkable that the UN site committee will accept the offer of 20 acres of Princeton land on which to build their headquarters.

But Will Rogers, who offered the land high over the banks of the Mississippi river, staunchly maintains:

"It's not an impossibility."

Rogers, just returned from New York City, where he contacted representatives of the United Nations as to the possibility of the UN locating in Princeton, reported Thursday he was assured that the town's bid would be considered.

"There's a lot of squabbling going on at Lake Success, N.Y. over the choosing of the site," Roger's said.

"It's my opinion that the New York City politicians want it ther but people don't. San Francisco wants the U.N., but does the U.N. want San Francisco?" he asks.

"What's the answer?"

"Why locate in the middle, go between the east and west coast. That's where Princeton comes in. We're right in the center of the country," Roger's explains.

Secretary of State James Byrnes in an answer to the bid of Roger's and Princeton for the U.N. site merely conceded that he received the invitation.

Funeral Today for Dr. McElderry, Former Physician of Princeton

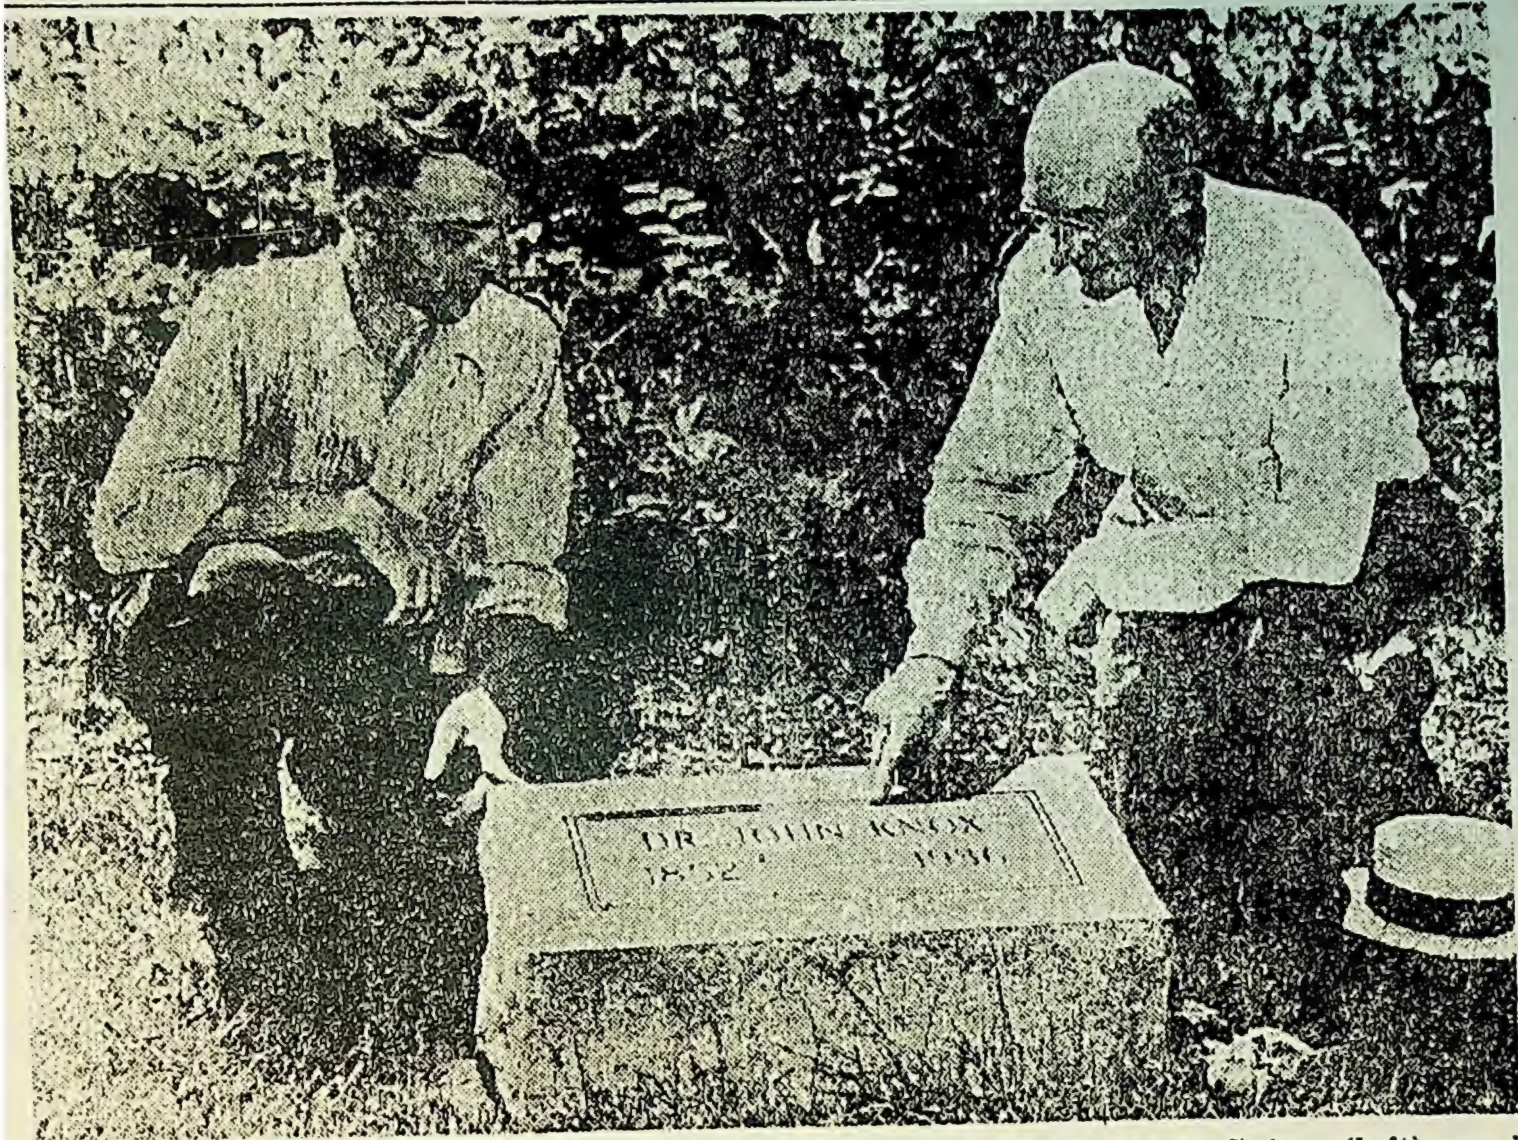

OTTUMWA, Ia. — (Special)—Funeral services for Dr. Donald McElderry, 74, former Ottumwa and Princeton physician who died Monday at the Veteran's hospital in Des Moines, will be this afternoon at the Johnson funeral chapel, conducted by Chaplain Deloss Marken of the Veteran's hospital in Des Moines. Burial will be in Agency cemetery.

Dr. McElderry was born February 28, 1874, at Fairfield, the son of John R. and Isabelle F. McElderry. He took up the practice of medicine in Agency in 1908, and eight years later moved to Ottumwa where he practiced until 1942. In that year he went to Princeton, in Scott county.

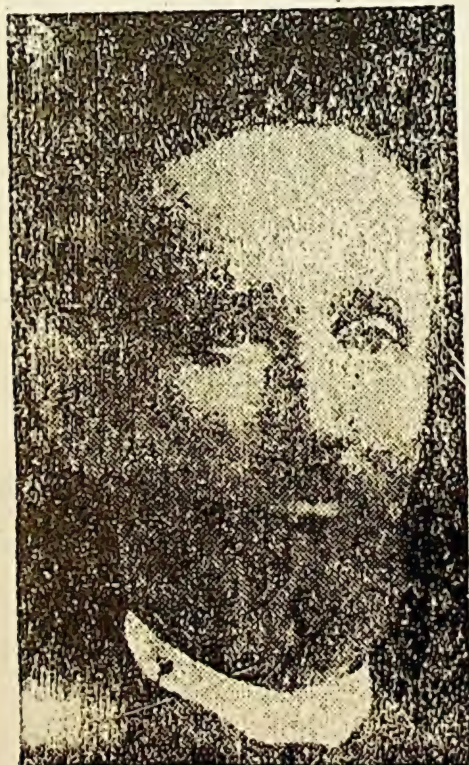

He was a captain in World War I, entering the service in September of 1917 and was discharged in February of 1919 at Camp Sheridan, Ala.

He was a past president of the Wapello County Medical society, a member of the O. B. Nelson post No. 3, American Legion, of the A. F. & A. M., lodge No 16, Ottumwa, and the Zarephath consistory of Davenport.

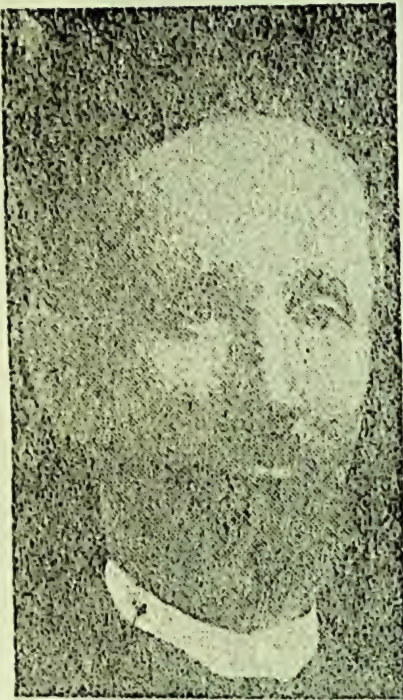

Surviving are his wife, Edith; a son, Frank McElderry, Des Moines attorney; a foster son, Lt. Comdr. Harold Buell, New Port, R. I.; four grandchildren; a brother, Dr. C. A. FIRST WHITE CHILD—

The above picture shows Dr. John Knox, the first white child to be born at Princeton, as he looked during the height of his career. He was proud of his beard, and one of his greatest disappointments came when it was shaved off at a hospital several years before his death.

Princeton Boosters Dedicate Grave Marker Honoring Town's First White Child, No. 1 Citizen

By JIM COLBY.

Down thru the years many of the pioneer residents of eastern Iowa have passed away, and have been all but forgotten by succeeding generations. Even the final resting places of some of the men and women who helped write the history of this section of the state are unknown. But such will not be the case of Dr. John Knox, the first white child born in the town of Princeton, and one of that community's most outstanding citizens, for the Princeton Booster club has erected a marker over his grave in the cemetery there.

Ever since the death of the old doctor on Aug. 14, 1936, the grave had remained unmarked, and the location of his burial place had been forgotten by many of the town's residents. But the Princeton Booster club, under the presidency of J. R. Suiter, and thru efforts of a committee headed by T. F. Ruhberg as chairman, recently purchased and erected a marker for the grave. Members of the committee in charge of securing the marker included John Litscher, J. C. DuCray and Roy Holst.

John Knox grew to young manhood in Princeton, attended school there, and later studied medicine at the University of Pennsylvania, when he graduated in 1877. He served as resident physician of the Philadelphia hospital for one year before returning to his home town in 1878 to start practice of his own. He served as mayor of Princeton for several terms.

Many of the present residents of Princeton were brought into the world by Dr. Knox, who also attended them down thru the years, caring for their children and grandchildren as well. The veteran doctor's active career came to an end in 1905 when he was injured in an accident when a train ran into the horse and buggy in which he was answering a call.

PERFECT LOCATION

"Nevertheless, I'm still holding out hope. We have the perfect location. Far away from the hustle of metropolitan cities, yet close enough for quick access to them via the Tri-cities," Rogers said.

As to the reaction of the majority of townsfolk, they just shrug their shoulders and say:

"We haven't given it much thought. Maybe because we just think it's impossible that the U.N. would ever locate here."

When prompted by such remarks as:

"But it could happen here. What would you think of Arabs walking your streets, of Chinese statesmen as customers in your barber shops, and of Russian delegates ordering vodka in your two taverns?"

But most of them still answer: "Aw, it just couldn't happen here."

MRS. JAMES BAXTER OF PRINCETON TOWNSHIP CELEBRATES 90TH BIRTHDAY

Princeton can proudly announce that she has gained the distinction of having another nonagenarian. On Tuesday, November 16th, Mrs. James Baxter celebrated her ninetieth birthday at the home of her daughter, Mrs. William Olive. It was a happy occasion for Mrs. Baxter as she was honored by having all her children, with the exception of one son Claude with her.

Telegrams and cards of congratulation and best wishes and gifts from friends were showered on the birthday celebrity. Open house was observed for friends and a delicious dinner was served in the evening. A birthday cake made by Mrs. Baxter's granddaughter, Mrs. Martha Fisher, was beautifully decorated with the birthdates, 1858 - 1948.

Relatives attending from out of town, included Mr. and Mrs. Eugene Baxter with children, Billy, Richy, and Barbara Ann of Cedar Rapids. Mr. and Mrs. James Baxter and son, Timmy of Davenport; grandsons and great grandchildren of Mrs. Baxter. Telegrams were received from Claude Baxter a son, and Mrs. H. J. McChesney, a granddaughter and her two sons Donald and Richard of Phoenix, Arizona. Another grandson Albert Baxter and his son Steven of Quincey, Ill. also wired congratulations.

Mrs. Minerva Baxter was born in Princeton township ninety years ago in the Sand Hill School district. She has lived in Princeton her entire life with the exception of nine years in which she lived in DeWitt, Iowa. She is a member of the Princeton Presbyterian Church.

Mrs. Baxter is a very exceptional person for her advanced years. Her interest in her appearance and her very keen intellect impresses you with the wealth of information she has on the Pioneer life in which she lived and contributed to this community. When interviewed, Mrs. Baxter said she realized her life was most interesting she stated, "If my eyesight had not failed me, I would write a book on my life."

Mrs. Baxter's family, Mr. and Mrs. William DuBois came to Pleasant Valley from Ohio in a covered wagon. Her husband's family had along trip from New Jersey. Both families met in Pleasant Valley and later bought adjoining farms in Princeton township. Mr. Baxter was born in a log cabin on Lost Creek.

There were 14 children born to Mr. and Mrs. William DuBois. Mrs. Ella Conrad of McCredie, Missouri, a sister of Mrs. Baxter is the only member of her immediate family still living. She is also very active for her 84 years of age.

Mrs. Baxter attended the Sand Hill school in which prior to her marriage she taught for a short time.

On March 20, 1884, she married her childhood playmate and neighbor, James Baxter. They farmed the Baxter homestead where four children were born and reared. Her four children all living are Mrs. Katie Oliver, Miss Maude Baxter, William Baxter of Princeton & Claude Baxter of Phoenix, Arizona.

MRS. JAMES BAXTER OF PRINCETON TOWNSHIP CELEBRATES
NINETIETH BIRTHDAY ..continued

Mrs. Baxter's husband James died in 1912. Miss Maude Baxter has made her home with her mother. They recently moved from the town of Princeton and now are living with Mrs. Baxter's daughter, Mrs. William Oliver in Princeton township. Mrs. Baxter has five grandchildren and seven great grandchildren. Two grandchildren now deceased are Dorothy Baxter, daughter of Claude Baxter and Joe Oliver, son of Mr. and Mrs. William Oliver.

Her interesting stories of the changes the years have made in the life of the community are most fascinating.

Transportation was one of the things she commented upon. The drive to Davenport with produce was a three hour journey. In Davenport and Clinton they had just one store to trade in. River boats were used to ship most of their farm produce to St. Louis from LeClaire, which was the headquarters for all river traffic. The winters seemed much colder in those days, with much heavier snow storms.

This might be due to the houses not being built so well and the use of wood for fuel she explained.

It is the wish of all who know and admire Mrs. Baxter, that she will have many more years in the future to enjoy.

ZACH G. SUITER

Mr. Suiter was one of the best known and widely respected smaller town bankers in eastern Iowa, and was active in civic affairs of Princeton and Scott county.

Born December 1st, 1891 in LeClaire, he was the son of Zach D. and Ann Suiter. He was educated in the schools of LeClaire, and in 1912 he took a position with the Farmers' bank in Princeton, where he gradually worked his way up to the presidency.

He was married to Miss Marie Holst in Davenport on September 18, 1919.

Mr. Suiter was active in the Presbyterian church of Princeton. He was past master of Snow Lodge, A. F. & A. M. of LeClaire, and of Zarephath Consistory and Kaaba temple in Davenport, as well as past patron of the Order of the Eastern Star in Princeton. He was also a member of the Odd Fellows.

As a veteran of World War I, Zach Suiter was a member of the American Legion post in LeClaire. He was founder and the secretary-treasurer of the Community Building company of Princeton, and a past president of the Scott County Bankers' association.

Mr. Suiter took pride in the fact that his bank was one of the very few in this section of the country that did not close its doors during the depression years.

The most recent honor to come to the popular Princeton banker was his selection president of the new Scott county board of education early this year. Mr. Suiter always took keen interest in the progress of operation of rural schools.

Zach and Marie Suiter had two children; Lois Jean and Glen H. Suiter.

1948

WIFE OF SUITER NAMED DIRECTOR OF SAVINGS BANK

Mrs. Marie Suiter, widow of Zach G. Suiter, for many years president of the Farmer's Savings Bank at Princeton, was named a member of the bank's board of directors to succeed her husband, it was announced Friday.

Mr. Suiter, who also was president of the Scott county board of education, died December 4th.

Dr. Emil M. Stimac, Princeton, Ia., who has been practicing for the past year in the LeClaire and Princeton area, has been appointed head of the medical division at the Rock Island arsenal, succeeding Capt. Franklin Ruelback, who has retired from the army. Dr. Stimac's appointment was made by the civil service. He is a native of VIrginia, Minn., and a graduate of the medical department of the University of Minnesota. During the war he was a captain in the army Medical core.

WILL ROGERS NAMED COUNTY SUPERVISOR TO REPLACE SIERK

Will Rogers, 58 year-old Princeton Republican, was appointed to the Scott county board of supervisors Wednesday to fill the vacancy created by the ouster of Hugo C. Sierk.

The appointment was made at a special meeting of Clerk of Courts Elmer Jens, County Auditor William Voss and County Recorder Clarence Hagen. The trio of county officers, authorized to fill vacancies on the board by state law, considered the applications of, Warren G. Maxwell, R. R. No. 1, Davenport, who was defeated for the position in the primaries last June; Walter F. Meyer, Maysville, present board member, who was defeated for re-election in the November 2 election; and Charles Rothstein, R. R. No. 2, Davenport.

Rogers, whose appointment is effective immediately, was chosen on the second ballot by a two to one majority. The decision was made unanimous on the third ballot. On the first ballot, Rogers, Maxwell and Meyer each received one vote.
ELECTED LAST MONTH

Rogers appeared to be the logical choice to fill Sierk's unexpired term, which ends Jan. 2, 1950, because he was elected supervisor in the Nov. 2 election for the term beginning in 1950.

The new supervisor, who is a native of Scott county, has been a salesman for the Peterson Paper Co. for the last six months. He formerly was a clothing salesman for a Davenport firm.

In 1945, Rogers worked strenuously to make Scott county the seat of the United Nations. He offered the organization a strip of his own land in Princeton township.

Rogers has been active in the annual "State of Scott" celebrations and was rural chairman in 1947. He was formerly a justice of the peace in Princeton and is still a member of that community's Booster club.

ROGERS TO ATTEND UNITED NATIONS

April 1949

Scott County Supervisor Will Rogers will visit New York next week to attend sessions of the United Nations at Lake Success.

Rogers, who once headed a drive to bring the seat of the U.N. to Scott county, said the purpose of his trip is "to see the world organization in action." In 1945, Rogers offered to donate a 30 acres tract of land near Princeton to the U.N., but the former Secretary of State James Byrnes rejected the offer.

Highway 67 Danger And Disgrace

A dangerous road leads from a point two miles below LeClaire to Route 30 at the edge of Clinton. This route, No. 67, was paved to accommodate the Model T and it is a discredit to the Iowa Highway Commission that nothing has been done with it since except to patch holes.

The danger on this ancient concrete rises with the increase in traffic which has become heavy.

This increase, in part, is a reflection of the way in which this area has been and is being built up.

The road and bridges are narrow. There is no widening even on curves.

Just north of Princeton is a curve on a hill which is the scene of frequent accidents. Fatalities have occurred there.

This old road is the Mississippi River Scenic Highway Route but its

dangers and its rough spots keep anyone traveling it from enjoying any scenery.

A driver coming in from Illinois or another state and negotiating this road would conclude that Iowa was dead broke and had been for a long time.

Undoubtedly many a driver who otherwise would head for Davenport but is familiar with this highway stays away from it.

Here is opportunity for the Davenport Chamber of Commerce and Scott County authorities to go into action and press the Highway Commission to put in a first class highway.

Action is imperative in the interest of saving lives and facilitating traffic. Let the shoddy attention to this road be ended — and now.

"KEEPING UP WITH THE JONES'"

by Roberta McLaughlin

Looking through our LeClaire-Princeton Telephone Directory we find it isn't hard to keep up with the "Jones'" - we only have 5 of them. Now the "Smiths'" are another story - we boast 12 of them.

But they both have to take a back seat to the "Holsts'". They have an honor of having a grand total of 16 listed in our directory. The "Browns'", one of the most popular names in the nation, are not far behind with 12. And the "Hamiltons'" with 11.

We have a three way tie for the shortest names - "Day", "Lay", and "Ney". And they rhyme, too. Our longest name with 14 letters is "Christopherson" with "Schnittgrund" close behind with 12.

We have an "Ireland" and the "Mc's" in our book total 22.

We have story names for the young fry. "We have a "Little" "Apple" in a "Stout" Oakes" tree in the "West" "Meadows" behind the "Hill". A "Martin" and a "Golden" "Byrd" sing "Lively" and clearly as a "Bell". Underneath on the "Brown" "Rock" "Road" a "Biggs" "Lyons" bumps his "Shinn" on a "Stone".

Our phone book contains much useful information. It quotes the State law warning users to relinquish their connection when someone on a party line asks for it in an emergency. It also is illegal to state falsely that a party line is needed for an emergency.

In closing we'll say although we may not have the "kitchen sink", we do have the "Kitchen".

Princeton Boosters Dedicate Grave Marker Honoring Town's
First White Child, No. 1 Citizen

By Jim Colby

Down thru the years many of the pioneer residents of eastern Iowa have passed away, and have been all but forgotten by succeeding generations. Even the final resting places of some of the men and women who helped write the history of this section of the state are unknown. But such will not be the case of Dr. John Knox, the first white child born in the town of Princeton, and one of the community's most outstanding citizens, for the Princeton Booster club has erected a marker over his grave in the cemetery there.

Dr. Knox was a great booster for the town of Princeton, and many civic improvements to the community were made thru his efforts and financial aid which he provided. At one time he was considered to be "well-off" financially, but due to unwise investments he lost most of it.

JUST A CLACK'N
(1949)

by Mrs. Harry Kleeburg

Fire Chief Herbert Pietscher was made aware of a condition which might have led to serious proportions at last Saturday's movie in Community Hall, when the fire siren summoned the firemen to the P.A. Remier fire - the sudden exit of the firemen present caused many people to mention the word "Fire". Those who hadn't heard the siren were suddenly aware of the word "Fire". - They became alarmed and thought it meant the Community Hall was on fire. A few started to leave their seats - the timely announcement by someone in the rear of the hall that the fire was at the Remier home restored calmness and everyone relaxed.

Chief Pietscher states that more lives are lost in fires by people becoming panicky and being crushed than by being burnt - he wishes to inform the public that a fireman is always in attendance at the Saturday movies. He also has instructed the operator of the movie that hereafter when the siren rings he is to make an announcement stating the location of the fire and also to make it possible for the firemen present to leave without difficulty. The Community Hall has three fire exits - enough to clear the hall quickly if people remain calm.

With Christmas now upon us a few things to make it safe are: Never leave Christmas tree lights or lighted wreaths burning, if you are away from home. Check your tree lights so there is no danger from shorts or exposed wires. A tree that has become too dry is a fire hazard. Setting a tree in a pail of water helps eliminate the hazard of its drying out to the danger point. Some other hazards that give firemen headaches during the Christmas holidays are: candles, combustible materials festooned overhead for decorations, extra loads on electrical circuits, toys that produce heat either electrically or chemically, open fireplaces, and discarded paper, and taxing heating plants to full capacity.

HARRY E. BROWN

(1882-1949)

Mr. Harry E. Brown a life resident of Scott county, he was born in Princeton township March 4, 1882, son of James R. and Rachel Brown, and received his education in the Princeton schools. He resided in and around Princeton most of his life, and was a member of the United Presbyterian church of Argo. He married Mae Fletcher in Princeton, Dec. 22, 1904. If there is some sort of an award for a community which sets the right kind of an example in religious tolerance it should go to Princeton, Iowa.

I'm basing my argument on an incident which was called to my attention this week.

It involves the death of a very popular resident of the community, James Hirl. Announcement was made that a funeral mass would be celebrated in the Catholic Church. It so happens that the church there is rather small and could accomodate only a small fraction of the host of friends who wished to attend the services.

So a group of Protestants approached the family with an offer of assistance. They said they would like to install a public address system in the Catholic Church with the speakers in the Lutheran Church across the street.

In this way there would be adequate room for those who wished to pay their last respects.

Naturally, the family was touched by this breaking down of religious barriers and gave its most wholehearted approval.

That is why one morning this week a Catholic service was heard in a Lutheran Church!

I think we can all draw some lessons from this incident.

It should emphasize the importance of religious tolerance by all of us. The nations of those who believe in God are currently pitted against a mighty power which believes the state is all-powerful; that worship of the Almighty is a sign of weakness.

We need all our strength if we are to emerge victorious in this struggle.

We must not weaken ourselves with petty bickerings between religious denominations.

It seems to me we should be able to agree on a certain fundamental faith without conflicting with our right to worship as we see fit and in the church of our particular choice.

Can anyone deny that Princeton as a whole has benefitted through the display of unity after the death of James Hirl.

A squabble between churches must bring great delight to the hearts of those characters who sit in the Kremlin.

More incidents like those in Princeton will slowly but surely undermine the foundation of their Godless nation.

Priceless Tolerance

★ ★ ★ ★ ★
If there is some sort of an award for a community which sets the right kind of an example in religious tolerance it should go to Princeton, Iowa.

I'm basing my argument on an incident which was called to my attention this week.

It involves the death of a very popular resident of the community, James Hirl. Announcement was made that a funeral mass would be celebrated in the Catholic church. It so happens that the church there is rather small and could accomodate only a small fraction of the host of friends who wished to attend the services.

So a group of Protestants approached the family with an offer of assistance. They said they would like to install a public address system in the Catholic church with the speakers in the Lutheran church across the street.

In this way there would be adequate room for those who wished to pay their last respects.

Godless nation.

Naturally, the family was touched by this breaking down of religious barriers and gave its most whole-hearted approval.

That is why one morning this week a Catholic service was heard in a Lutheran church!

—cas—
I think we all can draw some lessons from this incident.

It should emphasize the importance of religious tolerance by all of us. The nations of those who believe in God are currently pitted against a mighty power which believes the state is all-powerful; that worship of the Almighty is a sign of weakness.

We need all our strength if we are to emerge victorious in this struggle.

—cas—
We must not weaken ourselves with petty bickerings between religious denominations.

It seems to me we should be able to agree on a certain fundamental faith without conflicting with our right to worship as we see fit and in the church of our particular choice.

Can anyone deny that Princeton as a whole has benefited through the display of unity after the death of James Hirl.

Postmaster

Princeton, Ires

James Michael Hirl, 57, a well-known life resident of Scott County, who owned and operated the Standard Service station in Princeton the last 22 years, and who was postmaster there the last 12 years, died at 9 a.m. today in Mercy hospital. Death was attributed to a stroke which he suffered last Sunday.

A native of Eldridge, Mr. Hirl was born Jan. 28, 1896, the son of James and Margaret Hirl, early residents of Scott county. He married Amelia Adair in Long Grove, Sept. 10, 1919.

Active in civic and fraternal organizations of Princeton for many years, Mr. Hirl was affiliated with the Buffalo Bill American Legion Post of LeClaire. He was a member of St. James Catholic church of Princeton, and was a veteran of World War I.

Hirl Rites In Two Churches

Two churches, one Catholic and one Lutheran, were pressed into use Thursday during the funeral service for James Michael Hirl, 57, Princeton postmaster, who died Tuesday in Mercy hospital of a stroke which he suffered Sunday.

An overflow crowd of more than 500 persons attended the

services and when the St. James Catholic church in Princeton was unable to house those wishing to hear the ceremony the board of trustees of Zion Lutheran church, across the street from St. James, offered the use of their sanctuary.

Both churches were filled to capacity and many persons were standing in the vestibules during

the service. A public address system, provided by the McGlinis Funeral home, carried the rites from the Catholic church into the Lutheran church.

Persons of all denominations joined in the unique service to honor the memory of Hirl who was a well-known life-time resident of Scott county.

ROCKS MARK HALLOWED GROUND—A small pile of rocks marks the resting place of three white men, killed by Indians in the early days of the United States, on the farm operated by Foster Auliff in Princeton township. Pictured above Foster and his three-year-old daughter, Carole Sue, are looking at the memorial to the three men. A provision in the deed to the farm prevents the burial place from being disturbed.

Clause in Old Deed Protects Graves of Three Unknown Army Scouts Buried Near Princeton

By JIM COLBY.

A small pile of rocks, located on a lonely hillside on the Foster Auliff farm in Princeton township, marks the final resting place of three white men who served as army scouts in the early days of the United States. The three men, according to legends handed down by early settlers of Scott county, were killed by Indians.

Altho their names are not known, and only a sketchy account of the death of the three men has been handed down thru the years, their resting place will continue to remain because of a restriction placed in the original government land grant, and which still remains in the deed to the farm, according to Foster Auliff, present operator of the farm.

He says that there is a clause in the original deed which prevents the owners of the land from farming the area occupied by the rock pile and the graves of the three men, or otherwise disturbing the place.

The story has been carried down thru the years by the various occupants of the farm, and is still recalled by Mrs. Elmer Evans, of Princeton, whose father, Isaiah Bruner, owned the farm about 1872, and who later owned the farm herself. Foster Auliff took over the operation of the farm after the death of his father, Edgar Auliff, who had purchased the place in 1941. The farm consists of 160 acres located about three miles southwest of Princeton.

"As far as I am concerned," Foster Auliff said in referring to the clause in the deed, "I will never molest the spot. It consists of only a small area, and the only work connected with it is an occasional mowing of the weeds."

Princeton—The Princeton fire department was called to the Cecil Striecher farm about three miles north of Princeton at 6 p. m. Sunday to fight a barn fire in zero weather. The barn, 60 x 75 feet, was completely destroyed.

It was reported that the building contained 500 bales of hay, 700 bushels of oats, some sows and pigs, a pet riding horse and cattle. Only the cattle were saved.

The fire was discovered by a nephew who saw smoke pouring from the roof. The fire department saved other buildings surrounding the barn.

The \$15,000 estimated damage is partially covered by insurance.

Princeton Treasure Hunt Successful

GREEN TREE
GAINS RECOGNITION

With the poem, *Hikety, Pickety My Black Hen*, lays fine eggs for gentlemen, lads and lassies get your fate, on ———'s Chicken yard sake. Even though Roxey Ernberger was a member of the treasure hunting group last Wednesday night he just couldn't figure out that the blanks spelled Roxey. He thought of Parr, Long and even guided the group to McKnight's thinking it possibly meant John. He was proved for sure that black hen was the alfie next year, to cause so much trouble.

Fifty-four members and visitors of the Presbyterian church choir enjoyed a costume party, treasurer hunt and a party, a Virginia Reel in Elliott's hall followed by refreshments. Music was furnished by Charlie Gilbert.

The costumes were very striking. There was Melvin Dadds as the flirtatious dame, LaVerne Gilbert, the gallant Cavalier with his guitar. There was a pirate, big game hunter, Aunt Fannie, a devil, Yegman, Mother Hubbard, Artist, Dick Ranger, Farmerettes, bums and Senoritas. The fine costumes and large crowd showed the interest the group has in their organization. The affair was planned by Mrs. Allen Elliott, leader, and Mrs. Dick Holst, pianist, who have worked faithfully with the choir for nearly five years. Mr. and Mrs. Ed Ernberger assisted at the party.

The group meets each Thursday night in the church during the summer and have met in the Elliott home during the cold weather months. Every Sunday morning there are always between twenty and thirty in the choir for church service at which time they have a special number.

A skating party December 1 will be the next social affair of the group.

Everyone went home tired from the party last week after walking blocks and blocks carrying back the hidden treasures (when unwrapped, were bricks), but all reported a wonderful time and thanks to those responsible.

P.T.A. Program In LeClaire, Huge Success

A large crowd of adults and children of LeClaire and surrounding territory were entertained by a wonderful cast of local talent sponsored by the PTA Friday evening, October 27th.

The opening act was introduced which featured our own Accordion band. This was followed by a tap dance featuring the Havill sisters. The Westerners consisting of three boys played and sang hill billy songs accompanied by a guitar. Priscilla Buck, a tiny Miss, played the accordion and sang. The Havill sisters were introduced again, this time with their fine and talented acrobatic number. Darleen, LeClaire's screwball comedian, kept the audience in stitches with her own arrangement of "I Didn't Know The Gun Was Loaded." The girls trio gave a fine performance of popular songs.

The added attraction came next with Mr. Schnoor and his fine art of magic tricks which kept adults as well as children spell bound. Following was another fine number by the Havill sisters. A enormous applause followed when "Chapple" Morgan thrilled the audience with his dancing doll. Again the star performer, Mr. Schnoor was brought back and delighted the audience with his ventriloquist act. The three Moore boys sang hill billy songs. A wonderful exhibition of square dancing was given.

The grand finale consisted of a body of girl students singing, "Shine on Harvest Moon" which was joined in by the audience. An unestimated sum was realized. The correct amount will be given after the next meeting of the PTA. With many merchants and people cooperating it went

LE CLAIRE CHURCH CONDUCTS EVERY MEMBER CANVASS

The Le Claire Presbyterian church will be conducting its every member canvass the week of November 5 to 12. The canvass gets underway Sunday afternoon, November 5.

Irene Anders, Mardi Gras Queen

The Hallowe'en Mardi Gras is over and all the LeClaire students must get back to their lessons. But we think they are well satisfied. Everyone was there, did you see them? The parade was really something to watch. There were so many floats and funny groups that I think that it was certainly hard for the judges to choose the best ones.

LeClaire's float did not win a prize, but all the LeClaire students fully supported the Snow White and Seven Dwarfs' theme. We think they are satisfied though, why shouldn't they be? Their Queen candidate was picked as the Mardi Gras Queen. Also who should do the drawing for the attendants than Marsha Bragonier. Irene received \$25 and the LeClaire school \$50.

Marsha was dressed like a bunny and like all the rest of the kids enjoyed a fine program that was brought to the students by the merchants and friends of Davenport and surrounding communities. There was just every kind of entertainment that was unusual and I had not seen anything exactly like it before.

After the show, high school young people attended the big dance held at the Coliseum. It was full of young people from all over the country. I know every one of them enjoyed every minute of it, at least from where I was looking on they did. The band was good and so were the singers that went with it.

We should pay tribute to Sheriff Beuse, his friends, and his deputies for taking the time to give the children this wonderful evening so

Ed Note: This is the first of a series of articles about the people of LeClaire and surrounding territory. Raejean White wrote us some weeks ago telling us what she thought would be a good feature story for us to run every week in the LeClaire — Princeton Weekly. This is it. In fact we thought it was so good we asked Raejean if she would consider doing a similar article for this paper every week. The title is Raejean's as are the words and we hope you enjoy reading about your neighbor's as much as we enjoy bringing them to you.

In the picture accompanying this story is Vernon Norman Arvet, 9 year old son of Mr. and Mrs. Vernon Arvet. We would like you all to know the Arvet family, they live in the George Andrews home on Cody Road. Vernon "Buddy" is the little boy that had the misfortune to be born with club feet, and hands. He was born June 10, 1941 in California. Buddy was two years old when he learned to walk and even then his little feet were turned so that he had to walk on the sides of his feet. Buddy was taken to several doctors in California from time to time, having casts put on his legs, surgery was performed at one time to see if that would help but it didn't seem to.

A few weeks ago Buddy's parents took him to Rock Island and the Rev. Jagger, who is known as the great healer prayed for him and through an act of God, Buddy no longer needs his braces.

Buddy has one brother, Leon. Leon was also born in California. The family left California moving to Vine Grove, Kentucky, where the boys attended school. They moved to LeClaire last fall.

Mass Meeting Princeton Town Hall Thursday

— O —

JUNE 19th — 8 P.M.

All persons residing in Princeton and LeClaire, who are interested in helping Princeton obtain necessary railroad crossing protection, are urged to attend a huge mass meeting called by the Princeton Town Council Thursday nite, June 19 at 8 p.m.

Mr. Earl Smith, of Des Moines, attorney for Princeton urges the necessity for this meeting. Plans are to be made for the court battle at the Scout County Court house the following day, Friday, June 20, at 10:30 a.m. Mr. Smith states that Princeton must have a large representation at this hearing. Transportation is to be furnished by all Princeton organizations for those wishing to go.

In order to present Princetons worthy case against the railroad it is necessary for all residents who can go to attend. This issue pertains to LeClaire as well as Princeton as many LeClaire residents have been jeopardized by crossing Princetons unprotected railroad crossings.

At the mass meeting information obtained from persons who were lucky to escape death in near tradgedies will be collected. Your life and that of some one dear to you — might be the issue if you fail to help gain this protection for Princeton.

Rubbish Fire Sunday Nite

PRINCETON — A fire in a rubbish fill on the bank of the river, south of Lund's warehouse, was extinguished by the Princeton fire department about 7:45 Sunday evening.

One truck under the direction of Allen Elliott, assistant fire chief, answered the alarm. The water supply on the truck was adequate to put out the blaze and dampen surrounding rubbish. It was not determined how the fire started.

Burglars Rob Princeton Store in Early-Morning 'Inside' Break-in

Princeton — (Special) — Burglars who ransacked the H. E. Lund Implement company store here early Sunday stole \$2,000 in cash and checks and \$1,000 more in merchandise.

Company officials termed the robbery "an inside job," claiming that the men who ransacked the building not only "knew what they were doing" but also "knew their way around the building."

The building, well stocked with general merchandise in addition to extensive vehicle-repair facilities, was entered early Sunday morning by thieves who spent at least an hour prowling through the store, opening two cash registers and using acetylene torches found in the building to burn a hole in the front of the office safe.

Entry was made through punching a hole in two panes of glass in a window at the rear. That left an opening of about eight by 18 inches for one of the burglars to squeeze through and open a garage entrance. Davenport law enforcement officials, who took fingerprint samples from the entered window and the cash registers, observed that heavily-imbedded car tracks near the store indicated a lot of heavy merchandise was removed.

The owner, H. E. Lund, pointed out that the burglary must have been performed by "knowing" individuals because all of the equipment used in opening the safe was found inside the store—including the torches, which had to be removed from their cart and placed on a narrower one so that they could fit through the office doorway.

Besides the \$2,000 taken from the safe, small change was removed from the cash registers. Also taken: a small radio, an electric fan, a 12-gauge shotgun, a .22 pistol, several wrist watches, razors, a man's jacket and an undetermined additional amount of merchandise.

Among the items ignored by the burglars: two floor-model television sets, car radios and 1,001 other items usually found in a general merchandise store.

Lund pointed out that an unsuccessful attempt was made about six months ago to enter the store through another back window. He said the contents were partially insured.

Neighbors told law-enforcement officials they heard two cars pull up to the building shortly after midnight, but instead of suspecting a burglary they thought an employee was repairing a vehicle in the early hours, as is sometimes done here.

Lund, who closed up Saturday night at 11 p. m., discovered the break-in when he reopened the store at 8:15 a. m. Sunday. He lamented the fact that, contrary to his usual habit, he hadn't taken the checks home with him Saturday night. He estimated that, of the \$2,000 taken, about half of that amount was in checks.

H. E. Lund, owner of Princeton's Lund Implement company, is shown here indicating to law enforcement officials the torch-cut hole in the office safe through which burglars pulled about \$2,000 in cash and checks early Sunday.

BEUSE'S RESTAURANT: HOME OF GOOD FOOD

IN THE BEGINNING:

Sunday, February 28th, 1948, a bright and beautiful 50' day, we drove to Princeton, Iowa, taking with us clothing and other special items. Tomorrow, we will move to Princeton to be part owners of a riverview tavern.

Monday, March 1, at 5:30 a.m. it was snowing hard, movers were to arrive at 7:00, it was a wet snow and amounting to several inches. George and I arrived in Princeton about 1:00, the movers not till 3:00, they had problems on Country Club Hill, almost leaving the road. The whole week was very cold, down below zero.

Our menu for the restaurant was mostly soup, chili and sandwiches at first. Then the fare was increased to noon lunches, pie and etc. Our customers were mostly local business men from Princeton and LeClaire and traveling salesmen.. In the fall and winter we had euchre games, free coon suppers, deer and elk, it was a treat for those who liked wild game.

In spring of 1953, we gained full ownership of the business and started Beuse's Restaurant, featuring catfish, chicken, steaks, and other meats. Most of our soups were made from scratch and some of our salad dressings were homemade. A speciality dressing was Beuse's Supreme, which many people liked. We also offered a variety of crackers and the relish trays were shaped like a boat and had 6 compartments. Tables were covered with green table clothes and green napkins were used.

We were able to take care of large groups, the Scott County Bankers came for our catfish dinners, boaters were always in and out, too. At one time a large group of people from the Chicago area would rent houseboats in Clinton on Friday and spend the week-end on the river, they would make reservations for dinner. This group was enjoyed by all, they were very nice people. After their dinner they would gather down at the Boat Club and sing folk songs, some they made up themselves. Many of these folks were very good musicians using a broom, wash-tub and other make shift items.

Our help was from the local area, many were teens who were bus persons or kitchen help. Our bartenders were Dave McLaughlin, Don Schmidt and Ernie Pruitt. Cooks were Anne Beuse Schmidt, Margaret Pruitt, Mary Lay and Ray Chelar.

Catfish was purchased in the fall, enough for the winter and spring season. It would be tub after tub full, that would need to each be scrubbed and packed in boxes and quick frozen. Irvin Faur was our main supplier and the fish was stored at Kröeger's Locker until we got our own freezing area after the Boat Club on the lower level was formed.

Our customers came from many areas then and many people after moving away would drop in to be with us for dinner and a visit. January 1, 1963 the business was sold to Paul and Dorothy Kernan, they were permitted to use our trade name.

Al Grosz To Wrestle Pro

On January 12 the Princeton Community Hall will be booming with activity, with three Wrestling bouts taking place between the ropes. Al Grosz, our local matman will wrestle, Ruffhouse Kelley, best in the midwest.

The fairer sex will also take part

claims she learned scuffling the hard way, so modern day girls wrestling just comes "naturally" to her. Romona, called the Blond Bomber, is more than a match for the best in the game if she is allowed to get by with rough tactics. The Blond Bomber is barred from wrestling in three states because of her unorthodox manner.

The other match between Donna De Laun, World's champion Lady Wrestler and Christine Ray, former Worlds lightweight champion.

Donna De Laun, from Kansas City, Mo., is the present tile holder and has held the title and defended it against all competition for the past two years. There have been others claiming the title but De Laun is recognized by the Independent Girl Wrestlers as their champion. Her favorite hold is the flying scissors. Donna was featured in last month's issue of the European Wrestling News. She also excels in other sport. She was a former star basketball player on the All-American Redheads. Christine, the former lightweigh champion, a pretty southern belle, classified as the greatest crowd pleaser in Women's wrestling. It is known that few male mat stars employ as many wrestling holds as does Christine.

We are all familiar with Al Grosz and his fighting tactics. He has been entered in many wrestling matches in and around Le Claire and Princeton and has, to the knowledge of this reporter, never lost a match. We are proud of his ability in this game and are sure his fans will all want to be there to see Al add another name to his already long list of victories.

FROM THE MAYOR

At this time I wish to commend the youngsters good behavior during the Halloween Season. While a few pranks were evident within the corporate limits of our town they were of a nature of fun and not outright vandalism. Marshall Brown's office was not completely equipped but he intended to make a trip to the nearest corn-shelling bee to obtain the necessary equipment.

Several street lights have been the target of B*B gun enthusiasts lately and I issue the warning that the Marshall and several others are watching for those responsible and we have a good idea as to who it is. Parents are requested to remind their small-fry of the fact that the Light Company intends to prosecute to the fullest extent of the law.

Our teen-age drivers are rapidly becoming an example for some of our adult 'Barney Oldfields'. Congratulations fellows! Speed limits and stop signs are for the protection of one and all and closer attention to these matters is mandatory. Several have been warned and it is hoped that we need not prosecute anyone, but are prepared and intend to do so if necessary.

Thanking you for your cooperation and hoping to see one and all at the fireman's Dance this Friday night. Your purchase of a couple of tickets is a way of saying thanks to the volunteers who make it possible for you to have such excellent fire protection. Buy the tickets whether you can attend or not.

Sincerely,
Mayor Ken Purington

Visiting around Iowa

by Joe Marsh

Iowa's Big Floods

Those terrible floods that hit Eastern and Western Iowa this spring did more than set new high water marks.

They proved what grand neighbors Iowa people are.

Thousands of people took flood victims into their homes, helped them through their time of trouble, assisted them in getting started again.

That's real Iowa neighborliness for you — neighborliness that believes in treating the other fellow as we'd like to be treated ourselves. Folks didn't ask families which lodge they belonged to, or which party they voted for, when they moved them out of the flood.

No more than I bother whether neighbor Joe next door wears a double-breasted or single-breasted suit . . . or whether he likes coffee, sassafras tea, or a temperate glass of beer.

Iowa neighborliness, tolerance, friendliness is truly more than skin deep. It is based on mutual respect, on belief in the other man's rights and way of life equally with our own.

Yes, when neighborliness and tolerance step in, selfishness and intolerance step out.

Railroad Starts Resurfacing Project

Maintenance crews of the Davenport, Rock Island and North Western Railway are shown resurfacing the line's main track

just north of the depot in Princeton. The 50-man gang will work five miles of track in six weeks, weather permitting.

DRI&NW Improves Track

PRINCETON - Maintenance crews of the Davenport, Rock Island and North Western Railway from Camanche Bettendorf and Davenport have started resurfacing the line's main track through Princeton.

Starting at the south end of town, the work program calls for nearly five miles of track to be resurfaced, ending south of the Wapsi River.

The 50-man gang is made-up of the railroad's regular maintenance employees.

Prior to the actual track work the railroad has had a private contractor cleaning drainage ditches and widening the roadbed shoulders. A huge amount of dirt and rock was removed from the Rock Cut, just north of town. A railroad official reports that there are no immediate plans to widen the Cut.

A work train, handling the ballast spreader, was operated for several days to remove the old ballast from the ends of the ties.

Resurfacing the roadbed involves removing ties, which are no longer suitable for continued service and replacing them with new hardwood, treated ties. The track is also raised and filled with new crushed rock ballast.

The procedure is not as easy as these brief words might indicate, even though a lot of the manual labor has been eliminated by special machines.

A power jack is used to lift the track intact. Designated ties are removed and replaced and several ties are hand tamped to hold the track in the raised position. Following the jack is a power tamper. This machine mechanically packs the new ballast under each tie to provide a solid bed. As the tamper moves forward men follow-up to spike the new ties and level the fresh rock.

It is estimated that the work will require about six weeks. A work train will be operated each day to dump and spread the new rock. When the job is nearly completed the track plow will be brought out again to finish smoothing the roadbed shoulders and ditches.

While the Dri Line does not operate trains of its own, except work trains and switch engines, the line is a busy single-track railroad. Trains of the Milwaukee Road and Burlington Route, joint owners of the DRI&NW, are handled over the line.

During an average day at least fifteen trains will be operated over the road. Four of the trains are passengers.

Car Skids Into Ditch In Rain

PRINCETON - Charles Hamilton fortunately escaped serious injuries Tuesday while enroute to Bettendorf High School, for the first day of classes. His car slipped off the highway onto the slippery shoulder, in the rain storm. The car rolled over, but "Skip" was not injured.

PRESBYTERIAN CONGREGATION STARTED BUILDING MANSE

PRINCETON - Members of the Princeton Presbyterian Congregation are at work on the project of erecting a new manse for a resident pastor. That has been the aim of the group for many years.

Last Friday, Lawrence Carter, donated his time and machinery to excavate the basement. This week, weather permitting, the basement blocks will be laid and construction will get under-way.

Mrs. Ray Holst, Mr. Eugene Dannatt and Mr. Russell Enyeart were appointed as building committee. The construction contract was awarded to Andy Thompson, after the bids were considered.

In addition to the manse, remodeling work is to be done in the Church basement. This will include a new heating system, new plumbing and additional space for Sunday school classes.

His first service school was at Lackland Air Base in Texas. Later he was stationed at Harlingen, Texas, and was graduated from Harlingen Air Base with the distinction of being the second cadet to be graduated from that school, ever to have placed first academically and militarily in a class.

PRO and CON

Why a weekly newspaper? — Every community needs a means of exchanging public information. One of the best methods devised is the traditional weekly paper.

Through a newspaper, like a big, neighborly letter, you'll learn what has happened or is about to occur in the area. Civic, Church and School activities are better publicized, which results in greater participation. We'll all share in the personal joys and sorrows, too, that may come our way.

The columns of THE WEEKLY NEWS are open to all individuals, groups and organizations. You can help us greatly by contributing news, items. The names of area correspondents are printed elsewhere in this issue. We solicit your cooperation, which will enable us to publish an informative newspaper.

A handy subscription order blank is printed in this issue for your convenience. The amount is small and the benefits are large. Help us reach our circulation objectives quickly by mailing your order today!

Milestones

On March 1st, 1946, there were 255 telephones in Princeton and LeClaire, combined.

A great many of the phones were on grounded lines. Many lines were in such poor condition that even a sprinkle of rain would put them out of order, until they dried off again. In bad storms there might have been over 100 telephones out of order.

Little by little, with a lot of work and much material, we have had ALL lines metallic (2-wire) for several years.

Our percentage of outages is very, very small, being almost entirely caused by lightning or wind. Needless to say, we are rather proud of our accomplishments in the past few years.

We now have over 510 telephones of which over 300 are modern dial instruments.

In the two exchanges our subscribers average close to 2000 local calls every 24 hours, or about 53,000 per month. It is also interesting to mention that we completed over 4,630 long-distance calls in the past thirty days. Of course our subscribers received a similar number of calls when other people called them by long-distance. We have no record of these calls.

Our customers have been very, very cooperative while we struggle to give more and better service to more and more people in need of it.

I will repeat here, an often used phrase, that if you can't hear well or be heard good, please report it. Tell us any detail which might give an indication of the source of your trouble. Please remember, we must know of the trouble before we can correct it.

In the interest of cooperation, Russell J. Enyeart, owner of LeClaire and Princeton Telephone Exchanges, Telephone Number Princeton 21.

COFFEE

by

Leona Farley

Hello — Come on in —
Coffee on. Let's relax a few minutes and get to be friends.
— I hope to be visiting with you each week - I'll like that -
Hope you will too —

You know most people have their own idea about success. I like the one I heard from an ol' timer: -

To be successful is to have the ability to rise one more time than you fall.

FARMER TO BOY: - "Hey, what are you doing in my apple tree?"

BOY: - "Getting my kite down."

FARMER: - "But it has been up there a month, why didn't you get it down before?"

BOY: - "Apples weren't ripe before."

FOR THE TEEN-AGERS: -
Say, did you hear what the Be-Bop Man had inscribed on his tombstone: -

DON'T DIG ME MAN
I'M REAL GONE

FOR MOM

I was wondering how many of you would agree with this bit of information an old colored woman told a new bride, about housework: -

"Housework's one thing there's no catchin' up with; you go to bed at night, everything is done - but while you're sleepin' sheets are wrinkl'n, dust is settlin', and stomachs are gettin' empty."

A new cub reporter was sent to write up a fashionable charity ball. Next day the editor was checking his copy and noted he had written: - Among the beautiful girls was Horatio Lucien Dingley.

The editor called the reporter to his desk and demanded, "What do you mean writing this? Old Dingley isn't a girl - he is one of our principal stockholders."

"I can't help that," replied the reporter, "that is where he was — and having fun," added the reporter, with a wink.

Quotable Daffynitions —

A caterpillar is an upholstered worm - Rev. R. E. Otten.

Well, the Labor Day week end is over and the children are back in school - The house seems kind of quiet, doesn't it? - And I must be running along for this week. I'll leave you with this — thought for the week: —

Wealth is the smallest thing on earth, the least gift that God bestowed on mankind.

— Luther

TIME

COOK of the WEEK

GEORGIA HAESSLER

Neighbors are mighty nice to have — One can usually count on them for help and I needed just that in order to produce a cook for this, our first edition.

I happen to know from firsthand taste experience, as well as my two sons, John and Michael, that our neighbor would fit the bill. Also attesting to the fact that Mrs. Haessler is an excellent cook are her daughter, Susan, and husband, Harold.

Each week we are going to chose one of you ladies for special honor in the Cook of the Week column. The name will be selected from our subscription files. Who knows, we may pull your name from the file and make YOU — Cook of the Week.

The following are two of Georgia's favorite recipes: -

Fresh Orange Layer Cake
2 1/4 C. sifted cake flour
1 1/2 C. sugar
2 t. baking powder
1/4 t. soda
1 t. salt
1/2 C. veg. shortening
1 C. liquid (1/4 C. unstrained orange juice and 3/4 C. milk or water.)
2 eggs
2 T. grated orange rind
Have all ingredients at room temperature. Pre-heat oven to 350 degrees F. Grease and dust with flour two round 8" cake pans.

Sift together cake flour, sugar, baking powder, soda and salt. Add shortening, grated rind and two thirds C. liquid. Mix two minutes with electric beater. Scrape sides and bottom of bowl frequently. Add remaining one third C. liquid, unbeaten eggs and continue beating 2 more minutes. Scrape bowl frequently. Pour into pans. Bake 30 mins.

Barbecue Hamburger
(6 med. sized)

1/2 lb. gr. beef
1/2 t. salt
dash pepper
1/2 C. soft bread crumbs
1/4 C. milk
Mix all ingredients well together. Form into patties and brown on both sides.

Combine: -
1 T. sugar
2 T. Worcestershire
1 T. vinegar
1/2 C. ketchup
Pour over browned patties, cover, cook slowly for 30 minutes in 350 degree oven.

Household Hints

Lightly butter the wax paper before putting over the top of frosted cupcakes when wrapping for school lunches. This prevents the frosting from sticking to the paper.

Keep a small jar containing a thick paste of soda and vaseline in the medicine chest for quick relief from burns and bee stings.

If any of you have helpful household hints which you would like to pass along to other readers, I would appreciate your sending them to me. Leona Farley, Rte 1, LeClaire.

This power jack lifts a segment of railroad intact as men shovel-tamp two or three ties to hold the track at new level for the mechanical tamper.

In less than one minute this power tamper will pack rock under a railroad tie.

Great Lakes Company Now Has Two Lines

PRINCETON — Pentzien, Inc. of Omaha, Nebraska, contractor for Great Lakes Pipe Line Company, has nearly completed laying some 4,000 feet of pipe across the Mississippi River.

The project started in early August, after the over-land line was completed between Princeton and Iowa City. Connecting with the land line, which passes near the north limits of town, the river conductor extends to Cordova where it junctions with Great Lakes' line into Illinois.

The initial phase of the work involved hydraulic dredging, whereby silt and mud was pumped from the river bed, to a prescribed depth, to form a trench for the submerged pipe.

To form the continuous line across the river, the lengths of pipe were welded and the stove-pipe method of laying was used. First, the pipe was welded, end to end, in pairs. The segments were loaded on floats and as the actual laying progressed the lengths were welded to the main line, on a specially rigged work-barge. As each paired length was added the barge moved toward mid-stream and the opposite river bank.

As the barge moved across the river the welded pipe was lowered on a special ramp into the previously dredged trench.

River traffic was not affected by the work, except for a narrower passage channel and one-way traffic, so to say.

On Saturday the tie-in with the land line on the Illinois side was completed. Operations were then shifted to the Iowa side, at Princeton, and the tie-in was finished on Monday.

All that remains to be done is the covering of the pipe. This is done with the same dredging equipment, but now material is being pumped into the trench.

THINK IT OVER

(Editorial)

By J. C. M.

Eighteen killed in two days

Iowa marked up its worst auto death toll for a two-day period, during the past weekend. This is not a record about which to boast.

Surely there are reasons why this high toll in auto-deaths continue to mount, week after week. I'll leave the research to traffic specialist, but in the meantime, while waiting for the long-sought answer, there is something we can all do for the sake of Safety.

Highway 67 is now carrying additional traffic. Many of the detoured vehicles are driven by strangers in this area. Locally, we are familiar with the bad curves and rough spots between the Big Hill and Riverdale. However, many now using the road are not aware of the dangers in this particular stretch of road. I do not intend to imply that only strangers might cause an accident, but it stands to reason it may be too late before they learn that it is a dangerous piece of road. So — Drive Carefully!

Juggling the clock —

The City Council of McCausland has returned the clock to normal — Central Standard Time. Eldridge took similar action, along with numerous other small towns, prior to the start of the school year.

Personally, my routine would be very much the same regardless of "fast" or "slow" time, but I do think it unwise for a small geographical area to adopt Daylight Savings Time and the resulting confusion.

Next Spring, the question will arise again. This area has no choice but to follow the lead of the Cities. Unless by then, there is an official decision by the voters. If the question were to be put on the ballot, I doubt if we would have fast-time.

Right now, I would be more interested in someone adding a couple extra hours to each day, either daylight or darkness.

COFFEE

TIME

by
Leona Farley

Hello! Come in — glad you could make it again — Your cup of coffee is waiting as I've been looking forward to our visit since meeting you last week.

Let's take a look at fashions: All of us, I believe are interested in clothes and fashion trends — not only for ourselves but for the man in our life. So, before we look at what's new for milady, I'd like to ask what you think of this new trend for men — wearing shorts for street and sports-wear?

This question is prompted by last week's Truth or Consequence TV show. For those who missed it, the show sent one of its contestants, as a super salesman, out to Muscatine to sell 100 pair of Bermuda shorts for men.

Would you buy a pair for your husband? Perhaps a better question might be — would your husband wear them if you did buy a pair?

Query the men in your family, ladies, and let's hear from you as to their reactions. I'd also like to know your opinion on the subject. I'll tabulate your answers, pro and con, and let you know the results as soon as possible.

Now let's take a look at what the new fall fashions have in store for you —

There is a Frenchman by the name of Dior who is trying to bringback a style reminiscent of the late 20's — the 'H' look he calls it. This really means you look like a sack of potatoes with a sash tied slightly below the waistline.

Tweeds and Scottish plaids are the big news in fabric for coats, suits and dresses.

Jumpers and weskits seem to be playing an important role in the wardrobe, too. They can be found in Corduroy, wool and orlon, foille, rayon flannel and black velvet for glamor evenings. Also, on the glamor side, full billowy skirts and can-can petticoats are popular.

Fur is always popular and is becoming much more versatile.

For instance, there is one fox fur piece that is pretty as an off-the-shoulder sling or wrap. It can also be curled for a muff and can be fitted under the arms, snapped and worn for a bolero for evening wear. Say, I thought of another, how about fitting it around one's head for a turban?

With the children in school learning their three r's, mothers are still at home faced with their three D's: diet, diapers and don'ts.

I was just thinking that by the time a mother can afford all the equipment she needs to "save her steps," they are all grown and there is no reason for saving them.

"I had a bad dream last nite," said wife to hubby.
"What was it?" asked hubby.
"I dreamed that you and Clark Gable were fighting over me and you won," replied wife.

THOUGHT FOR THE WEEK:

Adopt the pace of nature:
her secret is patience. — Emerson.

COOK of the WEEK

WILMA HOLST

"Too many cooks spoil the broth" — no, ma'm — not in this family. Besides Wilma, who acts as Chief Chef, there are her helpers — Kathryn, a sophomore in LeClaire high school; Virginia, a sixth grader at Cody school — and two "dish-lickers," Brenda, 5 years old and Dinah, 3 years old. The man who benefits from all this good cookin' is, of course, hubby and daddy respectively, to these gals — Arnold Holst.

By the way, if any of you are interested in first-hand account of a trip to Hawaii, just drop in to see Arnold and Wilma. They recently returned from a two-weeks tour of the Islands.

Each week we are going to chose one of your ladies for special honor in the Cook of the Week column. The name will be selected from our subscription files. Who knows, we may pull your name from the file and make YOU — Cook of the Week.

Following are two of their favorite recipies: —

Baked Applesauce

Crumb Cake
½ t. soda
½ C. shortening
1 C. brown sugar
1½ C. flour
1½ C. uncooked oatmeal
4 or 5 C. sweetened applesauce
Add 3 to 4 T. corn starch to applesauce and cook until thick.

Combine dry ingredients and shortening into a crumb mixture. Place a layer of crumbs in an oblong pan, then spread over this the thickened applesauce. Bake in moderate oven about 45 minutes. Cool, slice and serve with whipped cream.

Apricots, prunes or raisins may be used in place of the applesauce.

Teen-Age Treat - Maid Rites

(Kathryn's specialty)

Put about 3 lbs. ground beef in a large skillet. Fry until, done, stirring occasionally so it doesn't stick. Then add one small onion (diced) 1 can tomato soup, ½ C. catsup and salt and pepper to taste. Let this simmer until onion is done and ingredients are thoroughly blended. Serve on warm buns.

Very good for hungry teenagers. Serve with your favorite drink.

Helpful Hints: —

There seems to be no end for the use of lemon juice. — It is used for about everything from fish to hair rinse — and here are even a few more uses: To soften frosting that has cooked too long, add a few drops of lemon juice. Also, a few drops added to cream will make it whip more stiffly. When lemon juice is added to dish water, it not only cuts grease, but makes your glasses and china glisten.

Don't forget, ladies, drop me a card with your favorite hints — Would also appreciate any other suggestions you may have for our Coffee Time. The address is Leona Farley, Rte 1, LeClaire.

STRANGE BUT TRUE

The other evening I stopped in to see a friend who had just gotten one of the new three-speed record players. "Wonderful machine," he said. "It plays at 33 RPM, 45, and 78. Only thing it won't do," he laughed, "is play two records at the same time!" Seriously, though, we had some mighty fine music that evening. . . one piece at a time, of course.

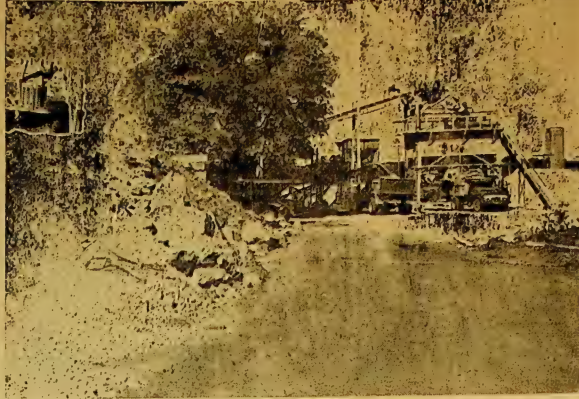

You know, party-line telephone service, too, makes good use of this one-at-a-time principle. Although it's perfectly true that only one party at a time can use the line, there's plenty of time for each user to do all the telephoning that could be desired, when the line is shared considerably.

It's just a matter of cooperating courteously with your party-line neighbors. . . freeing the line reasonably soon when someone is waiting to use it, and hang up gently when you find the line in use.

PRINCETON—A large crowd of hootin', yelling, stamping wrestling fans jammed into Princeton's Community Hall last Saturday night, for the first wrestling show of the fall and winter season.

Al Grosz, local grappler, met Jackie Reed of Omaha. Grosz won the one fall, 45 minute time limit event.

Hillbilly Kate, tangled with Kathy Star, Hillbilly Kate proved that physical handicap (she has only one arm) is no barrier even in wrestling, as she subdued the unlucky Star in a two out of three falls, 60 minute, go-around. The winner took the first fall—lost the second and clinched it by taking the third and deciding fall.

In an unusual pairing Al Grosz teamed with Hillbilly Kate against Jackie Reed and Kathy Star in a tag team match. This event also two out of three falls, was neatly tucked away by the team of Grosz and Hillbilly Kate.

COOK OF THE WEEK

MARJORIE HELBLE

You and I have another treat in store this week as our recipes are two favorites of Marjorie (Mrs. Raymond) Helble.

Marjorie and Raymond live on a beautiful farm between Princeton and McCausland and "Traveling" is their favorite hobby.

Their family (grown and married) consists of two daughters: — Betty Jean, who married the Rev. L. C. Uraub of Garna, Iowa; and Dorothy Mae, now Mrs. Donald Stebens of Columbus, Georgia. Donald is stationed at Fort Benning. The Stebens plan on returning to Iowa about the middle of December.

There are five grandchildren, Charlene Joy, Norma Lee, Marcia Jean and Mark Christian Uraub; and Donald Charles Stebens II.

Now that you have met them let's proceed with the recipes.

Marjorie calls her first recipe "Goosey Peach Pie" with a 1-2-3 pie crust which she learned to make when a mere child, from her mother.

GOOSEY PEACH PIE

- 1 C. flour
- 2 heaping T. lard
- 3 T. cold water
- ½ t. baking powder
- ½ t. salt

Cut cold lard into sifted dry ingredients and add cold water gradually. When blended enough to handle sprinkle a little flour on pastry board and roll two-thirds of dough thin for the bottom of pie leaving the other third for the top crust either strip or plain. This is for an 8 inch tin.

Peach Filling

Peel and cut up about 3 cups peaches

- add,
- 1 C. sugar
- 2 T. flour
- 2 T. heavy cream
- ¼ t. nutmeg

Mix this all together in a bowl and add to unbaked pie crust, then put another rolled crust or strips on top and bake at 375 degrees about 45 minutes.

FILLED SUGAR COOKIES

- Mix together,
- 2 C. sugar
- 1 C. butter
- 1 C. sour cream
- 2 eggs
- 1 t. vanilla
- ¼ t. lemon
- Sift together,
- 2 C. flour (more if needed)
- 1 t. baking powder
- ½ t. salt
- 1 t. soda

Add to the above mixture, then add more flour to be able to handle the dough on a pastry board. Divide dough, roll out one portion then cut with cookie cutter placing on a baking sheet. Prepare a filling of the following:

- 2 C. raisins, dates or figs
- ¾ C. sugar
- 1 t. vinegar or lemon juice
- 2 T. cornstarch
- ¼ t. salt
- 1 C. water

Put washed raisins, vinegar and water to cook about 5 minutes, then add sugar, cornstarch and salt mixed together. Cook a few minutes longer to thicken, with a teaspoon, spread filling on each cookie. Roll remaining dough; cut and place another cookie on top of filling. Press edges together. Bake in moderate oven about ten minutes or until browned.

Hi — Come right on in — this has been a busy week. Your coffee will be ready in a minute — in the meantime let's see what is on the spindle for today.

I heard an amusing incident this past week that happened to a friend of mine who lives in town:

She had some tomatoes which she wanted to save from freezing, after hearing the recent frost predictions. So, she brought them into the house and stored them in the refrigerator on the shelf beneath the freezing compartment.

That evening her husband brought some ice cream home; put it in the freezing compartment and turned the dial up to keep it from getting soft.

Next morning the ice cream was solidly frozen.

The tomatoes were too.

We attended "open house" at Cody school, being proudly guided thru by our son, who is in the first grade.

The building and rooms are really beautiful. Most of us grown-ups were wishing ourselves back in school again.

The ladies, we noted especially admired the kitchen and dining area, the coloring of the various walls and the furnishings in each room.

A warm and friendly smile from the teacher welcomed us into each room, and following the tour we enjoyed refreshments in the dining area.

As one man put it, all this and pretty teachers, too! Wow! To be a kid again."

On the serious side tho: — I wonder, would Abraham Lincoln have been greater for having gone to a school such as ours today?

Daffynition — A hammer is an instrument to hit the nail on the finger with.

Note to husbands:

With chilly weather coming on, try to be kind and considerate, remember, one good turn gets most of the blanket.

I recently overheard a small girl telling a friend how she knew in which cannister her mother kept the cookies. "It's the one with all the finger marks on it," she said.

Did you hear about the mountaineer who wanted a quiet wedding — so he put a muffler on his shotgun.

DUMBELL POME

He took his auntie for a ride, Tho icy was the breeze, He put her in the rumble seat, To see his auntie-freeze.

Don't forget to drop me a card with your household hints. I'd sure enjoy any comments from you. Send your cards or letters to Leona Farley, Route 1, LeClaire.

PROGRESS REPORT

Building a Presbyterian manse has been the ambition of the local congregation for so long a time. Those in charge cooperation and enthusiasm are happy to report that are 100%.

The pledges are coming in and if you haven't been contacted and are interested, you may pledge at the bank or speak to any member of the congregation.

Remodeling in the church basement is also underway. The first step will be to install a new gas furnace.

A genuine spirit of cooperation and willingness is being shown by the men who have donated time and labor on this project, thus far.

The following men donated trucks to haul concrete blocks for the basement: Ed, Dick, Roy and Herbert Holst, Harry McConnell, Orville Stewart, Bert and Ralph Porter and Russell Enyeart.

Two weeks ago most of the basement blocks were laid by Les Long assisted by Orville Stewart, Sam Havenhill, Jr., ons, Harley Walker, Wayne Keith Havenhill, Norval Clem-Brown, Terry Damon and John Boesch.

Curtis Rogers, assisted by Eugene Dannatt, Norman Shroeder and Allen Elliott poured the cement steps to the west entrance of the basement.

The basement of the manse was completed about 6 p.m. Saturday. After the dirt is scooped in by Lawrence Carter with a bulldozer, the carpenter can begin.

Eighteen members of the Junior Youth Fellowship group of the Presbyterian Church enjoyed a wiener roast Monday night at the home of Mrs. Eugene Dannatt, their leader. Beverly took them to hills before eating, so all had appetites. Mary Ney lead devotions and hostesses were Mary, Marion Meinert and Dixie Damon. The next meeting will be Monday night, October 25, and those in charge will be Carolyn Tobey and Kay and Randy

Blast Starts Local Quarry Operations

Weaver Construction Company workmen are busy making little ones out of big ones, meaning they are crushing rock. This scene, taken from atop the natural formation, shows rock being loaded on dumps for movement to the crusher. The scale is located on the inbound drive.

ROCK PRODUCED FOR PAVING HIGHWAY 61

PRINCETON — It was a mighty blast that shook the country-side Saturday as hundreds of tons of rock tore away from the solid bed and tumbled down into a gigantic pile amid a cloud of dust.

The whole thing was planned and will be repeated often, in the next two months, as the Weaver Construction Company crush rock on the McKnight property, just north of Princeton.

Headed by Mr. W. W. Weaver of Iowa Falls, Iowa, the company has the contract to supply rock material for the construction of highway 61. Mr. Paul Bennett is their local superintendent.

Prior to moving their huge crusher into the McKnight Quarry the Weaver Company crushed and hauled some 19,000 tons of rock from the Schneekloth Pit, south of McCausland. This rock was used as a base for the new road.

Also being operated by the company is a sand plant, two miles east of McCausland on the Wapsi river. This sand and the rock from the McKnight pit will be the mixture for the concrete of the new highway.

Actual pouring got underway Tuesday as Cameron Joyce Company of Keokuk started two paving outfits. Every effort is being made to complete and open the road before winter weather.

The McKnight Quarry has never been operated as such by the owner, Mrs. Frank McKnight. In years gone by, some rock was removed from the deposit by local people for miscellaneous purposes. Reportedly the rock has a very favorable test for concrete mixing purposes.

During 1951 and '52 Scott County leased the property and crushed rock for nearby county maintained roads. There was no new processing in 1953, but the county completed the removal of their stock pile.

Today the scene is a beehive of activity. An endless procession of trucks are filled at the crusher or from the stock pile and move across the scales before heading to the job site via county "H" through Princeton.

Some fifty trucks are operating in rapid shuttle service between the quarry and

the highway project. Mr. Weaver reports he is short of trucks and would like to double the present fleet. Sunday night the operation was stepped up to a continuous, 24-hour per day schedule.

Some local labor is being utilized and the project superintendent indicated that he is looking for more.

Four classes of material are produced at the quarry. The fine or pulverized material is classed as agriculture limestone, which Mr. Weaver hopes to dispose of locally. C'ip rock, road stone and concrete stone are also produced. It is the latter category which is being hauled to the job at this time.

It is a noisy procedure of producing the finished product from the solid deposit of rock. On top of the vein of rock a bulldozer removed dirt and cleared the way for the drilling machine. Methodically holes are drilled at a certain distance from the edge of the rock wall, which was made from a previous blast. The explosive charge is loaded into these holes to break huge chunks of material from the solid mass. More blasts will be set off when additional material is needed to feed the

powerful crusher. For below the top of the natural formation a mechanical scoop digs into the loosened pile and loads huge end dumping vehicles which haul the large chunks up a ramp and into the mouth of the crusher.

Out of the crusher comes the four types of material. A stock pile is used to maintain an equal balance between production and delivery.

The twelve-mile haul causes variances in the trucks turnaround schedules. If the trucks are all on the road the rock from the crusher is dumped on the stock pile. On the other hand, if more trucks are at the pit than can be loaded directly, from the crusher they are filled from the stock pile.

As you observe this parade of loaded gravel trucks, remember, that this rock in its usable form just didn't happen. A lot of planning, equipment and processing is required to make the most of this abundant raw material.

CAR AND TRUCK CRASH ON 67 IN PRINCETON

PRINCETON — Shortly after noon Tuesday three people escaped serious injury when a car and loaded gravel truck collided at the Lower Crossing intersection of Highway 67 in Princeton.

The automobile, a late model Packard, was driven by Ward Drayton of Davenport. Mrs. Drayton was also a passenger in the car. The truck belonging to Cecil Hamilton was driven by his son Ronald.

Reportedly, the Drayton car pulled onto the highway, from the east, into the path of the northbound truck. The impact caused heavy damage to the car and the truck careened off the pavement, tipped over and knocked down a railroad flasher signal. The crushed rock was spilled onto the road and in the ditch.

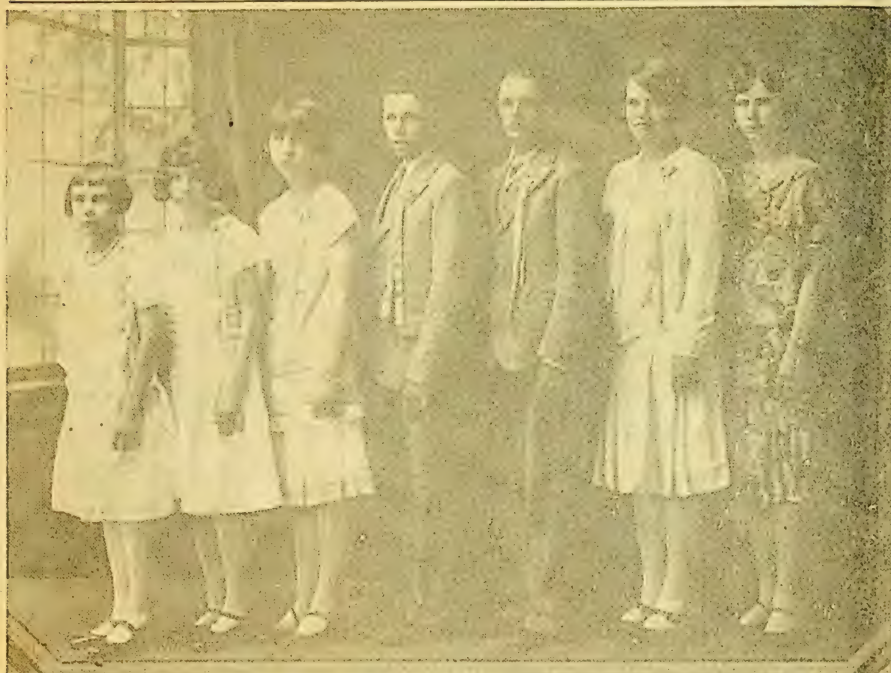

The Princeton Fire Department answered an alarm reporting the truck to be burning, however there was little or no damage caused by fire.

The occupants of the car were not believed to be seriously injured even though they were taken to a Davenport hospital for examination. Hamilton also escaped injury.

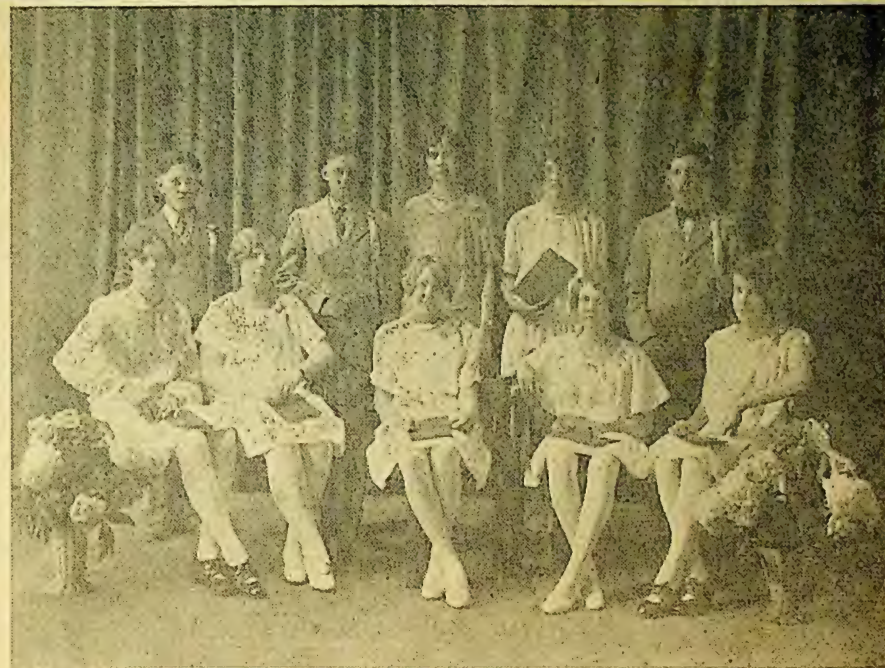

Al's Garage wrecker was used to clear the damaged vehicles. Scott County sheriff's deputies were at the scene.

A railroad signal maintenance employee was called to remove the damaged flasher and make any necessary repair of the circuit. The flasher will be replaced as soon as parts are secured.

a list of the names will be published. Out of respect for women's ages we may not name the year. (Seriously, let us know if you enjoy these pictures of "yesterday" and we will arrange to print others, from time to time.)

Church's Building Program Outlined

From this foundation and basement wall, the start of the Presbyterian Church manse, will rise the fulfillment

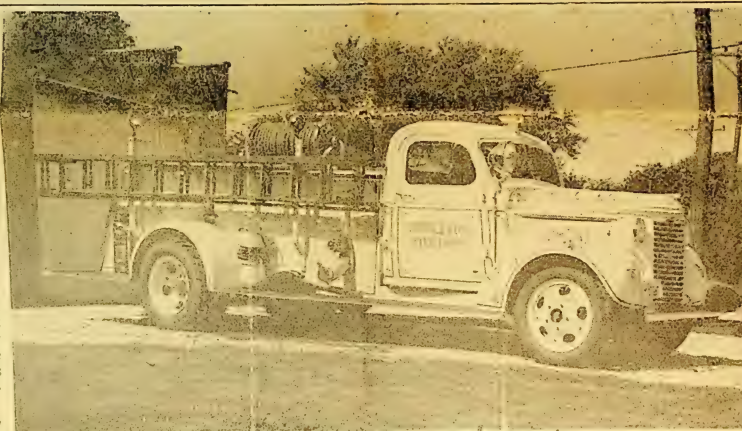

of hopes and plans of the congregation for many years. When completed the church will have a resident pastor.

PRINCETON FIREMEN JOINED IN COUNTY FIRE PREVENTION PARADE

PRINCETON—Several firemen gathered at the Princeton Fire Station Sunday morning to clean and polish one of the department's trucks. The truck was driven in a parade at Davenport Sunday afternoon to launch the city and County Fire Prevention campaign.

Under the supervision of Fire Chief Herb Peitscher, fireman Alan Elliott, Frank Erling, Al Evans, Wilbert Kroeger and Wayne Younger readied the truck for the event. Peitscher, Erling, Evans and Younger rode in the parade.

The tanker, which is now an independently operated unit, and the second truck remained in Princeton to answer any alarms.

Princeton's fire truck shown above was cleaned and polished to participate in a county-wide Fire Prevention parade in Davenport last Sunday. The tanker and second truck did not go.

Community Support Appreciated

PRINCETON - The Princeton Presbyterian Church has been the scene of a flurry of activity since the start of the new building program a few weeks ago. A new well has been drilled, a remodeling project has been started in the basement of the church and the basement for the new manse is completed.

The church, which has been under the pastorate of Rev. H. J. Rendall from Morrison, Illinois, received a gift several years ago from Ernest Scott, now a resident of Wilton Junction. From this nucleus, and other substantial contributions which have been accumulated, the new \$10,000 building and improvement program has grown.

A. W. Elliott, Chairman of the Trustees and Fund Raising committee, states that \$5,000 in cash has already been amassed from previous gifts and recent donations and that the success of the project is assured. In addition, \$2630.00 has been pledged to be paid within four years. All prospective contributors have not as yet been contacted and it is anticipated that an additional \$2500.00 in cash and pledges will be raised within the next few weeks.

Included in the undertaking are the building of an attractive, modern story and one-half bungalow on the lot just north of the church, enlargement of the Sunday School space in the basement which is greatly needed due to the increased attendance and membership, installation of a new heating plant in the church, a rest room and improved kitchen facilities in the basement of the church.

Mrs. Ray Holst, Chairman of the Building Committee, announces that work is progressing on schedule. Lawrence Carter donated the excavating of the basement of the manse with his bulldozer. Lester Long furnished his masonry equipment and he and other volunteers poured the footings and laid the blocks in record time. In making way for additional Sunday school space and a modern kitchen in the church basement, Curtis Rogers has headed the crew to remove the old furnace room.

Bids were taken for the actual building of the manse and the contract was let to the low bidder, Andy Thompson, who has made provisions for donated labor. Work will begin within a few days.

A. W. Elliott and Mrs. Ray Holst have expressed their appreciation for the wonderful cooperation that has been given their committees and for the pledges of money and generously given work. Assistance has been given in cash and donated labor from not only the congregation but by friends from other churches. Although fine progress is being made, additional funds and help will be needed and any contributions will be greatly appreciated.

The Church will hold their Annual Chicken Dinner in the Princeton Community Hall on Wednesday, October 13. The proceeds will help their building program. A bazaar is also held in conjunction with the supper.

CLINTON MAN DIES AFTER CAR WRECK

An early morning auto accident about two miles south of Princeton, Saturday, took the life of a Clinton man, David Ogden, 33, driving south on route 67, apparently lost control of his car on a curve and plunged over a 25-foot embankment. He died in a Davenport hospital about six hours after the accident.

There were no eye witnesses to the accident. Time of the mishap was placed between 2:20 a.m. and 2:45 a.m. An eastbound freight train passed the scene at the earlier time and did not notice any wreckage. Shortly afterwards, about 2:45 a.m., another eastbound freight passed the accident location and saw the wrecked car. The car had come to rest at the bottom of the ditch some twenty feet from the track.

Upon arrival at Princeton the train crew hailed a passing car and notified them of the accident. At about the same time Arnold Bowers, railroad

HOW SAFE IS YOUR HOME FROM FIRE ?

The period October 3-9 has been designated as Fire Prevention Week. Now is the time to check your property and determine just how safe you are from a disastrous and costly fire. A few minutes of your time today — may save you a heart ache tomorrow.

If a fire inspector were to visit your property the following are the things he would observe. (You can be your own inspector, by checking the list. If you find faults correct them now — tomorrow may be too late.)

FIRE INSPECTION CHECK LIST

- Accumulation of dry leaves should be cleared away from behind shrubbery, near house and roof eaves.
- Soot in chimneys and heating units should be removed at least annually.
- Roofs should be in good condition to prevent spark fires.
- Pipes entering chimneys should be free from holes and cracks, fit tightly and have a metal collar.
- Metal containers should be used for ashes.
- Tightly covered metal containers should be used for oily rags and mops.
- Be sure that electric circuits are sufficient to carry peak loads.
- Do not use improper fuses. Overloaded circuits through too-heavy fuses are hazardous.
- Watch lamp and appliance cords for dangerous wear and breaks — never string electric cords over nails or under rugs.
- Don't let grease accumulate on stove — and keep grease containers away from stove.
- Keep matches in metal container away from small children.
- Keep a screen in front of your fireplace.
- Keep inflammable liquids in properly marked metal containers and store outdoors.
- Remove rubbish, litter and old papers from attic, basement, store rooms and garage to prevent spontaneous ignition.
- Three out of four fires are caused by:
 - Matches and careless smoking habits.
 - Faulty electrical wiring and apparatus.
 - Heating and cooking stoves.
 - Carelessness with inflammable liquids.

Your Fire Department is as anxious to prevent fires as it is to extinguish them. You can stop that fire before it ever starts.

Fire Chief

COFFEE TIME

by

Leona Farley

HELLO AGAIN — Have you noticed the sumac has turned red already ?

I have been so busy with my daily duties that I haven't had much time for window gazing — but since you have dropped in let's take our cup of coffee and window gaze for awhile.

FALL and October in particular, is my favorite time of the year. I just love each day — look, there are some ducks along the river — over there the leaves on the trees are beginning to turn yellow and all shades of red. Some leaves are starting to drop.

Did you ever, when you were a child — or perhaps still do — take a walk thru a wooded area at this time of the year? As you walk along how the dry fallen leaves rustle and crackle at your feet. Maybe you took a friend along and how you would each shuffle along to see which could make the most noise. Then you would find a hickory nut tree and fill your pockets bulging full before returning home. Perhaps you played a little game to see which could find the prettiest leaves — or picked a bouquet of bittersweet.

And the sun this time of the year — ooh, it feels so warm and comfortable on these cool days. Look at the sky, too, — ever see it so blue or the white clouds fluffier?

Okay, I will admit that some of the days are not quite so pleasant when it is rainy and windy — but even Mother Nature has to do fall house cleaning.

But I still say, Ah, autumn, if ever then comes perfect days!

"I like that program," said one small-fry to another while watching TV one evening.

"Why?"

"Because it's over."

Man does not live by bread alone — no? — well, almost in these days of high meat prices.

REVERSE CHARGES

The telephone rang shrilly in the middle of the night, and as the man picked up the receiver his heart was hammering. Who could be calling at this hour? "Is that you son?" he heard a familiar voice say. "Mom! What's wrong?"

"Nothing's wrong," his mother chuckled. "It's your birthday."

"Holy smokes! You didn't have to drag me out of bed at 3 a.m. just to tell me happy birthday did you?"

"Well, you made me get out of bed at 3 a.m. thirty years ago tonite and I felt it was high time I paid you back!"

Niece: "What is a bull sleepin' under a tree called?"

Uncle: "I don't know."

Niece: "Bull - dozin'."

Did you hear about the little boy who got lost from his mother while shopping in the city?

He bravely walked up to a policeman and asked "Did you see a lady go by without me?"

Let's have a poetry day sometime, shall we? I would enjoy any contributions whether they be your own or a friend's. Or if you have a favorite poem you enjoy reading, send it along — we'd like to share it with our friends of COFFEE TIME. My address is LeClaire, Route 1.

THOUGHT FOR THE WEEK:
Keep your face to the sunshine and you cannot see the shadow.

COOK of the WEEK

EVONDA ENYEART

The delicious but easy-to-make recipes that I am happy to pass along to you this week come from Evonda Enyeart.

This lady needs no introduction to most of us. Tho you may not know her personally, you probably have at one time or another heard her pleasant voice as she assists on the switchboard at the Princeton telephone office.

Evonda, who has a degree in elementary education, teaches reading, numbers and phonics to the first grade students during the week day afternoons at the Princeton Independent school — besides caring for a family and home. So you can see she is a busy woman.

Those making up the family who enjoy her cooking are her husband, Russell; and two children, Richard, age ten; and Weeneja, who is eight-years old.

Evonda has a hobby of collecting miniature telephones. Her collection, so far totals 18 varieties. These miniatures were designed for varied purposes, from earrings, to compacts to flower vases.

Following are the recipes which Evonda submitted:

BANANA CAKE

- ½ C. shortening
- 1 1-3 C. sugar
- ½ C. sour milk
- 2 eggs (unbeaten)
- 1 C. mashed bananas
- 1 tsp. vanilla
- ¼ tsp. lemon extract
- ½ C. nuts ground
- 2 C. sifted all purpose flour
- 1 tsp. baking powder
- 1 tsp. soda
- ¼ tsp. salt

Cream the shortening and sugar. Add remaining ingredients and beat with a spoon for approximately two minutes. Pour into two 9 inch layer pans fitted with wax paper. Bake 30 minutes in a moderately slow oven 350 degrees.

CRANBERRY SALAD

- 4 C. or 1 lb. cranberries (ground)

- 1 pt. crushed pineapple
- ½ C. orange juice
- 2 pkg. cherry jello
- 1½ C. sugar
- 1 C. chopped celery

Put sugar with the cranberries. Take the juice for part of the water in fixing the jello. Mix all ingredients well in the jello and put in the refrigerator to set. This makes a large dish full.

HOUSEHOLD HINTS

One or two left over egg yolks may be added to custard to make the product even more nourishing.

Custard which begins to curdle can often be restored by placing it quickly over cold water (to stop cooking immediately) and beating vigorously with a rotary beater until smooth. Do not reheat.

In baked custards, the eggs are beaten slightly — just enough to mix the yolk and white but never enough to make the eggs frothy.

Each week we are going to choose one of you ladies for special honor in the Cook of the Week column. The name will be selected from our subscription files. Who knows, we may pull your name from the file and make YOU — Cook of the Week.

Girl Scouts Observed Anniversary

NEW CHEVROLET SHOWING THURSDAY

PRINCETON — On Thursday, October 28, even as you read this item, the new Chevrolet line will be on display at Lund's Garage in Princeton.

You'll have to see for yourself what the 1955 models look like, because we weren't able to find out for you.

It was hoped to obtain a picture, but there were none available. There weren't any preview peeks, either. Our curiosity about where the cars were hidden was met with a big, friendly smile — but no reply.

Even the back-shop boys wouldn't give with any information, except to say they would be up bright and early Thursday morning to prepare the six-cylinder and V-8 models for the all day showing.

This much we did find out for you; Hilding Lund reports that they are serving coffee and donuts. There will also be entertainment in the evening.

Edward S. Holst Buried Saturday

Edward S. Holst, 83, of Davenport, life long resident of Scott county and for many years a farmer west of Princeton, died at 3:05 p.m. Wednesday, October 20.

COFFEE TIME

by

Leona Farley

Women—that being what we are—can only go so long without talking about "What have I got to wear?" So let me pour you a cup of coffee and this week instead of just talking clothes, let's discuss the accessories needed for our wardrobe.

In fact, one of the most important things to remember about buying clothes is the accessories you have or will need. As most of you know, one good dress, a suit or several skirts and blouses with a variety of scarfs, hankies, flowers, pins and necklaces can make them serve well for many different occasions. Thru this medium, also the cost of being well dressed can be kept to a minimum—which interests all of us.

Stripe and plaids cuffs and ascots, and I have even seen stripe and plaid gloves to match, have become most popular with a solid-colored suit or dress. In reverse, the plain colors, and white in particular, accessories perk up a stripe, plaid or figured costume. If you sew, many of your scarfs, hankies, cuffs, collars and ascots can be made from left-over pieces, thus really cutting the cost.

Of all accessories, I think that flowers, pins, necklaces and earrings are the most difficult to choose and wear as it is easy to get that cluttered or over-done look. If you can afford only one or two matching pins, earrings and necklaces, the best bet is not to buy ones that are too ornate. Keep simplicity of design in mind.

So gals, with the selection of accessories that the stores carry these days and the variety of colors, let your imagination go, you will not find your wardrobe perked up but your spirits as well. Happy hunting!

Remember, as a Frenchman once said many, many years ago: "There are no ugly women; there are only women who do not know how to look pretty."

In connection with the above subject, I remember reading a little poem written by a man (his name escapes me) that went something like this:

Perk hats and chic dresses

Daffynition —

Experience that quality that makes you hit a bottle of cat-sup on the bottom with a bit of caution.

Have you ever noticed that some of the most beautiful people in the world have the homeliest facts?

Also have you noticed that there is gold — the burnished kind — in autumn sunshine.

Thought For The Week: —

Behind an able man there are always other able men. Chintse proverb.

COOK of the WEEK

CHRISTINE SHUGARS

You are going to meet a real versatile lady this week as our cook, namely, Christine, (Mrs. Jack) Shugars.

Other than cooking, Christine enjoys reading, especially non-fiction, collecting antiques and every year tries to learn at least one new skill. At present she is taking a night course in Spanish at Augustana College in Rock Island and I just happen to know that last year she took a course in millinery in Davenport. She also serves as secretary this year for the LeClaire Woman's club besides managing their spacious home located about three miles north of LeClaire.

There are five children in her family consisting of three daughters, Mrs. Gene Kondelik of California, Nancy Shugars, who works as a secretary in Chicago and Elsa, a sophomore at the LeClaire high school; and two sons, Allan, a student at Iowa State College in Ames, and David Christopher (Kit), a fourth grader at the new Cody elementary school.

Following are three of Christine's recipes:

XMAS CRESCENTS

¾ C. soft butter or margarine
1 C. powdered sugar
1 T. ice water
2 C. sifted flour
1 t. vanilla
Mold by hand into crescent shapes and bake at 300 degrees for 30 minutes.

CHEESE SOUFFLE

2 T. butter
2 T. flour
1 t. salt
¼ t. mustard
¼ t. paprika
1 C. milk
1 C. grated American or cheddar cheese
3 eggs, separated
Make a sauce of all ingredients except eggs. Cook until thick and smooth. Cool. Beat egg yolks and fold into cheese sauce. Fold in stiff-beaten egg whites. Pour into ungreased pan, set in hot water and bake in slow oven, 300 degrees, for 45 to 60 minutes.

TAMALE PIE EN CASSEROLE

1 C. yellow corn meal
6 C. boiling water
1 t. salt
1 medium-sized onion
2 T. fat
2 C. ground beef (or sausage)
2 C. tomatoes
cayene 2 pimientos
Cook corn meal as for mush, for about 30 minutes. Chop onion and fry in fat until brown, add meat and fry until brown. Add tomatoes, pimientos and cayene. Line oiled casserole with mush, put meat mixture in center, cover with mush and bake in a moderate oven about 2 hours.

KING AND QUEEN CROWNED AT WINTER KARNIVAL

KING — MICHAEL HIRL

QUEEN — MARY VOLRATH

PRINCETON — Three hundred or more persons crowded into Princeton's halls and rooms of education Friday evening for the Winter Karnival sponsored by the Parent Teachers Association.

Differing greatly in type from other years annual fund raisings, the Karnival proved entertaining and profitable. The entertainment presented by pupils of the various grades indicated considerable preparation on the part of teachers and pupils.

Highlight of the evening was the crowning of the King and Queen, which was based on a penny-a-vote contest for pupils of the first and second grades.

King Michael Hirl, son of Mr. and Mrs. Vern Hirl, led the boys field of contenders by some 1400 votes ahead of the next highest entrant. In addition to a regal crown, his majesty was presented a tractor set.

Queen Mary Volrath, daughter of Mr. and Mrs. George Volrath, won her honors in a much closer voting. She was royally crowned and presented a vanity kit.

Introducing the King and Queen was cleverly done. The curtains parted to reveal two attractively decorated boxes. At cue-word from the master of ceremony, the lids sprang open and up popped the King and Queen — royal jack-in-the-boxes.

The Cake Walk, with a vast array of beautifully decorated

cakes, attracted so much attention that the committee had difficulty in arranging an opportunity for all to participate. In fact, the event ended with pies to satisfy the eagerness of the crowd.

Anything for a good cause — Al Evans added spark to the proceedings — and money to the cash register, when in true carnival style, he allowed bean bags to be thrown at his head. No record on the number of hits.

Fellowship in its true form abounded aplenty around tables provided in the cafe room for enjoying sandwiches, pie and coffee.

In utter amazement, wide-eyed youngsters left the mystic presence of the fortune teller and her crystal ball. Young minds retained glowing predictions, uttered by a capable teller.

A touch of glamour, both feminine and masculine — appeared as evidence of a well patronized beauty shoppe. For the youngsters it was a thrill of thrills — even many of the much older boys, men to be exact, found sufficient courage to emerge with a debatable affect.

Door prizes and winners are too numerous to mention. If you missed the Karnival, don't pass up the next one, if the group makes it an annual event.

For the benefit of pupils, who were providing entertainment Friday night, the film cartoons were shown for them on Saturday evening.

FORMER PRINCETON PASTOR DIES

Funeral services for the Rev. Frederick E. Motzkus of Hebron, Ill. former pastor of the Princeton Zion Lutheran Church, will be held at 1:30 Wednesday in Hebron.

Rev. Motzkus, 75, died suddenly Sunday at the wheel of his car as he and his wife planned to visit his brother.

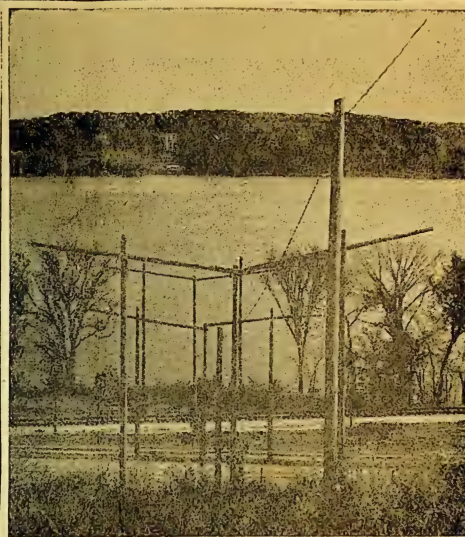

He had preached the morning sermon and was apparently in good health.

He had been pastor there since leaving here about two years ago after 7 years in this church. He was a member of the Princeton Board of Education while here. His church had

Eighteen Church Workers of the Presbyterian church met Thursday in the home of Mrs. Charles Helble with Mrs. Lloyd Tague assisting. The group took a thank offering and voted \$100. to the Benevolence fund. The following nominating committee was appointed; Mildred Carter, Daisy Davis and Violet Suiter. December hostesses will be Mrs. Ollie Suiter and Mrs. Roy Holst.

just completed an extensive remodeling program.

Survivors besides his wife are two daughters, Mrs. Anton (Halcyone) Toft of North Park, Ill., and Mrs. Stanley (Elsaine) Anderson of Rockford, Ill. and several grandchildren.

The above pole arrangement south of Princeton provided protection for highway and railroad traffic during stringing operation.

IMPROVES ILLINOIS SERVICE

Work crews of the Iowa Illinois Gas and Electric Co. are completing their project of stringing service conductors across the Mississippi river, between Princeton and LeClaire.

Early in the summer a private contractor erected the steel towers — one south of Princeton on Route 67 and the other across the river on the Illinois side.

The company workmen began preliminary work ten days ago and placed several poles on the east side of the highway to keep the stringing and service cables from sagging onto the highway, railroad tracks, high voltage power line and telephone circuits.

To keep the conductors from becoming wet a stringing-cable was first put across the river by use of boats. The cable then served as a carrier or guide in stringing the actual conductors between the towers.

A near mishap occurred while the men were putting the work line across the river. The cable parted and fell on a high voltage line and the railroad tracks. Fortunately, workmen did not come into contact with the "shorted" lines.

The supporting towers are 265 feet high. On the Iowa side of the river, the tower is situated on a hill on the Ed. Feitscher farm. At night, the red, aircraft warning lights are visible for miles in all directions at ground levels.

Three of the wires across the river will be actual conductors and will be 85 feet above high water mark at their lowest point. Above these wires will be two "shield wires" to provide protection from lightning.

The insulators for the new circuit will be capable of accommodating a 69,000 volt line if power demands in the area increases the requirements to that extent.

Originating at the substation, west of Princeton on county road H, the line up to the towers is typically built for overland service.

When finished the 13,000 volt circuit across the river will complete a 3½ mile connection between the substation and the town of Cordova. The circuit, costing approximately \$150,000, will provide a second source of power for upper Rock Island county.

LeClaire P. T. A. Votes Milk Program

LECLAIRE—The LeClaire P. T. A. met Thursday evening at the school house with Mrs. Wm. Buchheit presiding.

The members voted in favor of a free milk program for the two kindergarten classes, and the first three grades. These children will receive a ½ pint of milk once a day. The milk will be paid for by the P. T. A.

Mrs. Zuber, field representative for the Farm Bureau extension program spoke on the topic, "Understanding our Teenagers".

Stanley Benson was also featured on the program with two accordion solos.

The next meeting will be December 16 at 2 p.m. This will be in the form of a Christmas party with a 50c gift exchange.

I AM THANKFUL

I am thankful, Lord, to Thee
For this land of Liberty;
For the beauty of her hills,
For her men of many skills
I am thankful, Lord, for Thee
For Thy grace to set men free
For the promise of Thy power,
For Thy presence every hour.
I am thankful, Lord, today,
For Thy guidance on life's way,
For the good things yet to be
As they come, dear Lord,
from Thee.

May I ever thankful live,
Unto others may I give
That which Thou hast given me
Faith and Hope and Charity.

SISTERS UNITED —

By Bessie Sierk

Mrs. Frank Peitscher of Princeton recently had the pleasure of assisting and seeing the uniting of two sisters. The sisters had not known each other previously.

About eight years ago, Delores Tucker resided with the Peitscher's. She was placed by the Women's Industrial Relief Corp in Davenport. A few years before, Delores' mother had given a baby girl for adoption, but the older sister did not have knowledge of that fact. The younger girl was adopted by a Waite family and she was told that she had an older sister.

Recently, Mrs. Peitscher was asked if she knew where Delores might be living at the present time. Having maintain-

ed a close-contact with the girl, Mrs. Peitscher was able to supply the desired information. She also advised Delores that they had a big surprise for her.

You can imagine the happiness when the two girls met for the first time.

Delores is married and lives near Colfax and has a small daughter, Julie. After the joyous meeting Delores and her daughter returned home with the Peitscher's for a week-long visit.

The two sisters resemble each other so much that they would be mistaken for each other.

Jackie, the younger sister, had been in Davenport all of these years. Even though the girls had lived so close-by, they did not know about each other.

COFFEE TIME

by
Leona Farley

Hello once again — how nice of you that you found time to have a visit with me during such a busy week. The coffee pot just started to perk so let's see what we can find of interest to talk about this week.

Did you get out your best linens for your Thanksgiving guests and found that they were slightly yellow? These can be bleached by letting them soak in buttermilk for two or three days.

Every week seems to be designated in honor of something or somebody. I think an appropriate title for the week after Thanksgiving would be Hash Week.

A young mother thought her young son may be frightened during a bad electrical storm so she tiptoed into his room to comfort him. The boy opened his eyes and murmured, "What's Daddy doing with the television set now?"

Need a new complexion for the holidays coming up? Here is a tip I heard recently: A homemade massage cream that is very effective for rough skin may be made of thick soapsuds to which a bit of salad oil is added. It helps smooth the skin and the massaging you do will give a rosy glow to your complexion.

Heard from my 'ol timer friend again. He says his wife is just like a brook — forever babbling.

The light texture of angel food and sponge cake depends on the proportion of egg white to other ingredients. Measuring or weighing egg whites gives more accurate results since eggs vary in size. A successful measure for angel food is one cup of egg white for each cup of flour.

DAFFYNITION — Gentleman farmer — a man with more hay in the bank than in the barn.

To keep wicker furniture from turning yellow, scrub it with a stiff brush moistened with warm salt water.

Stale, soft chunks of bread rubbed over wallpaper in even strokes will remove spots, even fingermarks.

TELLING is helping to know, TEACHING is helping to know and grow, TRAINING is helping to know and grow and do.

To give a new flavor to dried prunes, add a few whole cloves while they are cooking, or cook them in grape juice.

Thought for the week: Life is not so short but that there is always time enough for courtesy. — Emerson.

COOK of the WEEK

DORA STORJAHANN

I am happy to pass along to you this week some of the favorite recipes that the family of Mrs. Dora (Lambert) Storjahann find quite delicious. Dora truly enjoys cooking and baking — and her family, which includes: Mary Ann who works in Davenport; Richard of Parker, S. D., who plans on spending Thanksgiving at home; Tina, operates a beauty parlor in McCausland; Nickie is a freshman at DeWitt high school; and Gene and Kenneth, who are in grade school.

Altho Dora says there is never a dull moment at home, she does find time for hobbies, growing flowers and bowling — and entertaining friends and relatives in their home.

Following are three of Dora's recipes.

Oatmeal - Coconut Cookies

2 C. brown sugar
2 eggs
¾ C. shortening
½ t. salt
2 C. oatmeal
2 C. flour
1 C. coconut
½ t. soda
1 t. baking powder
Cream shortening and sugar. Add eggs and beat well. Sift dry ingredients and add to creamed mixture. Then stir in oatmeal and coconut. Form into round balls and bake in a 375 degree oven for about fifteen minutes.

MACARONI SALAD

Prepare 2 packages of lime jello as directed on package. Cool until it starts to jell, then stir in 1 C. crushed pineapple and 2 C. cooked shell macaroni. Chopped nuts may also be added, if desired. Chill until firm.

BOSTON BROWN BREAD

1 C. white flour
2 C. graham flour
1 t. salt
½ C. brown sugar
1 egg
¼ C. molasses
½ C. raisins
2 t. soda
2 C. buttermilk
½ C. nuts

Sift white flour, salt and soda in a large bowl. Add graham flour, brown sugar, nuts and raisins. Add molasses, buttermilk to beaten egg and pour into dry ingredients. Mix thoroly. These may be baked in the large juice cans, filling to about two-thirds full. Bake 1 hour at 325 degrees. If you want extras to put in your freezer, double the recipe.

If you want only a few drops of lemon juice, do not cut the lemon in half, simply pierce it with a fork and squeeze.

We ate lunch at the picnic room of the museum and then went to Shedd Aquarium, where we saw many sea fish.

We returned home about 7 p.m. Everyone enjoyed the trip and would be willing to go again.

The purpose of the trip was to give last year's eighth graders a party for helping us win the prize in Conservation, last year.

SERVING IN THE ARMED FORCES

LOW MOOR MAN HURT IN ACCIDENT

PRINCETON—About 12:15 Saturday morning a car driven by Chester Hodges of Low Moor crashed into the south end of the Wapsi river bridge, north of town on highway 87. Hodges, riding alone, sustained a deep cut on his chin and a broken arm. He was rushed to a Clinton hospital by private car.

The car was headed north and veered to the left side of the road and crashed head-on into a traffic sign and bridge guard rail. The impact imbedded the sign post into the front of the car — in fact, the post remained entangled with the wreckage as Al's Garage wrecker hauled the car into Princeton.

Another motorist following the car, reported that he saw the car veer to the left side of the road and crash. The car caught fire. The other driver removed the victim from the wrecked car and summoned the Princeton fire department.

The fire was quickly extinguished and the injured man was placed in a car and taken to the hospital.

The driver was fortunate that his injuries were not far more serious. The front seat was torn loose by the force of the collision and slid forward. The steering wheel was also broken, apparently by the forward impact of the driver.

EASY PRALINES

Mrs. Bob McClanahan

- 1 pkg. brown sugar
- ¾ C. milk
- 1 t. vanilla
- 1 C. pecans, chopped. These may be added before or after cooking.

Cook all ingredients together to soft ball stage (236 degrees). Beat until stiff and creamy. When mixture is stiff, drop rapidly from a spoon onto a buttered sheet in patties. Pecan halves may be pressed into top of each praline. Candy should stiffen immediately. Wrap in waxed paper and store until ready to use.

PINEAPPLE COOKIES

Mrs. Harold Voss

- 1 C. brown sugar, packed
- 1 C. white sugar
- 2 eggs, beaten
- 1 small can crushed pineapple
- 4 C. sifted flour
- 1 t. soda
- 1 t. vanilla
- 1 C. chopped nuts
- Dash of salt

Cream shortening. Add brown and white sugar gradually, followed by vanilla and eggs. Sift flour, salt and soda together three times. Add pineapple and flour alternately. Stir in nut meats then drop by teaspoonful on a greased cookie sheet. Flatten by pressing with bottom of a glass which has been covered with cheese cloth and dipped in colored sugar before each pressing.

FRENCH COOKIES

Cream shortening and sugar. Add hot water. Beat eggs and add to batter. Sift flour, soda and spices together three times. Stir in raisins and nuts. Pour into 8X12X2 inch pan. Bake at 350 degrees for 25 minutes. Cut in squares.

FRUIT CAKE

Mrs. Lawrence Voss

Boil the following ingredients five minutes after it starts to bubble:

- 4 C. brown sugar
- 4 C. hot water
- 4 or 5 C. raisins
- 1 t. cloves
- 2 t. salt
- 2 t. lard
- 2 t. butter

Let stand to cool then add 2 t. soda in a little warm water, 3 C. cake flour and 3 C. all-purpose flour (or you may use 6 C. all-purpose flour, if desired) 2 eggs, for 2 C. finely chopped nuts. Then add the fruit mix in the amounts desired of orange peel, citron and candied cherries. Bake at 300 degrees for 30 minutes then reduce to 275 degrees for 1 to 1½ hours. The mixture will fill one 10-in. angel food cake pan and two loaf pans. The cooled cakes may be wrapped for storing in a cloth saturated with wine, if desired.

BURNT SUGAR CANDY

Mrs. John Scharff

Heat ½ C. sugar until it becomes brown and caramelized. Then add 1 t. butter, 2 C. sugar and 1 C. milk. Boil until it forms a soft ball. Add ½ C. black walnuts. Beat until creamy and pour into oiled dish. Cut into squares.

If you gals have taken a peep at the next column, you undoubtedly are off to the kitchen to do some baking -- and what goes better with cookies and fruit cake than a nice cup of coffee while we relax for a few minutes. Be sure and watch for next week's column, too, because I found so many of you ladies with so many good recipes that we are running more cookie and candy recipes. Glad that you can enjoy them with me.

Do you have trouble with discipline in your family? There is an article in the December 4 post entitled "Best Mannered Children in the World" by Sally Carrighar which should be very interesting to every Mom and Dad.

It being Christmas card list time again, I began wondering how the idea of sending cards was started -- and here are some of the interesting facts I found about the Christmas card:

It was not until the 1900's, 60 years after the first Christmas greeting, that the holly wreaths, gleaming candles, bells and other familiar design motifs began to appear on Christmas cards. Before that time Christmas card design in general had little or no relation to Christmas or the winter season.

It wasn't until 1842 that the first known Christmas card appeared. Etched by a 16-year-old British youth, William Egley. Its design was limited to black and white. Illustrated on the card are a banquet scene, a party scene, skaters and the in Christmas pantomime Harlequin and Columbine. Beneath were the words, "A Merry Christmas and A Happy New Year To You."

Some cards found from the year 1884 showed a little girl in an apron picking flowers in a country field. The words at the bottom of the card were, "May Christmas be mirthful and happy for thee." Another showed two vases, one of roses and the other of pansies, are set against a light green background. A lily pond, trees and sky are pictured in a small panel beside the vases. The verse reads:

"Flowers of the summerland, blossoms unfading,
Laden with memories of
mountain and shore;
Bear on the winter's day sweet
Christmas greetings,
And whisper of many bright
pleasures in store."

One card, with a rabbit and a turtle on it, quotes a phrase which has since become famous:

"The voice of the turtle"
resounds through the air
It wishes glad Christmas,
and so does the hare."

Perhaps the most interesting card in the collection is one which appears to be hand-made. It is a pen and ink sketch of a very old Santa Claus standing nonchalantly with his legs crossed, beside a little girl identified as "Topsy." At the top of the card is the unique message: "A most consummate Xmas and an utterly utterly New Year."

RELIGIOUS CARDS

In 1875 Marcus Ward and Co. of Belfast, Ireland, published a set of four cards which pictured scenes of the Nativity. Four centuries earlier, in 1450, a German New Year's card contained a sketch of the earliest religious card on record. Interestingly enough, New Year's cards were popular long before Christmas cards. Both in China where printing was invented, and in the Rhine

COFFE TIME (Cont'd)

Valley, where the first European printing presses were established, New Year's greetings have a long tradition.

The exchange of Christmas greetings had its beginning in England in the form of the Christmas note, or a letter of good wishes. One that is still in existence has a design in the shape of a clover. Each leaf contains an illustration of a holiday scene -- old folks playing cards, young people playing ball, and two lovers spooning. The title reads, "Youth-Age-Keeping Ye Merry Christmas."

CHILDREN'S CARDS

Later, over 250 years ago, English school children gave us another forerunner of today's Christmas card. These were "Christmas pieces," expressions of good will which the children wrote at Christmas-time to show their parents the progress they were making in penmanship. The borders of these "Christmas pieces" contained engravings dramatizing important events of the year, such as battles, coronations and rural sports. Eventually scenes from the Scriptures took the place of these.

Blessed is the gift that makes you love the giver instead of the gift.

"Swap the
Bill of Rights
...for what?"

THE COMMUNISTS openly HATE our American Bill of Rights. They would like to replace it with ideas of their own.

What would we get in place of freedom of religion?

.... No religion.

In place of freedom of speech, and of the press?

.... Censorship, and government-controlled newspapers

In place of freedom from cruel and unusual punishment?

.... "Water cures" and "truth serums."

In place of the right to a fair trial?

.... The mockery of justice.

Before we ever give away even the smallest bit of our freedom, let's take a long, long look at what we're likely to get in exchange. That's the real test.

A vital cornerstone of America's economic freedom is the independent bank—with bank services designed to afford maximum convenience, protection and economy in money matters. We invite you to make full use of our services.

"Think it Over"

WHAT IS NEXT MOVE?

On the front page is a letter signed by Governor Leo Hoegh in regard to petitions requesting immediate improvement of Highway 67.

It is noted that the governor expressed himself quite well on the subject of highways for the state, but our problem at the moment is about ten miles of the states worst road, to be specific.

Had the governor at least indicated that he would reply further when advised by the Highway Commission on plans for the road improvements, then we would have had an example of a real interest in the people's request.

If it stops here — past efforts will have been in vain. As I see it, insofar as the governor is concerned he has closed his file.

There is one way we can keep the file very active and that is for all of us to back up our signatures on those petitions by a personal letter to the governor and the highway commission.

I often wonder how many more lives will be lost, how many will be injured and how much damage will be done to our cars before that stretch of road is rebuilt?

Last week we devoted most of one page to a Community Project survey. Have you expressed your opinion by returning the survey form?

Before the big snow it was kite flying weather. Probably hard to convince the youngsters, that there will be plenty nice days to fly their kites. Maybe one, or several, of our local organizations could sponsor a kite-derby.

Uncle Sam is
no magician

HE CAN'T PULL a rabbit out of his hat, nor can he produce special benefits for you or anyone else out of thin air. Every benefit must be paid for out of Uncle Sam's Treasury.

Sometimes people talk about Uncle Sam's Treasury as if it were an endless source of money provided by someone else. Actually, of course, every cent that flows from Uncle Sam's coffers eventually comes out of the pockets of *all* our citizens in the form of income taxes, excise taxes, and hidden taxes levied on the clothes we wear, the food we eat, and our houses.

No single economic group can provide enough money to foot the bill. For instance, if Uncle Sam were to tax away *all* income of individuals making over \$10,000 a year, the amount collected would pay the cost of government in 1954 for only two weeks. Therefore the burden of taxes must fall on everyone. So, remember: It's your money that will be spent.

If you really want to lower taxes, don't ask Uncle Sam for special benefits, as if they came out of a magician's hat.

Why not make provision yourself for the benefits and advantages you want? Open a bank account with us soon, and build your balance every payday with regular deposits.

The Independent telephone industry, to which we belong, is a perfect example of America's good use of independence.

Old-Time Phone Vagaries in Small Towns Are Recalled

By M. A. FULTON
Editor of The Times

This column could be entitled from "Knife Switch to Dial Phones." It is a brief record of telephone progress in the eastern portion of Scott county and as such similar to the story of rural telephone development everywhere.

The first switchboard at Princeton was homemade by an undertaker with a flair for electrical things and consisted of knife switches of the kind familiar as lightning arresters.

An incoming call was answered by closing the switch on that line. To ring a subscriber, which was done by hand, the first switch was thrown open and the switch on the line of the subscriber being called was closed. To make the connection both switches were closed.

M. A. Fulton

Had No Numbers

In the event more than one call was being made through the switchboard it was necessary to connect the lines already in use by a plug. Only three plugs were provided but they were sufficient in that day.

Memorizing names and calls of subscribers was necessary for the operator. Nobody called by number. In fact some years later when an attempt was made to introduce numbers the complaint was raised by some subscribers that it was "a scheme of the Bell to get control." Folk in that age were leary of big corporations. Some of their families now prize their A. T. & T. stock.

John Anderson was a pioneer in the movement to establish rural telephone lines in eastern Scott county and he envisioned the exchange at Argo as the central and principal point. His views were expounded long and forcefully years after his death, so potent was his influence in that early day. The lines, of course, were cooperatively owned.

When the lines were established disputes sometimes arose in regard to the assignment of rings.

Dr. John Knox was a vigorous and combative citizen of Princeton and was among the first telephone subscribers. He insisted upon having two long rings as his call and upon making the ring for the central office in Princeton four longs and a short.

That naturally, irked 19 other subscribers who called Princeton 100 times to once they might call Dr. Knox. Finally he was talked out of his two longs and they became the Princeton call on that line as on all others.

Good Advertising

Another physician in a neighboring town who could be called from the Princeton exchange always insisted on having five longs and a short as his call. When that long ring went over the line everybody knew someone was sick or injured and every receiver on the line went down. It wasn't bad advertising for the physician, but a bit hard on the arm of the operator doing the ringing.

Farmers and town people were "telephone conscious" and a "telephone picnic" was an annual event at Pinneo's grove north of Princeton in the early years. It was an attraction for all farm and town families. The benefits of the telephone were extolled. Stromberg-Carlson instruments were in use for the most part but other makes were also exhibited at the picnic.

A hack drawn by a team carried folk out from Princeton and from a station on the I. & L. electric line, a mile from the picnic grounds, for that picnic and for Fourth of July and similar celebrations.

A Resourceful Driver

The hack took people to the grounds all forenoon and then always faced the prospect of most of the crowd wanting to go home at once as the afternoon waned.

The driver was resourceful. As soon after noon as he dared he began driving around the grounds yelling: "LAST hack for downtown; LAST hack for the I. & L." in the hope of scaring timid people into believing they would be left unless they clambered aboard.

As the telephone business developed, the Princeton exchange and then the LeClaire exchange were taken over by private management. Individual subscribers refused to be bothered with keeping lines in shape.

Both exchanges now are owned by Russell Enyeart who has just changed the LeClaire system to dial telephones.

When an operator no longer presides at a town's telephone exchange some radical adjustments must be made by the residents who have depended upon the operator to act quickly in emergencies—especially fires.

In LeClaire the fire alarm problem has been solved by dial No. 2990 which rings telephones simultaneously in five places agreed upon by members of the LeClaire Volunteer Fire Department. It is expected that will do the trick which previously was the operator's duty.

COFFEE TIME

by
 Leona Farley

Hello — sh-h-h. have you seen any strange faces or little gremlins around your house this week? Oh Mom, look! they just made a jack-o'-lantern out of that pumpkin you were saving for a pie. Well, we'll just have to tell Dad to bring more in from the field. It is still a few more days before the witches will be riding their brooms and more than one pumpkin face will be needed to scare them away.

Well, the coffee is hot so let us enjoy it and leave the children to their fun.

BROOMS

On stormy days
 When the wind is high
 Tall trees are brooms
 Sweeping the sky.

They swish their branches
 In buckets of rain
 And swash and sweep it
 Blue again.

Dorothy Aldis

Did you hear about the hostess who told her women guests as they were about to depart: "Now be careful driving, girls. I simply doused the salad with wine vinegar?"

DAFFYNITION — Marriage is an institution of higher learning where a man gives up his bachelors degree and gets himself a master.

Heard an old timer say recently: "Women's slacks don't come in odd sizes — they just get that way from wear."

A young co-ed looked dreamily at the ceiling and declared, "The man I marry must be an outstanding personality, sing and dance, be a musician, tell jokes, stay home, neither drink nor smoke, and be quiet when I tell him to." Her friend, looked for his hat, and said as he was going out, "Lady, you don't want a husband; you want a television"

I have yet to find a book that fascinates children quite as much as the new Christmas mail order catalog.

Small Words — With Power TO DO — Each day we have a chance "to do" — good, no good, nothing or something — not only for ourselves but for those we come in contact with each day. What is your choice?

There is a sign on the bulletin board of the Clinton, Ky., school where Alban Barkley earned spending money in his youth as assistant janitor. It reads, "Al Barkley swept here."

THOUGHT FOR THE WEEK—

Let prayer be the key of the morning, and the bolt of the evening.

— Matthew Henry.

COOK of the WEEK

ALTA WRIGHT

The cookies had just cooled, but their aroma still lingered in her kitchen the day I met Alta (Mrs. Andy) Wright — and I knew that you and I would be in for a real treat for getting her recipes to try in our own kitchens.

Alta, who says she spends most of her time at home with her daily work, enjoys teaching the primary Sunday school class of the Baptist church in LeClaire each Sunday. Her "hobby" is raising flowers and she also has a collection of salt and pepper shakers.

There are two sons in her family, they are; Ivan Wilson of rural route, LeClaire and radio operator, first class, Samuel Wilson, stationed at the Andrews air force base in Maryland. This December will mark three years of service for Samuel, ten months of which was spent in Korea. He is hoping to get home for Christmas, his mother said.

Alta also has two grandsons, Richard Lee and Michael Allen Wilson, also of LeClaire.

Following are three of Alta's recipes:

WHITE LAYER CAKE
(with black walnuts)

Measure into a large mixing bowl:

2 C. sifted cake flour
 1-3 C. sugar
 ½ C. crisco
 1 t. salt
 2-3 C. milk
 Beat for 2 minutes by hand or electric beater.
 Then stir in (yes, all by itself):
 ¾ t. baking powder

Now add:

4 egg whites (unbeaten)
 1-3 C. milk
 1 t. vanilla
 Beat for 2 more minutes.
 Add ½ Cup black walnuts.
 Batter will be smooth and thin.
 Pour into two 9 inch pans, which have been greased and floured. Bake at 360 degrees (note the slightly higher temperature) for 30 minutes.

BROWN SUGAR COOKIES

2 C. brown sugar
 1 C. lard and butter (½ & ½)
 2 eggs
 1 t. soda
 1 t. cream of tartar
 3 C. flour
 Beat together sugar, short-enings and eggs, then stir in dry ingredients. To this add either, chocolate chip, black walnuts, raisins or cocoanut. Or the dough may be divided with any one of the last ingredients added to each part.

Two Alarms on Weekend

LE CLAIRE — Shortly after the Oz and Irv's Tavern closed at midnight Saturday, fire was discovered by Larry Joens, 12, son of Irvin Joens, proprietor.

Young Joens was awakened, reportedly, in the upstairs apartment by the smell of smoke and summoned the fire department. Mr. and Mrs. Joens had left the tavern after closing, but were not at home, it was reported.

The fire which apparently started in the kitchen, was quickly brought under control by the LeClaire fire department. Over \$1,500. damage was caused by the blaze.

The tavern was opened six weeks ago. Formerly the building was occupied by Mohr's grocery.

The LeClaire department answered another alarm for the weekend when an oil-burner had flared up.

Think It Over!

To err is human -

In last weeks issue there was an over abundance of printing errors. No excuses—no alibies—just try to do better in future issues.

Election is over -

Now that we know — who our state and county officers are for the next two years, it should be timely to remind them not to forget that there is also a Northeast corner in the county.

Home talent shows -

Friday nite the cast of "Flying High" ran through a script rehearsal at the I.O.O.F. hall. I was there for a short time to get a news picture.

It has been a long time since I have been behind the scenes of a home-talent presentation, but judging from what was observed there will be plenty of laughs.

If you need a good side-splitting laugh, — and who doesn't, — see the show.

Musical Trio -

Thursday evening during the showing of the new Chevrolet at Lund's, a recently formed trio of musicians provided the entertainment. Jo Ann Sulter on the accordion, backed up by Kiehl Havenhill and Norvel Clemons on electric Spanish guitars, can give out with popular, folk or western tunes. They also provided music at the Booster's dinner. You'll be hearing lots more of this musical trio.

Center line painted -

In case you are wondering why the State Highway Commission workmen were "flagging" northbound traffic on Route 67 at Hill's corner — it was to advise motorists not to cross the freshly painted center line.

BUICK special -

About 2:20 Friday afternoon a nine-car special train of the Milwaukee Road passed through Princeton and LeClaire headed for Kansas City. The train carried dealers from a three state area for the annual display of the new Buicks.

ROUTE 67 ??? -

Davenport is finishing at least part of the River Street project, with state aid, this fall and two or three more weeks of good weather should see the completion of Route 61.

How much longer are we going to risk lives and ruin cars bouncing over Route 67, between Riverdale and the Big Hill?

Gloomy return trip -

Over the weekend a special train (varnished cars as Art Pietscher calls em') passed through here enroute from Wisconsin to Iowa City, with the Badgers and rooters. We can well imagine it was a more jovial crowd going than returning, after being beaten by Iowa's Hawkeyes.

A weekly newspaper would not seem complete, at this time of the year, without mentioning some local gardening achievements.

Melvin Hill did the leg work on this bit of information. He stopped in at the print shop Tuesday evening with two huge potatoes from his neighbors garden. Maybe I'm too curious, but I just want to get the facts, so Melvin made another round trip between the shop and Roesger's, his neighbors, to get the additional information.

Lloyd Roesger who works at John Deere in East Moline, finds time to raise a garden and from all indications knows how-to-do-it.

Mr. and Mrs. Roesger planted nine 25-foot rows of potatoes on a plot about 20'X25' in their back yard garden. Recently, Lloyd dug 2½ rows of his crop and picked-up over two bushels of man-sized spuds.

One of the larger potatoes measured nearly seven inches one way by over four inches, the opposite way. It weighed a husky 2¼ pounds.

Didn't have the heart to ask Melvin to make another trip for more data so you'll have to ask Lloyd about the brand of seed, planting time, etc. Or you could ask his father, Emil — the 79 year old youngster, who works everyday at Lund's.

COFFEE TIME

by

Leona Farley

October turned my maple leaves to gold
The most are gone now;
here and there one lingers;
Soon these will slip from
out the twig's weak hold,
Like coins between
a dying miser's fingers.

T. B. Aldrich - "Maple Leaves"
Yes, October the color month,
is gone but before us we have
November — the month in
which we give thanks for
having had the other eleven.
So, with that in mind let us
go fix a pot of coffee and enjoy
it together.

The children are beginning
to play inside more and more
as these November days grow
colder. With this in mind, I'd
like to pass along an interesting
game I heard about recently
that the school-age children can
play. Yes, Mom and Dad, too.

Pick out a word like "bread"
— better start with a four letter
word to begin the game. Assign
each player to make up a
sentence using the letters in
the word. For instance, in using
the word "bread" the sentence
might be "Billy's Rabbit Eats
and Drinks." Each member
will probably come up with a
different sentence, some of
which may prove to be very
amusing. Have fun.

DAFFYNITION -

Co-ed — is a girl who works
her father thru college.

When you go on a motor trip
and need to pack hobbies
neckties go they will be
wrinkle-free, just fold them
flat in a magazine.

Your temper is one thing
that improves the longer you
can keep it.

If you have an oilcloth on
your kitchen table that has
become too worn at the corners
for further use, don't throw it
away as it can be very use-
fully made into a clothes bas-
ket liner.

Are you or the children ever
in the predicament of needing
some paste around home but
none can be found? A friend
of mine passed along a recipe
for home-made paste that is
not supposed to mold or dis-
color the paper. Take 1 T.
each of starch and flour and
add a little boiling water. Let
stand for a moment, then add
more water and stir while
cooking until the mixture
becomes thick. This paste will
also spread smoothly and stick
well.

Three inmates of a prison
found themselves in a cell
together for the first time.
They were all silent until bed-
time. Finally one of the men
said to the other, "How long
are you in for?" "For 100
years," he replied. "How many
are you in for?" "Ninety years,"
the first answered. "And how
many years do you have to go?"
he asked of the third member.
"Seventy-five years," replied
he. "O. K. then," said the first,
"you get the bed by the door
cause you'll be getting out first."

THOUGHT FOR THE WEEK:

The child's mind is like wax to
receive and granite to hold
impressions. —Anon.

COOK of the WEEK

MINNIE KLEEBURG

After reading the recipes that
Minnie (Mrs. Harry) Kleeburg
of Princeton sent to me, this
week, all I could think was
"where's my gun? I'm going
to get me a duck!" I believe
you will feel the same way.
A very active lady, Minnie
is a member of the Iowa
Woman's Press Association,
serves as secretary of the
Scott county Federated Wo-
man's club and is blind relief
chairman of the LeClaire
Woman's club. She is also
active with the Scott county
Library.

Her family includes, a
daughter, Joan (Mrs. Lyle)
Jenkins of Decatur, Ill., and
a son, Hank, who is serving
with the army air corps and
at present is stationed at St.
Mihiel, France. There is also
one grandson, Michael Jenkins.
Also considered a member of
the family is their black cocker
spaniel by the name of Corkey
Ann.

Following are Minnie's drool-
in'-good recipes:

GOLDEN BROWN

WILD DUCK
with Wild Rice

Thoroughly pick and wash the
ducks. Sprinkle their interiors
with salt and pepper and place
therein one stalk of celery
(without leaves), half an onion
and half an apple per duck.

Arrange duck with breast
down in roasting pan and add
½ C. of water to pan. Have
oven preheated at 400 degrees
then put duck into oven. After
15 minutes remove pan and
drain off water (removing
water drains off any strong
flavor ducks may have).

Place ducks breast down
on roasting rack in pan and
put a strip of bacon over each
duck. Then add basting juice
which consists of: (these ingre-
dients are for roasting three
ducks at one time.) 2 T. butter,
1 C. orange juice and 1 C. dry
red wine. Roast 15 more min-
utes, basting every 7 minutes.

Then turn ducks BREAST
UP. Place two additional strips
of bacon on each duck. Roast
at 350 degrees for 2½ hours,
basting every 15 minutes. Cut
in half and serve very hot.
(The wine basting may be
omitted and water used in-
stead.)

WILD RICE

A regal side dish with the
ducks would be wild rice cook-
ed with mushrooms and toast-
ed chopped almonds. If you
cannot obtain wild rice, use
brown rice. Brown rice should
be soaked in tepid water for an
hour before cooking.

Use at least 2 quarts of
salted water to 1 C. of rice,
boiling the water and adding
the rice slowly so as not to stop
the boiling. Cook 20 to 30
minutes, then drain thoroughly,
steam if necessary. If using
wild rice, just boil it until
the grains open up, then drain
and steam. Saute the rice
slightly in butter. Also saute
the sliced mushrooms in butter
and pour over the rice. Toast
blanched almonds in butter
until brown; chop and sprinkle
over rice and mushrooms. The
rice may also be served in the
form of a ring with the mush-
rooms and almonds poured
over.

COFFEE (TIME) overflows

Two weeks ago we had one very fine recipe which was not printed in the COOK of the Week column. The recipe was supplied by Alta Wright.

PICKLE RELISH

- 6 C. chopped green tomatoes
- 6 C. ripe tomatoes peeled and chopped
- 4 C. chopped onions
- 2 C. chopped celery
- 1 C. chopped red peppers
- 1 C. chopped green peppers
- 2 C. chopped cabbage
- 1/4 C. salt

Mix all together and let stand over nite. Then pour into strainer and drain thoroughly.

Syrup mixture follows:

- 6 C. vinegar
 - 6 C. sugar
 - 2 t. cinnamon
 - 1 t. cloves
 - 1-3 C. white mustard seed (if unavailable use all yellow)
 - 1 T. yellow mustard seed
- Mix ingredients and add drained vegetables. Simmer 45 minutes or until thick.

DRESSING, ANY ONE

With Thanksgiving to be with us in three weeks, we are looking for some good dressing, or stuffing if you prefer, recipes. I know most of you have a recipe you probably use year after year, and I would like to be able to share it with you and our other friends of Coffee Time. So get out your pencil and paper; jot down the ingredients and send it along to me. The week before Thanksgiving I plan to run a whole column on favorite dressing recipes. I hope yours will be among them. My address is Leona Farley, Route 1, LeClaire.

Type can't be compressed once it is set, so to use an allotted space, the only alternative is to pull a portion. This we did last week, but we didn't go quite far enough. Now that you have dangled for a week, here is the complete paragraph, the first few lines of which appeared in COFFEE TIME.

In connection with the above subject, I remember reading a little poem written by a man (his name escapes me) that went something like this: Perk hats and chic dresses In our house cause financial messes, But guns, golf clubs and rifles Can be marked off as trifles.

Ever notice how some husbands who will walk a mile for a cigarette, can not make it across the living room for an ash tray.

Jimmy Durante once announced proudly that he had won a tango contest. "Here's a picture of me, the goil and the silver cup to prove it," he continued. "That ain't no goil," scoffed his drummer, Jack Roth. "That's a kangaroo." Durante clapped his hands to his sides. "That explains everything," he cried. "I thought I was jumpin' mighty high a coupla times!"

After you have cut a cake, place a piece of bread next to the cut part of the cake and pin it with a toothpick. The air, this way, strikes the bread and leaves cake slices fresh.

It is the cast of **FLYING HIGH**, even though one member, Wesley Schmalz, isn't flying so high at the moment. Giving attention to the prone actor are Joan Suiter (left) and Beulah Havenhill (right). Standing, left to right, Robert Porter, Rozella West, Gloria Wolfe, Carol Ann Beuse, Robert Carter, Robert McClimon and David McLaughlin. The play will be presented at Community Hall, Friday and Saturday.

4-H Clubs —

The big news the past week, in 4-H club circles, was the county convention held in Davenport.

Combined efforts, as a team, was recognized by way of awards presented to township clubs. Individual efforts were also rewarded, through achievements awards to members.

We extend congratulations to the clubs and their members — for a job well done!

Winter Carnival —

HURRY! HURRY! HURRY! The main attraction is about to start on the inside! In case you haven't guessed — that is a barker's lingo.

There will be plenty of the carnival atmosphere, Friday evening at the Princeton school when the P. T. A. sponsors its Winter Carnival.

The proceeds will be used to purchase play-ground equipment for the school.

Programs have been scheduled for the various rooms. Don't bother to eat at home because there will be plenty to eat on the midway. A King and Queen, selected from the first two grades, will be crowned. All of this plus other attractions.

It will all add up to an entertaining evening — so, plan to attend!

Book Week —

Did you know that there are over 1000 books from which to choose in each of the libraries at Le Claire and Princeton?

The libraries are operated as branches of the Scott county library and function through the library at Eldridge. There is also a mobile unit as part of the county-wide operation.

In addition to children's books there are many adult fiction as well as non-fiction books, in almost every field. Magazines may also be taken out.

School children, it is reported, are taking full advantage of these public facilities. Adults are also invited to use the service.

If the desired subjects are not available, locally, they will be secured from Eldridge or the Davenport public library, for you.

We are fortunate to have these facilities — many areas are not so equipped. The best expression of appreciation is evidenced in the way we use these important facilities.

COFFEE TIME

by

Leona Farley

From snow to spring-like weather, and when you read this — well, when it comes to weather your guess is as good as mine, what it will be — so let us rest a few minutes and enjoy our cup of coffee.

Many wonderful scientific inventions have been made possible in our century but nothing has yet been invented that could measure the infinitesimal part of a second, that passes by from the time the light turns green until the man behind you honks his horn.

When butter is too hard to be used easily, instead of putting it on the stove to melt, heat a bowl or pan and place over the butter.

Have a little girl on that Christmas list? Buy a pack of the regular sized tea towels, cut in half and hem. Then stamp, embroider or paint the days of the week on them for use in doing her dishes. Small Mother Goose characters could also be drawn in one corner.

DAFFYNITION — Accident — what could happen when a motorist hugs the wrong curves while driving.

Next week is Thanksgiving — have you your menu planned — are you having the family gathering at your house or are you going home to Mom and Dad's? I hope all of you, as you sit down to that table laden with so many, many good things will try to remember to say a prayer of thanks, even if it be just a sentence — let HIM know.

Recipe for a good day

Take two parts of unselfishness and one part of patience and work together. Add plenty of industry. Lighten with good spirits and sweeten with kindness. Put in smiles as thick as raisins in plum pudding and bake by the warmth which streams from a loving heart. If this fails to make a good day, the fault is not with the recipe, but with the cook.

THIS IS BOOK WEEK —

How many of you have visited your library lately for a good book? Libraries and the books they carry therein on the shelves are as important to a community as the school, church and local government. so give it your support. The library is no dull, tomb of a place because the books, which have been written, on almost any subject or country in the world, makes it an exciting wonderland. Here we have library facilities both in LeClaire and Princeton, and if you can not find a book you are looking for I'm sure the librarians will be happy to get it for you.

Thought For The Week:

As is a tale, so is life: not how long it is, but how good it is, is what matters. — Seneca.

TOMATO SAUCE

2 T. flour
2 T. butter
1 C. tomato juice
Salt, pepper and sugar to taste.
Dash of paprika
Melt butter and stir in flour to make a smooth paste. Add liquid gradually and let thicken. If a more tart sauce is wanted add 1 can of Hunt's tomato sauce and 1 can of water. Simmer slowly. Save part of the finished sauce to serve hot with fish.

THANKSGIVING

DRESSINGS

Here they are, gals, a variety of stuffing recipes for those birds that will decorate your Thanksgiving table — Wish you all luck and a Happy Thanksgiving!

FRUIT DRESSING

Submitted by Mrs. James Wright
Cook 1 lb. of prunes and pit. Add 2 lbs. raisins, about 3 lbs. chopped apples, 1 C. sugar, 1 t. cinnamon, about 6 slices of cubed bread and 4 oz. wine or more if desired. Mix ingredients together. This makes enough stuffing to fill a large fowl.

BREAD STUFFING

Submitted by Mrs. Harry (Ethel) McConnell
(1 qt. for 4 lb. chicken)
Use day-old bread and cut off crusts.
4 C. coarse crumbs
Melt 1-3 C. fat in large skillet, add ¼ C. minced onion and cook until onions are yellow.

½ C. chopped celery (stalks and leaves)
2 t. salt
¼ t. pepper
1 t. dried herbs (sage or thyme)

poultry seasoning
Mix all ingredients together lightly. For dry stuffing, add little or no liquid. For moist dressing, mix in lightly with a fork just enough hot water to moisten dry crumbs. Cool and place stuffing in bird.

SAGE STUFFING

Submitted by Mrs. George (Grayce) Maag
Grind giblets (liver, gizzard and heart) and a large onion in a skillet. Add about 1 T. butter and brown ingredients well, stirring occasionally.
Moisten 1 loaf cracked wheat bread (white bread also may be used or half and half) and drain off excess water. Add bread to giblets and onion together with 1 t. poultry seasoning, 1 t. sage, 1 egg (well beaten), and salt and pepper to taste. Mix lightly together. Add more water if desired for moist dressing. Put as much of the dressing as will go into your fowl and the remainder can be put into a cheese cloth bag and dropped in the bottom of roaster. Baste with liquid from bottom of pan.
This stuffing may also be used with roast beef or pork by simply omitting the giblets. Instead of potatoes serve with noodles cooked in salted hot water; drain and top with browned bread crumbs.

BAKED STUFFED FISH

Submitted by Mrs. George (Grayce) Maag
Clean and wash fish thoroly. Rub fish well inside and out with salt and pepper and dredge outside in flour. Do not stuff fish too full and sew up. Place on slices of bacon in rack in roaster. Also put a few bacon slices on top of fish. Bake at 350 degrees and baste when partly done with tomato sauce. Keep a little water in the bottom of roaster. Following are the stuffing and tomato sauce recipes for the fish:

STUFFING

1 C. bread crumbs
1 t. onions, chopped fine
¼ t. salt
1 t. chopped parsley
2 egg yolks or 1 whole egg
¼ t. pepper
¼ C. melted butter
Mix all ingredients well together.

Jan and Grace fouled out in the 4th quarter to be replaced by Pat Reep and Loretta Thompson. A well fought game, but a losing one for Le Claire, with a score of 63-50, with Charlotte the winner. COOK of the WEEK

CAROL GRAHAM

Honoring us this week with some recipes that are favorite: with her family is Mrs. Carol (Leonard) Graham, Princeton.

Carol is very busy, specializing in caring for 1,100 chickens.

The chickens are housed in special building with each hen having its own cage. The cages are double-decked. As soon as the egg is laid it rolls to the front so the hens never have a chance to "sit" on them.

Records and charts are kept on each hen. All this is for just one purpose. Carol said, and that is to produce top quality eggs.

Yes, she has a helper — Stephen, who is a fourth grade student in the Princeton school. It is Stephen's job to gather and mark the egg charts.

Carol also enjoys cooking and one of her favorite pleasures is flowers of all kinds, and roses in particular. She is also active in church work and with the Princeton P.T.A.

Following are three of Carol's recipes:

FROZEN

FRUIT - COCKTAIL SALAD

2 eggs, beaten
2 T. vinegar
2 t. sugar
12 marshmallows
1 No. 2 can fruit-cocktail
¾ C. heavy whipping cream

Combine eggs, vinegar and sugar in double boiler over hot water, stirring until thickened. Add marshmallows and cook until melted. Remove from fire and cool while continuing stirring. Then add fruit, which has been thoroughly cooled and drained. Fold in whipped cream and pour into freezing trays. Freeze until firm without stirring. Cut into squares and serve on lettuce with or without mayonnaise. Serves 8.

CRANBERRY SALAD

1 qt. cranberries, ground
1 apple, unpeeled
2 bananas cut in small pieces
Mix all ingredients together; add 2 C. sugar and let stand overnight. Next morning dissolve 1 pkg. of cherry jello, according to directions on the package, and add cranberry mixture. Pour into molds and chill.

BACON AND CHEESE PUFF

Cook 1 C. elbow macaroni in boiling, salted water until tender. Drain. Combine:
4 egg yolks, beaten
2 C. soft bread crumbs
8 strips bacon fried and crumbled

2 C. warm milk
1 t. grated onion
½ t. worcestershire sauce
½ t. salt

To this add cooked macaroni and 2 C. grated sharp cheddar cheese. Fold in 4 stiffly beaten egg whites. Pour into a 2-qt. casserole. Place casserole in a pan of hot water and bake for 1 hour at 350 degrees. Serves eight.

Lincoln's Cousin Nears Age Of 102

— o —

Princeton's oldest resident and one of the last descendants of Abraham Lincoln is nearing his 102nd birthday. David Warren Hanks, cousin of Lincoln, through relationship of Nancy Hanks, Lincoln's foster mother, was born June 23, 1850 in Albany, Ill.

He has made his home with his daughter, Mrs. George Pinneo.

Wednesday Mr. Hanks was taken to Egger nursing home at 502 West Fifteenth Street, Davenport, after suffering an attack of pernicious anemia Tuesday, according to his daughter. He has been subject to the attacks for some 20 years, she said. But he was reported recovered and in normal health today, and will be able to receive callers at the nursing home.

Although his hearing and sight are impaired, he is remarkably alert, recognizes callers and his mind is "as clear as a bell." He continues to go up and down stairs by himself and walks about the house with the aid of a cane and a chair. Mr. Hanks also maintains an avid interest in ancient history.

A former teacher, he enjoyed Memorial day, having his daughter, Mrs. Arthur Diemer of Davenport, also a former teacher, read to him.

No special observance is being planned for his birthday anniversary, but friends are welcome to call and offer congratulations.

Princeton Organizations Gird For Crossing Fight

—O—

Road Improvement Petitions Circulated

PETITION

TO THE HONORABLE GOVERNOR OF THE STATE OF IOWA, AND TO THE HIGHWAY COMMISSION:

We, the undersigned, being citizens of Eastern Iowa, respectfully request that the improvements to be made to U. S. Highway No. 67, be extended at least to the limits of the Town of LeClaire. We further request, specifically, that such improvements include the relocation of a portion of the highway to pass around the base of the hill opposite the Davenport Country Club in order to eliminate two steep and hazardous grades as well as numerous dangerous curves. A majority of the residents of The Eastern Iowa community find employment in the Quint Cities, and must traverse this road twice a day. This is an extremely hazardous road, even in good weather, and during the winter is often impassable. Therefore we request your consideration of this important matter during the 1955 session of the legislature.

Think It Over!

By Jim McMeekin

The Weekly News, your community service newspaper, has experienced its share of growing pains. Probably more to come.

This issue was printed on a newspaper press saved from a scrap man's cutting torch. The press served the Wilton Advocate (Iowa) for many years, but was retired six months ago, giving way to a larger press. We believe that the press, though old, will serve us adequately with equal faithfulness.

The smaller, automatic press which we have used up to this time, limited the size of the paper both in column width and number of columns. With the press just installed we can use a standard width column and print up to 7 columns on each page, if news and advertising warrants.

This issue, like those before it, is a five-column make-up, but increased slightly in width and height to compensate for the new column measure.

The local-interest photos missing in the past few issues is due to an unforeseen drainage problem. The situation will be corrected as soon as possible.

Our objective is to render a worthy public service and to that end we solicit your subscription and advertising support.

HAPPY NEW YEAR TO YOU!

How many New Year's resolutions did you make this year — and how many of them have you kept so far? Well, anyway, we hope that one of your resolutions will be to relax with us each week while we have a cup of coffee and visit.

After having a week's vacation from our column it seems good to be back with you again. Have you noticed that the first week in January seemed rather bleak? The Christmas tree has been stripped of its ornaments and set outside. The children's new toys set motionless around their room as they trot back to school — and in the kitchen, the only reminder of the holidays are a few left-over cookies, a piece or two of fruit cake and a half-dish of assorted candy. Oh yes, and two cups of stale coffee in the percolator. But I notice the mistletoe still hangs — hmmm — !

The ol' timer says that you can tell a lady by the perfume she wears — and you can tell a gentleman by the way he reacts when he smells it!

Remember your discarded Christmas tree tied with bread crumbs or tallow makes a nice haven for the birds during cold weather, especially when there is snow on the ground.

To prevent smoke odors and hot cakes from sticking, rub your gridiron with a small bag filled with salt. Use this instead of grease.

A heavy snowfall like we just had is the best thing I know of to remove the rust from the snow shovel. But what is the remedy to get the kinks out of one's back?

A telephone company received a letter which read in part: "When are you going to put the wires underground and eliminate the unsightly poles?" signed "Woman Driver" !

COOK of the Week

SALLY DOMER

This week you and I are peeking into the kitchen of Mrs. Sally (Dale) Domer for some of her family's favorite recipes, and find out about a few of her interests.

Sally has worked with the Girl Scout organization for six years and she also enjoys sewing and painting — which takes up most of her time aside from her household duties. Altho Sally does sew for herself, most of her sewing is done for her daughter, Sandra, who is a student in the Princeton school. Sandra has a collection of dresser dolls and the man of the family, Dale, collects miniature horses.

Following are Sally's recipes:

FROSTED LIME-WALNUT SALAD

1 pkg. lime-flavored gelatin
1 C. boiling water
1 can (No. 2) crushed pineapple
1 C. small-curd cottage cheese
1/2 C. finely chopped celery
1 T. chopped pimiento or stuffed olives
1/2 C. chopped walnuts

Dissolve gelatin in boiling water and cool until syrupy. Add the remaining ingredients. Stir and pour into an 8x4x4 inch loaf pan. Chill until firm.

A frosting of one 3 oz. package of cream cheese, 1 T. mayonnaise and 1 t. lemon juice may be spread on top when salad is ready to serve.

FAVORITE APPLE PIE

Prepare two crusts for a ten-inch pie tin. For filling use:

2/3 C. sugar
1 T. flour
1/4 t. cloves
1 t. cinnamon
Mix thoroughly together and put half of the mixture into bottom of pie shell. Add 5 C. sliced apples, then 1/2 C. chopped walnuts, and 1/2 C. raisins mixed together. Sprinkle 1 T. lemon juice on apples, add remaining ingredients. Place top crust and bake at 450 degrees for 10 minutes, then 350 degrees for 20 minutes or until apples are done.

QUICK MEAL

To prepare fowl or wild game for a meal quickly, use your pressure cooker. After cutting up fowl, brown the pieces and place in the cooker. Add 1/2 C. water and let cook on a low flame for 15 minutes after weight jiggles. Reduce pressure instantly and your meat is ready to serve.

GENERAL MERCHANDISE

COFFEE TIME

by
Leona Farley

I have always wished that I would have the energy next spring and summer that I imagine I have now while leafing thru the new seed catalogs planning a garden.

Somewhat it all seems easy to work out on a piece of paper — a nice big garden with lots of vegetables and flowers — but then comes spring and time for spading the plot. That is when I end up with a garden about a yard square.

Anyway lets you and I have a cup of coffee together and leaf thru all the nice new spring and summer catalogs that are arriving in our mailboxes.

The mailman may have thought the Boxholder containing coupons and advertisements a headache — but now I have heard that a mail order catalog is offering real live ponies, birds, dogs and even Mexican mules. What will they think of next?

Lady speaking on phone over a party line was heard to say: "My front doorbell is ringing. Hold the phones."

Thinking of laying new linoleum this spring? Use a rolling pin to roll out the air pockets for a tight, permanent seal.

You can have an ottoman to match any chair by simply covering a wooden box and a foam rubber cushion with the same material used to slip over the chair.

DAFFYNITION — Snoring is what might also be called "Sheet Music".

If your scatter rugs have a tendency to curl up, vacuum clean them on both sides. Then apply a thin coat of white shellac to the underside.

Two flies were enjoying a walk on a ceiling, when one remarked: "Aren't those people who own this house silly?" "How do you mean?" asked the other. "Well," said the first, "they spend a lot of money building a beautiful ceiling like this: then they go walk on a plain wooden floor."

Paint and string on tape measures empty thread spools to make unusual tie-backs for sewing room drapes.

All of the children with the exception of one, had handed in the homework that the teacher had given them. When the teacher asked the little fellow why he did not get it done, he replied: "Haze you ever tried getting some homework done on a night when somebody finally proposed to your sister?"

A man was arraigned for assault and brought before the judge. Judge: "What is your name, occupation and what are you charged with?" Prisoner: "My name is Sparks; I am an electrician and I am charged with battery." Judge: "Officer, put this man in a dry cell."

COOK of the Week

ELAINE CRAWFORD

The recipes we have this week to pass along to you are thru the courtesy of Mrs. Elaine (A. Vern) Crawford of Route 1, Le Claire.

Elaine is the mother of two children, Verlaine Kathy and Roger, both students at Cody elementary school. When I asked Elaine what her hobby was, she replied, "Housework — but she added that she also enjoys music and reading."

The following are three of the recipes that Elaine's family finds quite tempting:

LIMAS AND SPARERIBS

2 C. or 1 lb. dried lima beans
6 C. or 1 lge can tomato juice
3 t. salt
2 lb. spareribs
1 t. salt
1 med. onion, chopped
¼ t. black pepper
1 t. tabasco sauce
1 t. dry mustard
½ C. unsulphured molasses
Wash beans; soak overnight in 5 C. tomato juice. Add the 3 t. salt; cover and simmer until beans are tender. DO NOT BOIL. Pour half the beans over a casserole. Rub 1 t. salt over spareribs and place in casserole over the beans. Add onion. Mix remaining ingredients with 1 C. tomato juice and pour over the beans. Bake 1½ hours in moderately slow oven (350 degrees). Uncover and bake 20 to 30 more minutes. Serves 10.

COFFE CAKE OR ROLL

½ C. sugar
2 C. flour
1 T. margarine or butter
1½ T. salt
Mix the above as for pie crust. Warm ¾ C. milk and pour ¾ C. over the mixture. Add 1 small cake of compressed yeast, which has been dissolved in the remaining cup of warm milk. Add enough flour to make a stiff dough.

(To save time the shortening can be melted in warm milk.) Let rise in a large greased bowl for about two hours and then form either into rolls or coffee cake. Let rise again until double in size and bake in a 350 degree oven until golden brown. If you do not want to use the dough right away, the formed rolls or coffee cake may be put in the tins and placed in the refrigerator. In case the dough has been kneaded down recently it may stand awhile at room temperature to rise more before baking. This same recipe can be used in making bread by just omitting the sugar.

CHERRY PUDDING

½ C. sugar
Butter the size of an egg
½ C. milk
1½ t. baking powder
¾ C. flour

PRINCETON SCHOOL ROOM ENLARGED —

Telephone Company Changes Bill System

Something new has been added in the LeClaire and Princeton Telephone Exchanges office in Princeton.

The subscriber lists of the exchanges continues to grow and the number of toll tickets has also increased.

You will, no doubt, recall that several months past the due-date for the Princeton exchange was shifted from the 1st to the 15th of each month. This was necessary to spread the billing work.

Much of the billing work is done by the operators in the time they could find away from the switchboard. Due to the increase in the number of phones and their increased use, less and less time has been available for accounting work.

The owner, Russell Eneart, decided that if some of the hand-work of billing could be reduced, they could serve users more quickly and a little more perfectly.

A new addressing machine was installed. The machine addresses all billing forms correctly, three copies each — in less than one hour. Previously, by hand, the job consumed many, many hours of tedious work.

There is still much hand-work which remains to be done. For instance, in December there were over 6,000 toll tickets to be sorted and filed — according to telephone numbers.

Near the end of the 30-day billing period, these tickets are all itemized to supply subscribers with as much information as can be reasonably given with the monthly statement.

A new Burroughs billing machine has also been installed.

The billing machine enters the amount of telephone rent plus federal and state tax; tax on tolls, if any; miscellaneous charges (installing, moving, etc.) with a code indicating the nature of the charge; balance from previous month, if any; and the total amount of the bill. The machine enters the amounts in the proper spaces and makes three copies in one operation.

Mr. Eneart stated that the total amount is due on the date shown, which allows twenty days to pay for the service. He also indicated that if there are troubles, problems or questions concerning any phase of telephone service or billing method, he is anxious to answer your questions and be of help.

MUSIC IN THE AIR — PART TIME

There is "Music in the Air" — part time, at least — in Johanna Fawcett's third and fourth grade class rooms in the Princeton school.

The fourth grade boys "purchased" a radio, yes a real one — on FUN-TV, a subsidiary of WOC-TV in Davenport.

The transaction took place on Saturday and the reported purchase price was 8,000 Iowa milk labels.

PRINCETON — Over-crowding of school facilities is being felt in the Princeton school.

There are 12 kindergarten youngsters attending school for a half-day in the morning. This class is held in a basement room.

During the morning session — while the kindergarten uses the basement space — the first and second grades, a total of 38 pupils, are combined in one room under the charge of one teacher.

In the afternoon there is not a kindergarten and the first graders, twenty in number, are moved to the basement room and are taught by Mrs. Eneart. Mrs. Helbe then has only the second grade of 18 pupils in her room.

Since Monday a carpenter has been busy in the basement. A partition between a room previously used for kitchen purposes and an adjoining storage area has been removed to provide a second class room in the basement.

The kindergarten will use the additional space in the basement and the first grade class will occupy what was the kindergarten room.

It has also been reported that Mrs. Eneart will be engaged as a full-time first grade teacher. Under the present arrangement, Mrs. Eneart teaches the first grade in the afternoon only and Mrs. Helbe has both first and second graders in the morning.

In a preliminary game the LeClaire Junior High team won 27 to 18.

In a non conference game at Bennett Friday night, LeClaire's boys team won a close game 48 to 46. As the boys have done in the past they trailed closely through the game and in the closing minutes take the lead to win.

Bennett's girls won over LeClaire's five by a score of 53 to 27.

FURNACE 'PUFF' CAUSES SMOKE DAMAGE

PRINCETON — A hand-fired coal furnace in the home of Glen Miller's exploded about 3:30 Sunday morning and caused heavy smoke damage to the interior of the house.

Mr. and Mrs. Miller had departed a short time earlier on their customary rural milk route. He had tended the furnace before leaving.

The Miller's three children; Beverly, 12; Janice, 10 and Ellen, 8, were in bed and were awakened by the family's two toy-terriers.

The children apparently did not hear the noise of the "puff," if there was any noise. The dogs barking aroused the children, who upon finding the house filled with smoke telephoned Fire Chief Herb Peitscher.

Peitscher learned from the telephoned information that there was no evidence of fire and the furnace was only smoking. However, as a precautionary measure, he asked the telephone operator to remain at the switchboard until he could investigate.

LE CLAIRE — The Le Claire Civic Club held a re-organizational meeting and supper at the school Tuesday evening.

Forty-seven signed-up for membership in the club which has an announced purpose of working for the benefit of the community.

The following officers were elected; David F. Lawlor, president; Orville Gleason, vice president; John Boesch, secretary; Robert Ginn, treasurer; and Chester Martin, director.

Regular meeting night will be the fourth Tuesday of the month. An invitation has been extended to all interested persons to attend the next meeting and join the club.

The club will sponsor a celebration the first week in August.

Princeton Twp. Women Had All-Day Meeting

Thirty Princeton township Farm Bureau members and visitors attended the all-day meeting Wednesday in the home of Mrs. Raymond Hamilton. The recipes "Milk in the Diet" were used in preparing the noon meal.

Mrs. Orville Stewart presided during the business and reported on the training school and Candle lighting installation of all county chairmen by Mrs. Keppy. Mrs. Harry McConnell reported on "Publicity" and Mrs. Warren Hamilton rendered a report on "Schools."

The group voted \$5.00 to the polio fund. The secretary read into the records a "thank you" from the nurse at Pine Knoll for the Christmas gift which the group had sent.

Mrs. Lettie Zuber presented the lesson stressing the necessity of milk in the diet. Mrs. Zuber stated "there is no over-production of milk, but an under-consumption."

The next meeting will be a meeting beginning at noon February 23 in the home of Mrs. C. Moorhead with a pot-luck dinner. "Selecting Becoming Clothing" will be presented by Mrs. Zuber. Roll Call is to be answered by a Washington or Lincoln quotation.

Upon arriving at the house, Chief Peitscher found the occupants outdoors. Inside, the house was filled with gas and smoke.

It was assumed that an accumulation of gas and smoke in the recently tended furnace had exploded. The force of the "puff" blew the fire-door open and dislodged the plug at the back of the furnace, scattering ashes around the basement.

Flames from the burning coal were coming from the open fire-door. Closing the door eliminated a serious threat of igniting the floor joists above the heating unit.

It was reported that the children were comparatively calm and had been well schooled on what to do in such an emergency. Peitscher reported that the occupants of the house had breathed the smoke-laden air for some time, inasmuch as their faces showed evidence of smoke with heavy collections around their noses. They apparently suffered no ill-effects from the experience.

Food for
160 Million
Americans

IT TAKES about 2 acres of farm crops to supply the 1975 pounds of food which the average American eats a year. To grow and get this food to your table requires money all along the line, and bank credit provides a substantial share of the funds.

Perhaps you haven't thought of it this way, but the money you deposit in the bank helps to build a credit pool which, directly or indirectly, supplies loans to farmers, farm machinery manufacturers, seed and fertilizer dealers, distributors and food markets, as well as others.

Whenever you deposit your money, or invest it, you are helping yourself two ways: You are providing for your own future and you are helping to provide the good things of life that make our American standard of living the highest in the world.

We'll welcome you as a depositor, or as a borrower, if your plans call for sound use of credit. Whatever your financial requirements may be, come in — let us serve you.

FALLING SNOW

See the pretty snowflakes
Falling from the sky
On the walk and housetop
Soft and thick they lie.

On the window ledges.
On the branches bare;
Now how fast they gather,
Filling all the air.

Look into the garden,
Where the grass was green;
Covered by the snowflakes,
Not a blade is seen.

Now the bare black bushes
All look soft and white,
Every twig is laden,
What a pretty sight!

Author unknown

Having had several requests for more salad recipes, I decided that this is a good time of the year to print them for you.

Salads have an important place in the daily diet not only because they furnish the essential mineral salts, phosphorus, iron calcium magnesium and lime which are necessary for health, but also because they add variety and color to a meal.

Health experts recommend serving a salad twice a day, to insure a sufficient supply of leafy greens, which are the best source of vitamins and minerals, and because they are important body-alkalizers.

There are three important points in making a green salad:

1. Freshness and crispness of the greens. Ingredients should be cold.
2. Quality of the olive (or salad) oil and vinegar. Oil should be fresh and sweet; wine (not malt) vinegar, or lemon juice, should be used.
3. Blending of the greens and dressing. Blend dressing before adding to chilled greens, toss lightly until each leaf is slightly coated with dressing, taking care not to crush the leaves.

CHIFFONADE SALAD

Romaine - Lettuce - Chicory - Escarole - Sliced Cucumbers - quartered tomatoes - French dressing. Blend equal parts of the crisp salad greens. Add French dressing and toss lightly. Add cucumbers crisped in ice water. Add tomatoes. Serve on chilled salad plates and garnish with chopped beets, chopped eggs and minced parsley.

EGG SALAD BOWL

8 hard cooked eggs, halved
4 C. shredded cabbage
4 tomatoes, cut in eighths
2 T. chopped scallions
Crisp chicory
1 C. French dressing
¼ C. sweet pickle relish
2 t. dry mustard, dissolved in a little hot water
2 t. sugar
Add relish, mustard and sugar to French dressing. Arrange all ingredients in chilled salad bowl and add amount of dressing to suit taste.

SUPPER SALAD BOWL

1 C. shredded, cooked tongue or ham
¼ C. cooked vegetables
6 scallions cut into 1 in pcs
½ bunch water cress
½ head escarole
½ head romaine
6 radishes, sliced
¾ C. sliced raw carrots
¾ C. sliced American or swiss cheese

French dressing
Have all ingredients cold. Blend and serve in a salad bowl.

RHUBARB SALAD

2 C. rhubarb, cut in pieces
2/3 C. sugar
1 T. gelatin
½ C. cold water
¾ C. chopped nut meats
1 C. chopped celery
1 T. lemon juice
Simmer sugar and rhubarb a few minutes. Soften gelatin in cold water, then stir into rhubarb and cook one minute longer. Remove from heat, add a drop or two of red coloring, and cool. When mixture begins to thicken add nut meats, celery and lemon juice. Pour into mold. Serve on shredded lettuce and topped with mayonnaise if so desired.

WILD RICE SALAD

Blend cooked (dry) wild rice with an equal part of crisp diced celery, diced pineapple and seedless raisins (moistened in grape juice). Turn into a salad mold brushed with olive or salad oil and chill. Unmold on crisp salad greens and serve with cooked or mayonnaise dressing. Garnish with stuffed olives.

SWEET POTATO SALAD

2 C. cooked sweet potatoes
1 C. chopped celery
1 small chili pepper, diced
¼ C. French dressing
1 C. sliced, cooked ham
Boil potatoes in jackets; peel and slice while hot, add chili pepper and marinate in French dressing. Just before serving, blend all ingredients with enough mayonnaise to moisten. Serve on crisp lettuce and garnish with quartered stuffed eggs.

PARSNIP SALAD

Blend boiled, chilled, sliced parsnips; crisp celery and walnut meats with a well-seasoned mayonnaise and serve on crisp salad greens or lettuce.

STRAWBERRY

DESSERT SALAD

2 C. large strawberries; ½ C. cream mayonnaise; 6 ripe peaches or fruit in season and ½ head crisp lettuce. Arrange peach halves on crisp lettuce. Add strawberries and mayonnaise. Serve cold.

When the color cakes of a child's water color set come loose from their backing, they can be stuck in place again with clear nail polish.

Princeton Plans For Little League Baseball

FIRE DAMAGES FARM HOME NEAR FOLLETT'S

Fire, shortly after noon Sunday, caused heavy damage to the farm home of Lawrence Metzger a mile north of Folletts.

The blaze believed to have been started by chimney sparks on the wood-shingle roof had gained considerable headway before it was discovered.

Low Moor and Princeton fire departments responded to the alarm. Equipment from Low Moor, a truck and two tankers, reached the scene first. Shortly afterwards a truck and tanker arrived from Princeton.

When the Low Moor firemen arrived at the farm the east end of the south slope of the roof was ablaze. The fire had also burned through the roof and into the ceiling and wall of an upstairs bedroom, igniting the bed and other furnishings.

The fire was quickly confined to the same general area, but it was necessary to cut a hole in the roof to reach the fire between the upstairs ceiling and roof.

Furniture was removed from the living room directly below the burning area. A large quantity of water was needed to control and quench the blaze. Water seeped through the second floor and loosened wallpaper and some plaster.

In an effort to minimize the water damage a trap trough was improvised to direct excess water out a second floor window. Firemen also scooped water from the bedroom floor.

After the fire was extinguished the bedroom ceiling was braced to prevent its collapse. The burned out portion of the roof was left uncovered to hasten drying of the interior framework.

The Metzger family had finished their Sunday dinner and were about ready to leave for the afternoon when the fire was discovered. Inasmuch as the fire was confined to one upstairs bedroom the family will be able to continue living in the house. Repair work will, no doubt, be started at once.

Brother of Mrs. Portz Buried at Bellevue, Iowa

A brother of Mrs. Anthony Portz of Princeton was buried at Bellevue, Iowa on Tuesday.

Gregory Rolling, age 40, died late Saturday afternoon in a Bellevue hospital. Last rites were said at 9:30 a.m. Tuesday in St. Joseph's Catholic Church.

Mr. and Mrs. Portz drove to Bellevue Thursday and returned again Saturday.

Mrs. Mildred Wilson, Mrs. Marge Dreschele and Mrs. Rhoda Evans were members of the purchasing committee.

Football, basketballs, softballs, bats and playground balls were purchased. These items are now being enjoyed by the pupils.

A jungle-gym has been ordered and will be erected upon arrival.

LE CLAIRE TEAMS PLAY IN SECTIONAL MEETS

Boys Team Loses

To Bettendorf

A bid for class "A" sectional honors by the Le Claire boys basketball team was short lived at Bettendorf Tuesday night when the host team defeated the Hornets 83 to 48.

Area sports writers indicated a slight edge for the Le Claire team based on their conference record as compared to that of their opponents. Coupled with the high per-game scoring of team Captain Eldon Kitchen the Hornets had a better than average chance of advancing to district competition.

The do-or-die spirit of tournament play does strange things to statistics — so as the local basketball record book is closed for another season we can only say — "better luck next year."

Five Players Graduating

LE CLAIRE — Five seniors, three boys and two girls, concluded their high school basketball activities the past week in tournament play.

Babe Thompson and Grace Randolph, Co-Captains of the girls squad will graduate in June.

Relative of Local People Buried at Oxford Jct.

Arthur J. Skinner, age 85, an uncle of Mrs. Ira Schwab, Princeton, and Mrs. Grace Bacon, Camanche, died Sunday afternoon at a Cedar Rapids hospital.

Funeral services and burial were held Wednesday at Oxford Junction, Iowa.

Mr. Skinner was born at Bedfordshire, England, and came to this country as a young boy.

Mrs. Schwab and Mrs. Bacon are sisters and together with Mr. Schwab attended the funeral.

Claeys Honored at

Farewell Party

Thirty five members of St. James Parish honored Mr. and Mrs. Alphonse Claeys at a party. The Claeys are moving to DeWitt. After games the couple was presented with a gift from the group.

Mr. and Mrs. Everett Stahmer will move to the Claeys farm.

Mr. and Mrs. Will Rogers Observe 35th Anniversary

The Thirty Fifth Wedding Anniversary of Mr. and Mrs. Will Rogers of Princeton was observed by two separate events.

On Sunday evening Father Finefield, an uncle of Mr. Rogers, entertained the Rogers and other nieces and nephews at an anniversary dinner in Clinton.

Monday night, Mr. and Mrs. Rogers were joined by a number of friends at a dinner party at the Blackhawk Hotel in Davenport.

COMMITTEE APPEALS FOR COMMUNITY SUPPORT

Few Dollars and Volunteer Help is Needed to Provide Worthy Youth Program

A group of thirty interested people met Wednesday evening in the Princeton school to discuss the possibility of Little League Baseball in Princeton.

The local committee needs people to assist in the various phases of team training and management. Money in the amount of \$275.00 is also needed to purchase the franchise, team insurance, liability insurance, uniforms, caps and players protective equipment.

Boys, ages 8 to 12, inclusive, are eligible to participate. Needless to say the training and experience would be of benefit for future sports activities, to say nothing of an organized activity to occupy the boys in the community.

In this area, Clinton will have eight Little League teams and Camanche is reportedly ready to put two teams into the program.

A spokesman for the local committee indicated that the time element is an important factor in securing the franchise and handling other organizational details.

For your convenience a form is printed below for you to indicate the assistance that you will give. Fill in the form promptly and mail to: LITTLE LEAGUE COMMITTEE, PRINCETON, IOWA.

We regret the necessity of having to skip last week's issue. The majority of this news was intended for last week.

A combination of working a week on the midnite 'til eight shift, extreme weather and a severe head cold caused the delay.

Hereafter our publishing day will be Friday of each week.

Princeton Town Council OK's Refuse Pick-up

Harold Hill appeared before the Princeton town council Monday night to outline a proposed scavenger service.

The Council voted to give the applicant permission to pick up garbage, ashes, cans and other refuse within the town limits.

THINK IT OVER !

We "exchange" papers with our good friend, Perry Buxton, editor of the WHEATLAND GAZETTE. Perry has been in the newspaper business a long, long time, as was his father.

One of his many typical expressions is "If this newspaper is worth borrowing — it is worth a subscription."

We agree!

In an effort to make this newspaper easier to read we have added a little more space between the lines. We try to style our writing so you won't have to read between the lines.

A different type face for headlines has been used for several issues, which we believe is an improvement. The type, by the way, was used by our neighbor to the north — The Clinton Herald.

We believe in giving credit — where credit is due. Our reporters are doing a fine job and are furnishing far more news than appears under their respective columns. Many of the separate items and stories are supplied by our writers, but in a paper of this type it is not the practise to show "by lines."

We also appreciate the news material furnished by other individuals, clubs and organizations.

In the very near future this newspaper, in conjunction with several interested civic groups will present a Community Project for your consideration and support

COOK OF THE WEEK

KATHERINE RAMSDALE

YUM! YUM! There are some real delicious oven-dish recipes for you this week through the courtesy of our guest cook, Mrs. Katherine Ramsdale, who is the wife of the Rev. C. S. Ramsdale of the Argo United Presbyterian church.

Katherine is the mother of four children; two daughters are married, one lives in LaCrosse, Wis., and the other in Downers Grove, Ill.; Margaret is a senior at Monmouth College at Monmouth, Ill.; and Joe is a freshman at the same college. She also has two grandchildren. The hobbies of Mrs. Ramsdale are music and crocheting.

Following are three of her recipes:

SPICED RIB CASSEROLE

2 lbs. spareribs,
cut in two rib pieces
2 T. brown sugar
½ t. salt
¼ t. ground cloves
¼ ground ginger
1 T. Worcestershire sauce
1 14 oz. can pineapple tidbits
½ t. onion salt
3 one-pound or two 2½ oz. cans baked beans
¼ t. ground cloves
¼ t. ground ginger
Arrange ribs in 8x12x2 in. baking dish. Combine brown sugar, salt, the ¼ t. of cloves and ginger, Worcestershire sauce and syrup drained from pineapple. Spoon half of this mixture over ribs, then sprinkle with onion salt. Bake uncovered for one hour in 350 degree oven, basting frequently with pan drippings.

Remove ribs and set aside; then pour off any fat from baking dish. Combine baked beans, pineapple tidbits and remaining ingredients in the baking dish and arrange ribs on top. Spoon remaining pineapple syrup mixture over ribs and return to oven. Bake uncovered 45 min. longer until beans are hot and ribs are brown and crisp. Yield: 5-6 servings.

CROWN ROAST OF WEINERS

16 weiners
2 T. chopped onion
4 slices bacon, diced
3½ C. or No. 2½ can sauerkraut
3½ C. or No. 2½ can cooked potatoes
¼ C. melted butter or margarine
¼ C. finely chopped parsley
Run a string through weiners one inch from top and another string one inch from bottom. Tie together forming a circle and stand up on heat-resistant platter. Saute onion and diced bacon together until brown. Place sauerkraut inside the weiner ring and top with onion and bacon mixture.

This is my Valentine

Greeting to you.

Well, I'll admit that I'm no Longfellow — so come on let's go to the kitchen for a cup of coffee. Valentine's Day is just around the corner and it seems to bring out the poet in the most of us.

I read a Valentine greeting that a young swain penned to his gal, that went something like this:

The gladdest words of tongue or pen

Or music unsurpassed —

Will be when I can purr to you: "Alone at last!"

My ol' timer friend says:

"If you continue to look backward while trying to go forward, you are bound to stumble along the way."

A ceiling-high valance hung over a wall-to-wall tub will hide the shower-curtain rod. Cover the wood with waterproof plastic.

To provide an airtight seal for a can of paint that has been opened and partially used, store the can on the shelf in an inverted position after pressing the cover shut as tight as possible.

THOUGHT FOR THE WEEK:

All I have seen teaches me to trust the Creator for all I have not seen. — Emerson.

Dip potatoes in melted shortening; roll in parsley and place around weiners. Cover entire platter with aluminum foil. Bake in 350 degree oven for 45 min. Yield: 8 servings.

HAM CASSEROLE with PINEAPPLE SLICES

1½ C. finely diced cooked ham
2 C. cooked rice
6 slices pineapple
¾ C. milk
½ t. salt
1 T. melted butter
½ C. water
¼ C. grated green pepper
2 T. grated onion
1 T. prepared mustard
Simmer the onion and green pepper in the water until tender. All of the water should be used. Add all the remaining ingredients except the pineapple slices and butter. Cook until most of the milk is absorbed, stirring constantly. Pour into a well-greased shallow oven dish about 10x6x2 in. Arrange slices of pineapple over the top, brush with melted butter and place under broiler for a few minutes until pineapple slices are lightly browned. Yield: 6 servings.

Wednesday, February 2, Janice Fries was hostess. Handkerchief gifts were given to Mrs. Erna Litscher for her birthday. Prizes were awarded to Mrs. Pat Tabor, Mrs. Erma Litscher and Mrs. Mary Matlock.

The next hostess will be Mrs. Beulah Havenhill.

Among top five —

A-3c Robert C. Atkinson, son of Mr. and Mrs. Lewis C. Atkinson, Route 1, Le Claire, has been cited as being one of the top five of a class recently graduated at Air Force Base Military Training Wing near Parks, Calif.

Mr. and Mrs. Lloyd Sierk Feted —

Twenty members of the Orvie Birney family helped Mr. and Mrs. Lloyd Sierk celebrate their birthdays at a supper. Wednesday night the bridge club surprised the couple and brought a ham dinner with all the trimmings. A dinner party was held Thursday noon with six friends in attendance and Tuesday night Mr. and Mrs. C. W. Kerr were dinner guests.

The Father of the Bride Said "THANKS!"

Recently we had a "thank you" call from the father of a new bride. This long-suffering pop said he would have gone "nuts" trying to handle even his end of the last-minute details without a telephone. Thus, another example of the convenience which low-cost telephone service brings.

Mr. and Mrs. James Jennings and family of Indiana called at the home of their uncle and aunt, Mr. and Mrs. Roy Bowley on Saturday. Mrs. Jennings was formerly Miss Thelma Zimmerman.

EVERYBODY PROFITS from profit. Here's how. Fifty years ago a good many men were going into the business of making automobiles—in the hope of making a profit.

Some of these men lost their investment, others made money. A few were very successful and they plowed back most of the profits into the business. Today the companies these men founded and nursed along provide more than 8 million highly-paid jobs—and automobiles for 45 million families.

Look at it another way. Forty years ago a good workman made about \$1.85 a day. Today the fellow with a comparable job makes \$12 or more a day.

Back in 1910-1915 money invested in production machines averaged out to about \$3500 per employee. Today the average employee has a "kit of tools" worth about \$12,000. These better tools were made possible largely by the profits that were plowed back into the business.

Profit is not only important to owners. It's equally important to employees and customers. Progress depends on profit.

A family's progress, too, depends to a large degree on its yearly "profit." Plan your family spending so that you can deposit part of every pay check in a bank account—here, we suggest.

Proposed Legislation

Agriculture committees of the Iowa senate and house have received from a joint subcommittee a proposed bill for the separation of the extension service and the Farm Bureau.

The Farm Bureau has indicated that it will not oppose the separation, providing that steps are taken to safe-guard the continuation of an effective extension service.

100 DISTRICTS - COUNCILS

The bill provides for the creation of 100 county agricultural districts. (One for each county in the state, except Pottawattamie, which will have two districts.)

Each county district will be controlled by a county council made up of one elected member from each township. The councils are to be organized to take over on August 1, 1955, but will serve only until the end of this year at which time full-term council members will have been elected.

SUPERVISORS SUPPLY FUNDS

The county board of supervisors will appropriate money for the county program.

A maximum budget has been specified which amounts to one-half mill on all property in the county, but not more than \$20,000. The director of extension at Iowa State College must certify the program before the appropriation can be made.

The county extension fund would be disbursed by the council treasurer.

EXTENSION PERSONNEL

The council would employ the necessary extension personnel from a list of qualified nominees furnished by the director of extension.

EMPHASIS ON COUNCIL

Having set up the basic structure for the county extension service the remainder of the bill deals with the election of council members and "do's" and "don't's" for the council.

Council members would be elected, one from each township for a two-year term. Terms would be staggered whereby only half of the council would be elected in a given year. Each member would be allowed to be re-elected once. Council members would not receive pay or expenses.

Council members would elect their own officers and the council would be charged with the responsibility of preparing and adopting an educational program of work related to agriculture, home economics and rural life.

It should be remembered that this is proposed legislation and the enacted law may differ.

COOK OF THE WEEK

MAXINE SCHARFF

Honoring us this week with some recipes is Mrs. Maxine Scharff of Le Claire, whose husband, Don, owns and operates Scharff's Appliance Store.

Maxine is the mother of three children; Bonnie, who is 13-years of age and a student in the seventh grade; and Wayne and Nancy Jo, who are seven and eight years old respectively and are in the second grade at school.

Taking care of the children, the housework and helping her husband in the store keeps Maxine pretty busy — so for hobbies she and Don spend their spare time in the winter months bowling and boating in the summer. At present they belong to two bowling teams, one is a mixed group and the other consists of Maxine and Don and Mr. and Mrs. Chappie Morgan.

Following are two of her family's favorite recipes:

PEANUT BUTTER COOKIES

- 1 C. shortening
- 1 C. white sugar
- 1 C. brown sugar
- 2 eggs
- 1 C. peanut butter
- Approx. 2 C. all purpose flour
- 1½ t. soda
- 1 t. baking powder

Cream shortening together with sugars, then beat in eggs followed by peanut butter. Sift flour, soda and baking powder together, then add to bowl and mix well. Form into little balls. Place on greased cookie sheet and criss-cross with fork dipped in flour. Bake at 325 degrees until brown. Makes two dozen cookies.

JAMBOLI

- 1 C. rice
- 1 can of tomatoes
- 1 slice of ham
- 1 small onion

½ t. salt

Prepare rice according to directions on package. Dice ham and onion together and fry until brown in skillet. Add all ingredients to rice. Place in a buttered baking dish and bake at 350 degrees for 30 to 45 minutes, or until brown on top.

A request for a very dark-colored chocolate cake recipe was received by me recently from Mrs. Leonard Graham.

After scouting around I believe I found a recipe that should make that type of cake. It is as follows:

DARK DEVIL'S FOOD CAKE

- 1 C. cocoa
- ¾ C. boiling water
- 2 C. sugar
- ½ C. butter or margarine
- 2 eggs
- 2½ C. sifted cake flour
- 1½ t. baking powder
- 1 t. soda
- 1½ t. salt
- 1 C. thick sour milk
- 1 t. vanilla

Dissolve cocoa in boiling water and allow to cool. Meanwhile, cream shortening and sugar, add beaten eggs; sift flour with baking powder, salt and soda and add, alternately with sour milk. Stir in cocoa and add vanilla. Bake in a large greased pan 10x15x2½ inches at 350 degrees for about 40 minutes.

A good way to warm a few rolls or biscuits without lighting the oven is to heat them in the top of a double boiler.

Bake an open apple pie in large, deep pie plate. Ten minutes before removing the pie from the oven lay a ring of large potato chips on the surface, just inside the pastry rim.

COOK OF THE WEEK

SELMA BOLL

This week you and I have the pleasure of visiting with Mrs. Selma Boll of Princeton for two of her favorite recipes.

Mrs. Boll devotes her time between her household duties and helping her husband, Heinie, in their store. Therefore, she said that she did not have much time left for hobbies. The Boll's have two children, Leone and Merlin, who both live at home.

Now here are those two recipes that we hope you will enjoy trying.

COCONUT MACAROONS

2¼ cups sifted all purpose flour
1½ teaspoon baking soda
2 teaspoons baking powder
½ teaspoon salt
1¼ cups shortening
1 cup white sugar
1 cup brown sugar

firmly packed

2 eggs
1 cup rolled oats
1 cup chopped walnuts
2 cups chopped coconut

Start your oven at 350 degrees F. or moderate. Sift flour, baking soda, baking powder and salt together.

Work shortening until soft. Then gradually work in both kinds of sugar until mixture is smooth and creamy. Beat eggs slightly and mix into the shortening mixture. Mix in the flour combination, rolled oats, walnuts, coconut thoroughly. This rather stiff batter is more easily combined if you use your hands.

Pick off little portions of dough and roll into balls, the size of a walnut. Place on ungreased cookie sheets, about 3 inches apart to allow for spreading and bake 12 to 15 minutes or until golden. Remove from cookie sheet when slightly cool, place on wire rack.

STRAWBERRY FLUFF PIE

Put in refrigerator to chill — a 1 qt. bowl, the beaters from your electric mixer and ½ cup evaporated milk.

Dissolve — 1 pkg. strawberry Jello in 1 1/3 cups hot water

Add — ¼ cup sugar
Dash of salt
2 Tablespoons lemon juice

Chill — until partially set - then beat with electric or rotary beater until fluffy.

Add — 1 box frozen strawberries - partially thawed (or two cups fresh sliced strawberries)

Next — Whip until thick and stiff, the evaporated milk. Beat in 2 tablespoons sugar
1 tablespoon lemon juice
1 teaspoon vanilla

Fold — into strawberry mixture and pour into prepared graham cracker crust.

Chill — until serving time. Garnish each serving with a mound of whipped cream centered with berries.

Graham Cracker Crust

1½ cups fine crumbs - about 18 graham crackers
½ teaspoon cinnamon
¼ cup sugar
½ cup butter, melted
Mix thoroughly and press into shape in a 9 inch pie pan.

A small boy was dressing one morning and his mother gave him the choice of wearing either a blue and white T shirt or a brown and white one. After looking at both he replied, "I want the chocolate one."

A nice substitute for whipped cream may be made by slicing one ripe banana and adding it to the white of an egg. Beat it and the banana will dissolve as the egg becomes white and stiff.

ARGO

By Mrs. Laura Gast

Mrs. Luella Henry of Davenport, formerly of Argo, recently celebrated her 95th birthday.

Rev. and Mrs. C. S. Ramsdale returned from an eastern trip on Saturday. Rev. Ramsdale attended a 3-day meeting of the Board of Administration in Pittsburgh, Pa. Mrs. Ramsdale visited with their daughter and family in Chicago.

Nearly one hundred people attended the community supper and cake walk last Friday evening at the Pleasant Hill school. They cleared over seventy dollars.

The Willing Workers of the Argo church held their regular meeting Thursday afternoon in the home of Mrs. Clarence Bowker. The leader was Mrs. Raymond Hamilton.

The Good Samaritan Young Women's Missionary Society held their meeting Friday afternoon in the home of Mrs. Foster Auliff. The leader was Mrs. Glenn Veatch.

Mr. and Mrs. Johnny Moore and son, Gary, of Long Grove and Mrs. Elva Kraft of Princeton were visitors in the home of Mr. and Mrs. Robert Fletcher the first of the week.

Margaret and Joe Ramsdale, students at Monmouth College, were home for the weekend.

The Argo Junior Choir will meet on Friday, March 25, at 7 p.m. in the home of the director, Mrs. C. S. Ramsdale.

Mr. and Mrs. Roy Fletcher of Des Moines were house guests of their parents, Mr. and Mrs. John L. Fletcher, over the weekend.

Doris Portz Wins

Doris Portz, daughter of Mr. and Mrs. Anthony Portz, was pleasantly surprised Tuesday morning while watching a nation wide television program.

Previously, Miss Portz had entered a TV contest and she was announced as a winner on the Shelia Graham program.

The prize was a make-up kit.

COMMUNITY PROJECT SURVEY

EMERGENCIES —

During the past few months, several emergencies have occurred in our area requiring the service of an ambulance.

There have also been cases of a non-emergency nature for which ambulance transportation was necessary.

TIME - ALL IMPORTANT ! —

The length of time required to get a seriously injured or ill person to a hospital is a very vital factor.

Due to our location, we must wait until an ambulance travels nearly twenty miles to our area - then again travel the same miles to reach a hospital.

FIRE DEPARTMENT —

Our fire department is well equipped and manned. In addition to three fire-fighting units, the department has a resuscitator and other emergency equipment.

It is believed that an ambulance would be an excellent addition to the department.

THE WEEKLY NEWS is conducting a survey to determine public interest. A form is printed below for your convenience. Kindly answer the questions and mail to this newspaper at Princeton, Ia. The information will be given to the officers of the fire department for appropriate action.

PUBLIC SUPPORT —

The initial cost of securing a suitable ambulance, properly equipped, would of necessity be paid by public contributions.

A little from a lot would assure peace of mind in knowing that should a need arise we have local facilities to reach a hospital without undue delay.

AMBULANCE SURVEY

Having read the proposal and answered the questions below, this survey form is returned to serve as a guide in this Community Project.

In the past year has your household had need for ambulance service? Yes — No —

Do you believe that an ambulance in this area would be beneficial? Yes — No —

Would you be willing to make a donation for the purpose of securing an ambulance? Yes — No —

Local gardener interested in forming area garden club

Pete Krieger as you know, is a serious flower gardener and spends endless hours in his ADMIRATION GARDENS.

Mr. Krieger would like to form a garden club in this area. He believes that such an organization would give participating gardeners a greater pleasure by an exchange of similar interests.

He also pointed out that our town and rural area would be scenically enhanced, by the groups activities.

Interested parties are urged to contact Mr. Krieger.

If we may offer a suggestion, perhaps one species might be featured or encouraged to become a symbol of this area.

COOK OF THE WEEK

VEVA DOMER

This week you and I have the pleasure of meeting Mrs. Veva (William N.) Domer of LeClaire and discovering what are some of her favorite recipes.

Veva said that she keeps busy with housework - her own and she also helps her father, James Benson, who lives next door - but in her spare moments very much enjoys crocheting rag rugs, reading and collecting recipes.

The Domers have one daughter, Karen, a sophomore in LeClaire high school. Veva told me that the sophomore home economics class, of which Karen is a member, recently cooked and served a banquet, under the capable direction of Mrs. Krava, to the faculty and the board members and their wives. So I asked to have Karen pass along a recipe that other teen-agers might also enjoy making. You will find her contribution (Praline Cookies) below, along with her mother's recipes.

RAIN IN APRIL

Rain has such fun in April,

It patters through the trees,

Talking to all the leaf buds

And robins that it sees.

It splashes in the puddles

And skips upon the walks,

Goes sliding down the grass blades

And dandelion stalks.

It dips in all the flowers

And when the clouds go by

It paints with flower colors

A rainbow in the sky!

— Eleanor Hammond.

: Well, hello - if it hadn't been for that shower I'll bet you would be out raking the yard or garden—or mopping up the mud tracks brought in by the children and the dog.

Just like the trees and tulips, the energy the children have stored up all winter seems to burst out with the first few days of warm weather. So I am very glad you stopped for a few minutes for a cup of coffee with me --- and to rest that 'ooohh' 'achin' back.

While we are working outside this spring let us all remember to take time to look at the beauty around us. For, then, we realize that nature is the living, visible garment of God. When you look down at a tiny plant coming up from a still tinier seed do you stop to think what is behind it all causing it to come into existence? There is an education in our own back yard if we only look more deeply.

THOUGHT FOR THE WEEK—
Little minds are tamed and subdued by misfortune; but great minds rise above it.
— Washington Irving.

Cream butter until smooth. Add sugar and egg and beat until creamy and fluffy. Add vanilla. Sift in flour and blend thoroughly. Stir in nuts. Shape the dough into small balls. Flatten balls to 1/4 inch thickness on buttered baking sheet — at least one inch apart after being flattened. Bake at 375 degrees for 12 minutes or until nicely browned. Cool on cookie sheet for 2 or 3 minutes, then remove to cool. Makes about 3 dozen cookies. Very tasty for parties.

HEARING BAD?

If so, you will be happy to know how we have improved the hearing and relieved those miserable head noises, caused by catarrh of the head, for thousands of people (many past 70) who have used our simple Elmo Palliative Home Treatment in the past 16 years. This may be the answer to your prayer. NOTHING TO WEAR.

Here are SOME of the symptoms that may likely be caused by your catarrhal deafness and head noises: Head feels clogged up from mucus. Dropping of mucus in throat. Hacking and spitting. Mucus in nose or throat everyday. Hearing worse with a cold. Hear — but don't understand words. Hear better on clear days. Worse on rainy days. Head noises like cricket, whistles, clicking, escaping steam or many other sounds.

If your condition is caused by catarrh of the head, you, too, may likely enjoy such wonderful relief as many others have reported. WRITE TODAY FOR PROOF AND 30 DAY TRIAL OFFER.

COOK OF THE WEEK

DAN AND MYRTLE PAIN

Hello — I've been waiting for you with a cup of coffee in hand so we could get right down to the pleasure (a double one this week) of meeting our guest cooks.

They are Mr. and Mrs. Dan Pain, or Dan and Myrtle as their friends call them. The Pains operate Pain's Cafe in Princeton and are the parents of one daughter, Bobbi Ann. Bobbi is in the eighth grade.

Myrtle said she learned how to cook from her husband and a cook book.

Dan has always been more or less interested in cooking. As a boy he worked for his uncle in a restaurant in Maquoketa and during the years that have followed his interest and ability to turn out delicious baked goods have increased.

As far as hobbies are concerned, Myrtle said that she enjoys painting and sewing and Dan — well, if you call taking care of voting machines a hobby, that is what his is.

Here's hoping you will enjoy trying the following four recipes that they have shared with us.

CRISPY-CRUSTED ANGEL CUPCAKES

Use your favorite angel food cake batter or mix. Coat 24 muffin cups (two tins of 12 cups each) with ¼ C. butter. Divide one package of coconut into the cups. Fill each cup slightly heaping with batter. Bake at 375 degrees for 20 to 25 minutes. Place pans in oven away from sides. Cool 10 to 15 minutes before removing cakes from tins.

RAISIN-NUT PIE

2 C. sugar
6 eggs, beaten
1 t. cloves
1 t. cinnamon
1 C. raisins, cooked in 1 c. water
1 T. vinegar
Butter, size of walnut
1 C. nuts, chopped
Blend all ingredients thoroughly and put in an unbaked pie shell. Bake in a moderate oven 35 to 40 minutes.

Something New For Garden Lovers—
Make Your Own Humus This Easy Way

Every amateur gardener wants his flowers and vegetables to look as seed packages and catalogues picture them. But he's so often disappointed when they don't develop that way at all. Frequently the reason is a lack of adequate soil humus.

Called the closest thing to a "cure-all" for ailing gardens, humus adds body to sandy soils and makes clay soils crumbly and easy to work. In both cases, humus increases the capacity of soil to hold moisture around the roots where it's needed.

Amateur gardeners can easily make their own humus thanks to a unique material—calcium cyanamide. Until now available only to farmers and professional growers, it is nature's aid for building soil humus fast. Known as Lawn and Garden Cyanamid, this material rapidly charges crop refuse, including leaves and grass clippings, into rich, loamy humus—much like a virgin soil. Moreover, it does this right in your garden area where you want it. So don't burn or throw away that valuable plant refuse, making it necessary to buy and haul in all sorts of expensive substitutes.

Good soil is not dead like it appears, but very much alive with millions of beneficial microbes in every shovelful. To keep alive and

increasing, they must have a diet of both nitrogen and lime. Cyanamid contains both in the proper amounts, so the organisms can manufacture the rich humus in the soil which all plant life requires for healthy development. Fortunately, too, the growth-stimulating nitrogen in this material is of an organic type so that it doesn't wash out with the first heavy rains—but lasts all season long. No more early wilting and fading away!

Converting organic refuse such as last year's flower or vegetable stalks, leaves and grass clippings into humus can be accomplished in a remarkably short time. Here's all there is to it: Measure your garden area and simply spread evenly by hand or fertilizer spreader one pound of Cyanamid for every 75 square feet. Apply it right on top of the remains of flowers, vegetables, grass or leaf mulches—wherever you intend to plant or seed. Then turn the Cyanamid along with the crop refuse under to a depth of 5 to 8 inches a week or more before planting or seeding.

Try leaving a small portion of your garden without this treatment and watch what a difference those happy, well-fed soil organisms make in the size and beauty of your flowers and vegetables.

ATTENDS PHONE CONVENTION AT DES MOINES

Russell J. Enyeart, owner, of the LeClaire and Princeton Telephone Exchanges has returned to Princeton after attending the 59th Annual Convention of the Iowa Independent Telephone Association in Des Moines, April 12 and 13 at the Hotel Fort Des Moines.

Mr. Enyeart has never missed attending this convention, since being in Iowa. Mrs. Enyeart has often attended with him.

Mr. and Mrs. Henry Paaske of the Argo Telephone Company also attended the convention.

President E. G. Carlson, Creston, opened the meeting and pointed out the theme of the year, "Forward in '55" means that it will be the goal of the Association to average one dial conversion every seven days this year. Carlson said that there were only 8 independent dial exchanges in Iowa at the end of World War II, and now there are 150.

More than 700 members from every county in the state and representing 250 telephone companies heard luncheon speaker W. Harold Brenton, Brenton, president of Brenton Banks, and past president of the American Bankers Association, complimented the Iowa Association on its work in the field.

Iowa stands at the top of the list in number of phones per 100 operating farms, and is recognized as a pioneer state in many new advances on rural telephone service. Other states are following the Iowa pattern of service and development.

The Tuesday noon luncheon, according to Enyeart, was a high light as some 150 Iowa legislators as well as Governor Hoegh and other state officials met with them for the luncheon.

Mr. Enyeart attended a Convention Sales Symposium where developments, and plans for better service and plant facilities were discussed. They were also able to study new telephone equipment for the home and office which will be available this year.

One of the most interesting exhibits was the FM radio equipment which is being developed for rural service. It is the first time this equipment has ever been shown at an Independent Telephone Convention. Conversation is beamed from the home to a central telephone office, without use of wires.

SPRING-CLEANING NOTES

1. Oil a dream and make it work.
2. Polish my heart until love glows.
3. Clean out basement where fears lurk.
4. Mend complaining where it shows.
5. Tighten the hinge on self-control.
6. Wash the windows of my soul.

by Jessie M. Franklin

This is the type of housecleaning that can actually be done any time of the year don't you agree?

Well, how are you today?

Have time for a cup of coffee with me? — Fine. Hope you will find it relaxing.

If you are bothered by a door that sticks during wet weather, apply paraffin wax to the edge and to the jamb which meets it. The door will then be easier to manage until dry weather causes the wood to shrink again.

Overheard a three-year old, who suddenly developed a runny nose, say to his mother: "Get me a hanky — my nose is leakin'."

Building window boxes? To prevent wood rot, line them with heavy-duty aluminum foil before filling with soil. Fold the foil carefully at the corners so there are no tears exposing the wood.

My ol' timer friend says: "Knowing everything that might be done is knowledge. Knowing what is right to do is wisdom. Doing it is character."

COOK OF THE WEEK

SARAH DANNATT

It is our pleasure this week to have as our guest cook, Mrs. Sarah (Eugene) Dannatt of Princeton.

Sarah, who was a 4-H leader for nine years until she suffered a broken ankle, now finds time to teach a class in Sunday School. She is also sponsor for the Junior Fellowship group.

For hobbies Sarah enjoys reading and also growing flowers.

Sarah and Eugene are celebrating their silver anniversary this Sunday with 'open house' to be held from 2 to 5 p.m. and from 7 to 10 p.m. They are the parents of three daughters; Mrs. Norman Schroeder of Princeton; Beverly, who is the kindergarten teacher at LeClaire grade school; and Pat, who graduated from Clinton high school this year and has enrolled at Coe College for the coming fall term. There are two grandchildren, Ned and Honda Schroeder.

Following are three of Sarah's recipes:

ANGEL FOOD CAKE

2 cups egg whites (14 eggs)
1½ cup sugar
Heaping cup cake flour
1½ teaspoon cream of tartar
¼teaspoon salt
1 teaspoon vanilla flavoring
Sift flour and sugar separately 4 times. Measure each after third sifting, whip egg whites lightly with wire beater. When egg whites are about half beaten add cream of tartar and continue whipping until stiff, then fold in salt, vanilla, sugar and last the flour. Pour into un-oiled tube pan. Start in cold oven and bake at 325 degrees for 60 minutes.

CORNFLAKE MACAROONS

2 egg whites
1 cup sugar
½ teaspoon vanilla flavoring
1 cup coconut
2 cups cornflakes
½ cup chopped nuts
Beat egg whites until stiff and dry. Fold in sugar gradually. Add flavoring, coconut, cornflakes and nuts. Drop by teaspoonfuls onto well-oiled baking sheet. Bake in moderate oven (375 degrees) until delicate brown. Makes 36 servings.

RHUBARB PIE

Fill pastry-lined pie pan with finely sliced rhubarb. Combine 1½ cups sugar, 3 tablespoons flour, 2 egg yolks, ¼ teaspoon salt and enough water to make thin paste. Pour over the rhubarb. Bake without top crust at 350 degrees until rhubarb is tender.

Cover the top with meringue, made as follows:

Beat the egg whites until stiff, then add 2 teaspoon sugar, and ¼ teaspoon cream of tartar. Put the pie back in oven until the meringue is delicately brown.

WHAT'S MORE AMERICAN THAN BEING INDEPENDENT?

The Independent telephone industry, to which we belong, is a perfect example of America's good use of independence.

The more than 6,000 Independent telephone companies, locally operated, serve more than two-thirds of the area of the United States. Theirs is a progressive influence which would be impossible under a single private or governmental operation.

*Here comes a
Capitalist!*

IT COULD BE the president of a big corporation...or the president of a bank...or the President of the U.S.A. But it isn't any of these. It's the worker who helped build the car he owns...who has stock in the company he works for...and cash in the bank for the future.

In America everyone who earns and saves is a capitalist — a stockholder in the free enterprise system that makes America's standard of living the highest in the world. Working and saving in this way produces lasting benefits for all.

So when someone calls you a capitalist, stick out your chest. He's saying that you are a member of the American productive team. Who wants to be anything else?

We invite you to bank your dollars here — where you have multiple safeguards for your money... where every account is important, regardless of its size.
